M despatch from Washington -Rev. Dr. Talmage preached from following text just before leavin

Sermon Preach

Europe: "And when we had take leave one of another, we took s -Acts xxi. 6. Paul was an old sailor-not from cupation, but from frequency of wel. I think he could have tak vessel across the Mediterranear well as some of the ship-captains.

sailors never scoffed at him for

ing a "land-lubber." If Paul's

wice had been taken, the crew w never have gone ashore at Melita. The men who now go to sea maps, and charts, and modern o pass, warned by buoy and lightho know nothing of the perils of anc navigation. Horace said that man who first ventured on the must have had a heart bound v oak and triple brass. People t ventured only from headland beadland, and from island to isla and not until long after spread th sail for a voyage across the sea. fore starting, the weather was wat ed, and the vessel having been hau up on the shore, the mariners pla their shoulders against the stern the ship and heaved it off-they, the last moment leaping into Vessels were then chiefly ships burden-the transit of passenge being the exception; for the world w not then migratory as in our do

when the first desire of a man in o place seems to be to get into anot er place. In the spring, summer, and autum the Mediterranean Sea was white wi the wings of ships, but at the fir wintry blast they hied themselves the nearest harbor; although now th world's commerce prospers in Januar as well as in June, and in mid-wint

all over the wide and stormy dee there float PALACES OF LIGHT, trampling the billows under foo and showering the sparks of terribl furnaces on the wild wind; and the Christian passenger, tippeted an shawled, sits under the shelter of th smokestack, looking off upon th phosphorescent deep, on which

, written in scrolls of foam and fire "Thy way, O God, is in the sea, an thy path in the great waters!" It is in those days of early navi gation that I see a group of men, we men, and children on the beach a Tyre. Paul is about to leave the congregation to whom he had preach ed, and they are come down to see him off. It is a solemn thing to part. There are so many traps that wait for a man's feet. The solid ground may break through, and the sea-how many dark mysteries it hides in its bosom! A few counsels, a hasty good-bye, a last look, and the

ropes rattle, and the sails are hoisted,

and the planks are hauled in, and

Paul is gone. "When we had taken our leave one of another, we took ship." The Church is the dry dock where souls are to be fitted out for heaven; In making a vessel for this voyage, the first need is sound timber. The floor-timbers ought to be of solid stuff. For the want of it, vessels that looked able to run their jibbooms into the eye of any tempest, when caught in a storm have been crushed like a wafer. The truths of God's word are what I mean by floortimbers. Away with your lighter

materials. Nothing but oaks hewn in the forest of divine truth, are staunch enough for this craft. You must have Love for a helm, to guide and turn the craft. Neither Pride, nor Ambition, nor Avarice, will do for a rudder. Love, not only in the heart, but flashing in the eye, and tingling in the hand-Love married to work, which many look upon

> Summer S Wo

It requires an enormous amount of v vitality to withstand the weakening o and trying effects of the withering summer weather, to overcome the languid wornout feelings, and to fight f off the fevers and dreadful fatal diseases which are especially prevalent in the summer time, and ever ready to u attack those in a low state of health.

There is nothing so trying on the system, as the hot, summer weather, C. and none who suffer more from the heat than the woman with the cares | +; of a family on her hands, requiring work in the hot kitchen and over the stova. Many a wornout, despondent | ;; woman who could scarcely drag her- er self about the house has been restor- in ed to health and strength by the use an of Dr. Chase's Nerve Food, pills, the la great blood builder and nerve restor- m
