NO MAN IS STRONGER THAN HIS STOMACH
 When Sandow poses and the muscles ridge his back and knot his arms, we think we have before us the very secret of strength in those magnificent muscles. But we haven't. Starve Sandow, or what is practically the same thing, let him be dyspeptic, and his muscle would soon fall. Strength is made from food properly digested and assimilated, and no man is stronger than his stomach, because when the stomach is diseased digestion and assimilation are imperfect. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food so that the body is nourished into perfect health and strength. "I had what my physician called indigestion. I gave me medicine for the trouble but it did me no good," writes Mr. W. H. Wells, of Willard, N. C. "I wrote to Dr. Pierce and stated my case. He sent me a descriptive list and hygienic rules. I carried out these as best I could, and commenced taking it. A few days later I noticed a great change. Felt like a new man. Before I began the use of the 'Golden Medical Discovery' I suffered greatly with pain in stomach, my head ached, and I was unable to sleep very long at night."
 Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the paper-covered book, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Mr. Hogg fell into line at the same price and got the three remaining factories—Palatine, Marlboro and Janville—securing 263 boxes. The next sale will be held on Monday, Sept. 8th.

A Remarkable Offer.
 The attention of our readers is drawn to the announcement on page X of this paper, which affords a splendid opportunity to secure that great family paper, the Family Herald and Weekly Star, of Montreal, absolutely free of charge for the balance of 1902. The Family Herald and Weekly Star is acknowledged to be in a class entirely by itself as a family paper, and the desire to introduce it into new homes has enabled us to make this arrangement with the publishers of that great paper. We learn that the Family Herald publishers will shortly announce their new premiums for this season, and the public will get a pleasant surprise. Read the announcement on page X of this issue.

All Canada at Toronto.
 There will not be a province or a piece of territory in the Dominion that will not be represented at the exhibition to be held in Toronto this year from Monday, Sept. 1st, to Saturday, Sept. 13th. To mark their appreciation of this evidence of the country's confidence, the Executive have increased the Prize List until now it is proudly boasted that, with special, upwards of \$37,000 will be distributed in prizes among the exhibitors, six-sevenths of which will find its way to the agricultural community. While this large sum proves the magnitude of the exposition, the enterprise of its managers, and the comprehensiveness of the exhibits, the fact that \$300,000 let-be spent in attractions and special features, the latest inventions as well as the latest novelties in the amusement world, and including \$7,000 for music, shows that while the agricultural and industrial interests of the country are to be well looked after, the people's enjoyment will not be neglected. America and Europe have been secured for all that is best in every line of attraction. Bolloos Kiraly, the greatest master of spectacle on earth, has been secured to produce in all its brilliancy and gorgeousness his stupendous production "The Orient," which was the wonder of London, Eng., at Olympia for a year, and that is only one of the really costly features that have either been engaged or are being negotiated for. Then there are the new Dairy Building and the new Art Gallery, which will greatly increase the value of the exhibition as a factor in the education and elevation of the people. In the Dairy Building not only will there be exhibits of dairy products, utensils, and so on, but lectures and demonstrations will be given twice daily in a hall provided with seating accommodation for 600 people. Reduced rates will, of course, be available on all lines of travel.
