It had not been always thus, however. Time was when the Waldos! were at the very foot of the social ladder. Thirty years previously Mr. Waldo had been a simple clerk in the bank; Mrs. Waldo, a young wid. w, with bright, bold eyes, which she had used with considerable effect upon Mr. Dandy, one of the partners. She was the widow of silly youth of good family, one of the Wingspurs, whose marriage had time. The few thousands she had of her own seemed to him a colossal fortune; she had her little house, too, and quite a fine lot of diamonds-some of the Wingspur's family jewels, she told him, but which, if the truth must be told, were presented to her by Mr. Dandy.

They began housekeeping in rather a modest way, and for years they were never too flush of money. They had to wait many years before Waldo became cashier. At last came a grand stroke of luck. Mr. Candelent died, leaving Mr. Dandy alone. The bank was at once reconstituted; Mr. Dandy wanted new blood, with the solid help of some one he could trust. Waldo became a partner with a fractional share. This gradually increased, till, after some ten years labor, Mr. Dandy withdrew himself almost entirely from business, and left Mr. Waldo with half profits and a clear income of twenty thousand a year.

And now Mrs. Waldo began to make the money fly. She revelled in Waldo's special favor or invitation. these riches. It was her only compensation, she told herself, for marrying Waldo, and she meant to make the most of it. Old Waldo degenerated into a kind of financial stoker, whose only business was to keep the domestic engines constantly supplied with cash. Otherwise he was quite a cipher in his own house-in it, but not of it: less at home there than the meanest of the gangs of guests by whom it was continually infested.
