A SKEPTIC CONVINCED.

He Had No Faith in Any Advertised Medicine.

Attacked With a Bad Cold. His Trouble Went From Bad to Worse Until he Was Threatened With Locomotor Ataxia-Then Dr. Williams' Pink Pills Cured A ter Other Medicines Bad Failed.

The remarkable cures effected by Dr Williams' Pink Pills have long been a matter of newspaper notoriety, and many of them-weil described as miracles-have been in our own province, but we believe so far none have been published from Yarmouth. A Times representative enquired in a quarter where such matters would to health directly traceable to Dr. Wil-Charles E. Mr. Trask, who has been an accountant in Yarmouth for many years, was in his office on John street when the reporter waited on him.

A hint that I was threatened with something called locomotor staxia reminded a friend that my case seemed similar to some of those described in the Times, which had been cured by Dr. Williams' Pink Pills, and this first drew attention to them as a possible aid to me. I admit that I was skepticalvery skeptical-there are so many medicines being advertised just now, and ! was never much of a believer in them. Well, Dr. Williams' Pink Pills were purchased and I took them, as I suppose I would have taken anything else, simply as the routine of a sick room. The first box seemed to show littleeffect, and by the time I had got through with the third box there could be no doubt my condition showed a marked improvement, and I was correspondingly encouraged. The pills were continued and I became rapidly better, so that I was able to sit up and go about the house, and occasionally go out if the weather was fine. Day by day I grew stronger, and to make a long story short, I feel I am to-day in as good health as ever was in my life, and I can hardly realize am the same man who suffered for six months, a helpless, despondent being, who never expected to be on his feet again. While I have no desire for publicity I am quite willing these facts should be made known for the benefit of others, and am ready at any time to bear hearty testimony to the genuine worth of Dr. Williams' Pink Pills. The great success of the chocolate preparations of the house of Walter Baker & Co. (established in 1780) has led to the placing on the market many misleading and unscrupulous imitations of their name, labels, and wrappers. Walter Baker & Co. are the oldest and largest manufacturers of pure and high-grade Cocoas and Chocolates on this continent. No chemicals are used in their manufactures. Consumers should ask for, and be sure that they get, the genuine Walter Baker & Co.'s goods.

CURRENT NOTES

The prevailing cheapness of I

portant facts in the history of civilization. There has never been a time when abundant matter was placed within su reach of all classes. The aver zen is no longer deprived of th tunity of increasing his stock mation and gratifying his tastes by reason of his pecuni tations. He can buy a whee load of books for less than a few used to cost him. It is a pers fault if he does not keep hims posted upon every subject of interest, and gain acquaintar the best authors in every by literature. By the expendit dollar a week, a library cove kinds of knowledge in a gene can soon be accumulated. merely books of a light and character that are thus made to people of limited means. The ness extends to standard wo gives such people the chance ing the greatest products of genius as well as the conte output of a lower grade of which is not fitted for long but which serves a certain pur ertheless, and deserves a cert of attention.

This wonderful cheapening ature is due in a large mea course, to the lessened cost of ial and the improvement in of manufacture; but the exp does not stop there, and the nificance of the matter does n its strictly commercial asp fact is that there has been a able development of the readi in recent years, and the gro mand for books and period stimulated competition and e on the part of the publishers, a ed to bring about the redu prices. It is impossible to esti influence that has been exe this respect by the many liter and societies throughout the These agencies and others of nature have multiplied the n readers, general and special, a precedented rate. In home reading matter was once rest two or three volumes hand from a former generation, ti now scores of books centaining est conclusions upon all vital of and providing a convenient sou struction and entertainmen ature has been popularized in sense of the term. Books has in a sense to be a luxury, and come a common possession, fre the people derive immeasure vantages in all the relations
