England has the lowest crop of apples she has harvested in twenty years and in consequence the fruit is selling from four to five dollars a barrel in London. The business of exporting Canadian apples to the English market ought to boom this year.

An exchange says that all sensible farmers are marketing their grain, as there is little or no probability of the prices being any better than they are at present. The grain movement in Ontario has never been as slow and unsatisfactory as this season. Prices are the lowest on record for wheat.
Lord Aberdeen is prompting education along new lines. The offer he made at Brandon to give a medal to the boy or girl whose politeness, open-heartedness, and consideration for others are most marked is unique. The cultivation of such qualities is worthy the very highest patronage in the land.
An exchange says, with the settlement of the tariff, things are again beginning to boom in the United States. Two Chicago mothers have introduced six infants, three apiece, into the world, and a man in Missouri has been made the happy father of four at one blow. Tariff reform evidently meets the requirements of the infant industries.

What about re-organizing our Fire Co., now that we have Capt. J. Evans, who has always shown himself interested in this respect, with his large experience as a manufacturer and machinist on fire engines. No town possesses better opportunities, and has had more warnings. In time of peace is the time to prepare for war, should be Omemee's motto at present.
The third page of the Toronto Daily Mail is noted for "Want" advertisements. If you want a situation, a mechanic, a business, machinery, lodging, if you have lost or found anything. Correspondence from Omemee to the Orillia Packet has the following item:—"This village ought to have an Historical Society, and that without more delay. The few remaining pioneers should be interviewed" and their recollections recorded, as well as documents and other things having historical value collected and preserved.
At the recent Iowa State Fair, in a competitive test, a Holstein cow yielded 133.86 pounds of milk in three days, or 44.62 pounds per day (equal to about 23 quarts) as well as produced over two pounds of butter per day. This test was public, and was made for the benefit of those interested among the visitors. The yield, however, is not extraordinary for the breed.
Farmers and others uninsured should be governed to do so, as the number of fires occurring through lightning and other unavoidable causes, has been large this season. Mr. Johns and T. Morrissey having had two very narrow escapes lately, but have since become insured. Only for kind neighbors Mr. Johns would have been burned out.
They tell of a small boy in this place who crawled under the bed when his mother wanted him, so she left him there until his father returned in the evening. When the father came he was told of the case. He started to crawl under the bed to bring forth his disobedient son, but was nearly paralyzed when the little fellow screamed out, "Hello, papa, is she after you, too?"—Ex.
The Downeyville cheese maker and owner of the stock and plant there, is anxious to locate in or near Omemee, and the encouragement, asked by him, is very trivial in comparison to his offer. Let a few of our enterprising farmers take up the matter at once, and consider the enterprise, why it should not pay as well here as at places of much less importance throughout the Dominion, beyond count.
The season is now here when you are desirous of having your clothes look well, and as it is has been a hard season, you are unable to buy a new suit for the winter, and therefore bring in your clothes and have them cleaned and colored by the Parker's Steam Dye Works of Peterboro'. They will make the clothes look like new and will save you about \$16.00. The agency for the works is at the Mirror Office.
It is a fact to be lamented that we are largely forgetting the true object in assembling ourselves together. We too often attend divine worship for the purpose of hearing what is to be said and hope that it will be said in a new, interesting and perhaps startling way. In fact we go to listen to a man, when our greatest object ought to be, to go there, make our wants known unto God, confess our sins to Him, thank Him for all His goodness, sing praises to His Name and listen to the reading of His inspired word.
The habit some people unconsciously fall into, of repeating a little thing said about his neighbor, and adding just a little to make it smoother, is indeed a very bad habit as it often leads to making up a story just for gossip sake without foundation. Persons having this awful mania should try to overcome it before they become involved in a slander suit. It should be remembered that persons repeating a story are as accountable for its results as though they were its author.
The Herald has the following "old story re-told"—"One day, not long since, a citizen of our town went out hunting. During the day a rain storm came on, and in order to avoid getting wet he crawled into a hollow log. As the rain came down the log began to swell, until the hunter could get neither way. He supposed himself had come, and thought of all the wrongs he had done, but when he recalled to mind that his subscription to the Herald had not been paid, he felt so small that he crawled out of the log without the slightest difficulty.

