ANDROGORANDA ANDRO

MEXICO

There is no place in the world where fortunes are being made as easily and quickly as in Southern Mexico.

A great deal of Canadian capital is being invested in rubber, cattle, sugar, etc. The climate is healthy. The trip by rail takes about the same time as to Vancouver or California. The new Canadian Steamship line runs direct from Montreal.

For mixed farming, cattle raising, fruit, lumber, manufacturing textiles, sugar, coffee, and especially rubber, the possibilities are simply wonderful.

Although the rich native grasses grow every day in the year, butter is brought in from Nova Scotia, and costs fifty cents per pound, Gold. Hogs fatten very rapidly on Jucca or Alfalfa, but Breakfast Bacon is fifty cents per pound and lard twenty-five cents. Two crops of corn are raised in the year and the price is never lower than \$1.20 to \$2.00 per bushel. It is claimed that cattle can be raised for the price of the hides.

We are issuing free printed matter about Mexico.
