A Printer's Error...

Sometimes is a very expensive thing . for the printer, but more often for the advertiser. We recently advertised our well known, and people say, deservedly popular "LADIES JOURNAL," and the printer made us say that the subscription price was Fifty Cents a year, when everyone knows the regular rate is One Dollar per year, and is one of the cheapest and best ladies' papers on the continent at that figure.

Cut in Two to Stand -:- -:-

Now, the queer part of the whole -business comes in. We had such a rush of subscriptions at the fifty cent rate that we have decided to let the JOURNAL go at fifty cents during the usually dull summer months, so as to keep

money order, through the Express or Post office; or postage stamps, if these are unattainable,) and get the Journal for a year for just half-price. Take advantage of the low offer while it is going, for, unless we have an enormous list at this price, we will not be able to continue it. We will send the Journal, post-paid, to any address in Canada or the United States at this half rate, but accept it now.

Two for One, and a Present

Better still. Get a friend to join you and send one dollar, and we will mail the JOURNAL to each of you for a year, and in addition, make you each a present of a Sterling Silver-Plated Souvenir (Toronto) Coffee Spoon, with gold-plated bowl. We have seen spoons not so good as this retailed at one dollar. No premium is given with a single subscription.

Boys and Girls . . .

There are lots of beautiful things in the Journal of interest to you; it is not only for your big sisters and mother. There are prizes offered every month for the best compositions, poems, stories, etc. Get father to subscribe for it for you.

No Agents . .

We employ no agents, so do not wait for one to call on you. We could not afford any commission at this cut price. Remit direct to