While R. C. Strickland, of Lakefield, was out partridge shooting recently, on a large wooded island in Stony Lake, he discovered two skeletons of full grown persons, about one and a half feet underground. The lower side of each of the skulls was smashed in. Mr. Strickland is inclined to think that they are the remains of some of the Jesuit Fathers who had followed up the Trent waters years ago and were tomahawked by the savages.
The time for returning the Dominion Voters' List expired on Monday. A large number of new names were added in this place, there being over thirty-eight Conservative names alone. In Ottawa the Conservatives were successful in getting three times as many names as the Reformers, and there has been big gains all over the country. In West Hastings the Conservatives added 223 names and the Reformers 64. In East Hastings the Conservatives added 630, the Patrons 20, and the Reformers 15.
This is the way the Uxbridge Journal man puts it:—"The editor of this great paper is away on a wheeling tour. We don't know when he will be back, but we are equal to any emergency. We can write a poem, discuss the tariff, umpire a ball game, report a wedding, saw wood, beat a lawyer, describe a fire so that the readers will shed their wraps, make a dollar do the work of ten, shine at a soiree, address a horticultural Society, measure calico, abuse the liquor habit, test whiskey, subscribe to charity, go without meals, attack N. P., defend the Government, sneer at snobbery, overlook scandal, praise babies, delight pumpkin raisers, minister to the afflicted, heal the disgruntled, fight to a finish, set type, mould opinion, sweep the office, praise the widows, run for office, speak at prayer meetings, and stand in with everybody and everything. If you don't see what you want ask for it."
General Booth in Lindsay.
As announced in last week's Mirror General Booth held a meeting in Lindsay on Wednesday evening. It was one of the largest religious gatherings which has ever taken place in that town, there being between three and four thousand people in the rink to listen to the great leader and founder of one of the foremost religious societies at the present day. The reception that he received at the station on his arrival on the six o'clock train was something Lindsay never in its history saw before, and to one on board the train as it pulled into the station, it was one of the prettiest sights the eye could behold, as the banners and flags waving by the breeze, bands playing and shouts of rejoicing to the General, was indeed a remarkable welcome. Judge Dean read an address of welcome to the General for the town of Lindsay, after which the distinguished visitor spoke at some length. At the conclusion of the addresses, the procession was formed and marched up William to Kent, down Kent and thence to the residence of Judge Dean, whereupon the general remained for lunch and was then escorted to the Rink where the great mass meeting was held. Large numbers were in attendance from this part and all were delighted at the masterly and interesting remarks which the General made. He spoke for over one hour and a half and in that time he received the loudest cheering possible by the large audience.

Hard on the Council.
The council have been grading the road on George Street, south of King, which improves this part of the street very much.—Omemee Mirror.
There must be a dearth of laborers in Omemee when the Council has to do street grading.—Peterboro Times.
Allow us to inform the Times that Omemee, being such a prosperous little town, that street laborers are hard to be found, and the council has to pick in, and do the street grading themselves.
PHOTOGRAPHY.
Mr. H. Byers, of Lockport N. Y., has purchased Mr. G. J. Early's photograph gallery at 374 George Street, Peterboro', and those who wish a true photo should not fail to give him a call. Mr. Byers is a thorough competent man, having had an extensive experience in the largest cities of Canada and the United States. In Toronto he served in the capacity of finisher for four or five of the best galleries in the city. This alone should be sufficient proof of his ability. Those who call will find Mr. Byers a very obliging gentleman and they may rest assured that they will receive first class work. The work which he is already turning out is the finest we have seen for some time.—42-2
Take Warning.
Sometime ago we asked those who had been taking the Mirror to either "whack up" or return the property. So far most of our delinquents have failed to do either. We have now come to the conclusion that they are all satisfied with the property they have got and by the powers of all that is good they will have to pay for it. Our fighting editor has purchased a new pair of cow hide foot gear, an old musket and a bull dog, so if you owe your editor anything you had better have the spondulix ready or take to the bush. We want the money that is due us and we are going to have it or have the scalp of a few of the spalpeens who are trying to get out of paying their honest debts, to adorn our sanctum.

An October Wedding.
A pretty wedding took place in the Presbyterian Church on Wednesday afternoon of this week, when Mr. J. H. Hurley, of Rochester, N. Y., led to the altar Miss Mary Fowler of the same city, but who has been residing in this locality for the past few months. The marriage and the altar of the church were a magnificent affair. The ceremony took place at 3:30 and was performed by Rev. John Ewing. The bride was attended in a beautiful white silk, trimmed with cream lace, and wore a wreath of white flowers from which hung the bride veil. She was assisted by her sister, Miss Sarah Fowler, of Rochester, who was dressed in a beautiful dress of white muslin, trimmed with cream silk ribbon, supported the groom. After enjoying a wedding dinner, prepared by the bride's mother, Mrs. J. R. Mitchell, the happy couple left on the evening train amidst showers of rice, for Rochester, where they will hereafter reside. Mr. Hurley is an officer in the State Industrial School in that city. The bride is a niece of Mrs. C. M. Carey, who lives a few miles East of Omemee. The presents received were both costly and beautiful, and showed the high esteem in which the bride is held by her relatives in this part of the Province and successful journey through life.
