

# SAVED THEIR BOY.

## HE HAD BEEN WEAK AND AILING FROM INFANCY.

As he grew older his trouble seemed to increase and his parents thought him doomed to an invalid's life. Dr. Williams' Pink Pills cured him when Hope H. almost departed.

From the Post, Thorold, Ont.

Mr. James Dabault and wife are two of the best known residents of the town of Thorold, where they have passed many years. In their family they have a little son, who, although but ten years of age, has experienced much affliction, and his parents expended many a dollar in the search for his renewed health—all in vain, however, until Dr. Williams' Pink Pills were brought into use. A Post reporter hearing of the cure called at Mr. Dabault's cozy home and received full particulars from Mrs. Dabault, who, in a pleasant way, said Mrs. Dabault, "to have the public made aware of the facts of my boy's case it is likely to help some other sufferer. Charles is now ten years of age. In infancy he was a delicate child, but from four to seven he scarcely passed a well day. At four years of age he began to complain of frequent headaches, which later became almost continuous, and soon symptoms of general debility developed. His appetite was poor and he grew pale and emaciated, and the least exertion caused a severe palpitation and fluttering of the heart, and dizziness. At times there was considerable derangement of his stomach; a business of the lips and a shortness of breath. He would often lie awake at night and rise in the morning haggard and unrefreshed. During his illness he was treated by two doctors. Both differed in the diagnosis of his case. One said it was catarrh of the stomach, and while his treatment was persisted in there was no improvement. The second also attended him for some time with no better results. Some time after my attention was attracted by my aunt to Dr. Williams' Pink Pills, and about September, 1897, I procured the pills and he began taking them. We had long before come to the conclusion he would be an invalid for life, but believing it a duty I owed to my child to procure all means of relief, I was determined to give Dr. Williams' Pink Pills a fair trial. The good effects of the first box was apparent, and five boxes were used, which were taken in about six months' time, when he was strong and well, and could attend school, and play and frolic as other healthy boys. As every symptom of his old trouble has vanished, I consider his cure complete. The pills have certainly done him a world of good, as nearly three years have since passed away and he has not seen a sick day in that length of time. I shall ever feel that we owe our boy's health to Dr. Williams' Pink Pills, and believe that their prompt use would relieve much suffering."

Dr. Williams' Pink Pills are just as valuable in the case of children as with adults, and many little ones would soon thrive and grow fat under this treatment, which has no equal for building up the blood and giving renewed strength to brain, body and nerves. Sold by all dealers or sent postpaid at 50c. a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not be persuaded to try something else said to be "just as good."

# QUEER THINGS IN CHINA.

## Wine drunk hot. Old men fly kites. Boats drawn by men. Soldiers in petticoats. Family names come first. Babies that seldom cry. White worn as mourning. Carriages moved by sails. School children sit with their backs to the teacher.

Great Things from Little Causes Grow. It takes very little to derange the stomach. The cause may be slight, a cold, something eaten or drunk, anxiety, worry or some other simple cause. But if precautions be not taken, this simple cause may have most serious consequences. Many a chronically debilitated constitution today owes its destruction to simple causes not dealt with in time. Keep the digestive apparatus in healthy condition and all will be well. Parmentier's Vegetable Pills are better than any other for the purpose.

# NICE WASH FOR DRY HAIR.

For hair that is dry an oily wash should be used about once a week or oftener. It should be rubbed into the scalp with a piece of flannel, a superfluous oil being avoided, and only sufficient used to moisten, not drown, the roots of the hair. The application of the oil must be accompanied by friction with the flannel. It is a mistake to suppose that dry hair will be really soft and brushed through it merely. To do permanent good, it is necessary that the fatty preparation should be rubbed into the skin of the head; a very small quantity will suffice to be of benefit. Violet or jasmine oil is nice. Dry hair should be washed with an egg yolk preparation.

# INDIA IS NOT PROGRESSIVE.

Madras is the only city in India where electricity is used as the power for street service. The tramways of Bombay are run by horse power and the streets are lighted by gas. An American company is trying to get the privilege of converting the Bombay tramways into an electrically operated system.

# DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by catarrh, which is nothing but an inflammation of the mucous surface.

# CHAPTER I.

OF MY BECOMING A SEAFARING MAN. I was born in the days of the Lord Protector, so that I was a little past my majority when the things that I have in mind to relate took place. My father was a sea captain, out of Portsmouth for the Mediterranean,
