**SURPRISE TO OUR READERS.**

**Circumstances Compel us to Print This Week.**

The publication of this issue of the Mirror will, no doubt, be a surprise to our many readers, as we announced in our last issue that the publication of this journal would be suspended for two weeks, and that we would be off on our holidays. However, owing to circumstances, which cannot be very well avoided, we present to our readers this week's Mirror. By holding over our paper for two issues and not publishing this week, would have incurred a very heavy expense upon us, which was not known at the hour of going to press last week. We therefore cheerfully give to our readers the benefit of the extra expense of this week's Mirror, but they will not receive our paper for the next two weeks, that is September 14th and 21st, but will resume publication on Friday, Sept. 28th, when, by that time, we expect to have all our subscribers paid up to the first of the new year. All those who are indebted to us will find in their paper, the amount due, and by a prompt settlement will oblige the publishers.

Every column of a newspaper contains from five to twenty thousand distinct pieces of metal, according to the size of the paper. The displacement of one of them means an error. Is it any wonder that errors sometimes occur.

That of the sea otter is of all fur the most valuable, as high as \$1,100 having been paid for a single skin. At the late London fair sale \$1,650 was paid, the lower price being due to a poorer quality, as the average advance in price this year has been about 15 per cent.

If you want to buy or sell a farm, adv. in the Toronto Weekly Mail. That paper reaches 100,000 farmers' homes every week and your advertisement should meet the eye of some one who wants to purchase. Advertisements of this class are inserted in the Toronto Weekly Mail for Five Cents a word for each insertion. Twenty Cents a word for five insertions. Address: The Mail, Toronto, Canada.

A Toronto man has invented a novelty in the shape of a pneumatic tire skate. The invention is called the bicycle skate, and it stands about ten inches high, having ball bearings, a spring rest for the feet and ankle supports, each weighing only three-and-a-half pounds. The inventor claims that it can travel on the asphalt pavement at the rate of forty miles an hour.

The local newspaper is supposed to champion the rights of the people and help along every local enterprise. There is scarcely a resident in town who, at some time or other, does not want to use its pages. It is condema this, puff that and boost the other thing, but when it comes to a liberally paid advertising patronage to help maintain the matter well, that is an entirely different story.

The third page of the Toronto Daily Mail is noted for "Want" advertisements. If you want a situation, a mechanic, a business, machinery, lodging, if you have lost or found anything. If you want to find out where anyone is, advertise in the Toronto Daily Mail and read the advertisements on the third page of that paper. The charge is two cents a word each insertion, or ten cents a word for six insertions. Address the Mail, Toronto, Canada.

We learn that the firm of T. Ivory & Sons have secured the services of Miss Williamson, as their milliner for this season. Miss Williamson was the first milliner that this firm secured when they started the millinery department in connection with their store and she filled her position very acceptably. During the last season, she has been in Toronto.

Labor Day was not observed by our citizens on Monday, business went on the same as usual, stores were not closed, schools remained open, and the only thing noticeable on the streets was in the evening, when several of those hardy men of toil, loaded themselves up with the fiery fluid, and made it rather noisy to those who were resting comfortably in their rooms.

Geo. J. Early, photographer of Peterborough, has sold out his business to Mr. S. Byers, of Lockport, N. Y., brother of Mr. A. E. Byers, of our town. The Review, in speaking of the departure of Mr. Early and the coming of Mr. Byers, has the following to say:—"Mr. Byers who comes here will be welcomed. He is an experienced photographer, and while Peterborough will lose one good citizen there will be consolation in knowing that another good one takes his place." Watch for Mr. Byers' advertisement in our next issue.

The band concert on Saturday evening was much enjoyed by our citizens. Great praise is being given to the band boys on the rendition of such beautiful music as was given on the above evening, and we all feel proud of having such an acquisition to our town. They deserve the hearty support of our people in every undertaking which is given in helping along the band.

The following is taken from the Christian Guardian, which refers to a portrait painted by a former resident of the town: "Mr. Sherwood, a Toronto artist, has painted an excellent portrait of the late Rev. Orrin Ellsworth, father of Mrs. J. W. Flavelle, of this city. Though painted from a photograph, the friends of Mr. Ellsworth will recognize this as a striking likeness of a good man."

The prosperity of a town is not gauged by the wealth of its inhabitants, but by the uniformity with which they pull together when an important undertaking is to be accomplished. A man with a thousand dollars at his command and a love for his town in his heart, can do more for the building up of and improving it than the millionaire who locks up his capital and snaps his fingers at home progress.

A destructive fire broke out at Kinmount on Saturday morning and owing to the excessive dryness spread rapidly and widely. The buildings destroyed were Bowie's hotel, Cyril Scott's dwelling, Jas. Wilson's butcher shop, Scott's store (unoccupied), Rivers' shop, Chas. Scott's dwelling (loss \$1,000), and McDonald's blacksmith shop. The total loss is about \$15,000, only partially covered by insurance. The fire is a great set back to the prosperity of the village.

A St. Mary's man, who has four daughters of marriageable age, sent his sofa to be renovated, and the following is a partial list of articles which had slipped between the back and cushion, as counted and reasured: Forty-seven hairpins, three mousethe combs, nineteen suspender buttons, eight photographs, 214 pins, 27 cuff buttons, six pocket knives, fifteen poker chips, 34 lumps of chewing gum, fifty-nine tooth picks, 28 matches, 39 collar buttons, 11 neckties, two love letters, a few pieces of candy, two dimes, three quarters, one nickel, 8 buckles, 5 lead pencils, one pen and four button hooks.

For the benefit of our sporting readers we publish the different open seasons for game in Ontario: Deer shooting commences on the 20th of October and ends on the 15th of November. No person allowed to kill more than two deer. Partridge, woodcock, snipe, black and grey squirrels and hares, shooting commences on the 15th September and ends 15th December. Duck shooting commences first September, ends 15th December. No one allowed to kill more than 400 ducks in season. No sale or barter of snipe, woodcock or partridge allowed 15th September, 1897. Penalties not less than \$20.

A pupil in a certain school was suspended the other day for offering this composition on "Pants." "Pants are made for men, and not men for pants. Pants are like molasses; they are thinner in hot weather and thicker in cold. The man in the moon changes his pants during the eclipse. Don't you go into the pantry for pants; you might be mistaken. Men are often mistaken in pants. Such mistakes make breeches of promise. There has been much discussion as to whether pants are singular or plural. Seems to us when men wear pants they are plural and when they don't it is singular. Men go on a bear in pants and it is all right; but the pants go on a bear it is all wrong."

**A Presbytery Delegation.**

On last Tuesday evening, the committee appointed by the Peterboro' Presbytery, met this branch of the congregation in the Presbyterian Church here. The reverend gentlemen of the delegation were: Rev. Dr. Smith, Port Hope; Rev. Hay, Cobourg; Rev. McWilliams, and Elder Tully, Peterboro'. The object of their visit was with a view of re-arranging this congregation and also that of Springfield, before ministers are called, both places being without a stationed pastor at present. They wanted an expression as to Omemee and one of the other charges sustaining a minister and in that case there would be two services here each Sabbath. This congregation, which was fairly represented, did not favor the project at present, and this discouraged the delegation in visiting other charges, hence the question will drop for the present. The reverend gentlemen remained here on Wednesday and during the afternoon enjoyed an outing on the water south of the village, but they are of the opinion that the fish fight shy of the clergy.
