He Had Suffered for Forty Years from Dyspepsia-Food Became Detestable and Stomach Cramps Made Life a Burden.

From the Topic, Petrolea, Ont.

Few men in Petrolea are better known than Mr. Thomas Findlay. who has resided here nearly forty years. In 1862 Mr. Findlay came here, and before the railroad connected with Petrolea he drove a stage coach bringing the early oil men. When the railroad came here Mr. Findlay engaged in the oil business, but later he suffered from a gun accident that disabled his hands permanently. After recovering from this Mr. Findlay was appointed constable and night watchman for the town, which office he has held during thirty years past. This accident was by no means Mr. Findlay's worst misfortune. From early youth he had been a martyr to dyspepsia, which finally became so bad that he looked forward to death as a merciful release. Happening to hear that Mr. Findlay had found complete relief from his lifelong foe, a Topic reporter waited on him to find if this was true Mr. Findlay was only too glad to tell his story, hoping its publication might help some other sufferer. "I am a pretty old man now," said Mr. Findlay, "but I cannot remember the time when I was not in pain from pernicious dyspepsia and stomach trouble until lately. The Earlier Reports of Rich Placer Fields Are Corroborated.

The third of a series of messages corroborating the rich strike in the Cariboo district has reached Vancouver and apparently a placer district rich as the Klondike has been discovered, toward with a rush will be on as soon as the facts are real-

Veteran miners who went to investigate on the news of the strike have been heard from, and Robert Nesbitt, a well-known miner, declares that so far as he can judge the diggings are even richer than at first reported. The new placer district is of wide area filled with gulches and creeks of great promise, but reached only with the greatest difficulty. Surrounded by great mountains so rough that pack mules can go not nearer than five miles of the diggings, the miner must pack his provisions and mining tools and make his way on hands and knees over precipices and through brush, once across the mountain barrier the

Dear Sirs,-A few days ago I was taken with a severe pain and contraction of the cords of my leg, and had to be taken home in a rig. was unable to put my foot to the floor. A friend told me of your MINARD'S LINIMENT, and one hour from the first application, I was able to walk, and the pain entirely disappeared.

You can use my name as freely as you like, as I consider it the best remedy I have ever used. CHRISTOPHER GERRY.

We want a few more workers in this locality, at once, and in order to secure your co-operation without the delay of correspondence, w herewith explain our full plan in this advertisement. The work is simple, and the Machine is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with remittance, and we will send machine and outfit to begin

We wish to secure the services of families to do knitting for us in their homes. We are the introducers of this plan in Canada and are the largest knitting concern on the conline After long experience, we have been able to produce an Automatic Machino by which all kinds of seamless knitting is done by our Family Machine, thereby enabling anyone ray intelligence to quickly learn to do the work from the Instruction Cuide. All that we require is that you use the machine according to directions. The Machine being must be great demand now is for Woodmen's Socks, and Motomen's Mittens, and as we are unable to supply the demand, we have taken this method of advertising for more help. The price we pay for finished bicycle stockings is \$10.00 per hundred; woodmen's specks, for per pair, and motomen's mittens. Ife, a pair.

The machine can be operated by any one of a family, and at our prices any energetic family should be able to sustain themselves comfortably.

Our plan is to send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine mady to be continued, and also enough year to be a sample socks or stockings and a simple and complete Instruction Guide, showing how the work is to be done. When sample has been finished and returned to its rates to the state of sample and residit done the machine having a capacity of the thought of party. tory, we send a quantity of yarn, which you knit and return likewise when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as a to thirty pairs of socks or stockings a day, and where the time of a family is devoted to the work, you can readily see that from sit to gip per weak can be easily carned.

We furnish our workers all the materials, yarn, etc., free, and everything that is necessary for the work. We furnish the machine only for the easily carned titles of valuable yarn we may send from time to time will not be wanted or misappropriated. Our interests are mutual, and this confidence must be established if were are to success an extensive but the standard of the confidence of the confidence must be established if were are to success an extensive but indicates and record to be extended in the confidence must be established if were are to success an extensive but indicates and record to be extended in the confidence must be established if were are to success an extensive but indicates and record to be extended to success an extensive but indicates and record to be extended to success an extensive but indicates and record to be extended to success an extensive but indicates and record to be extended to success an extensive but indicates and record to be extended to success an extensive but indicates and record to be extended to success an extensive but indicates and return to extensive but indicates and return to extensive but indicates and return to extensive the extensive but indicates and return to extensive the extensive but indicates and return to extensive the extensive to be extended to the extensive that the extensive the extensi

We guarantee full dealine and round the payment of work, so de not all us to device from our terms, as we cannot make a distinction with one and not another; besides, we are deing an extreme biteliness, and must be governed by business principles.

There is a large demand by the trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfactorily for us and return is promptly. We entrust our workers with large quantities of valuable yarn, and as we give references as to supplied with work as long as you do do the same, in order that we may know with whom we are dealing.

We have, in as brief a manner as possible, endeavoured to show you what our work is, we simply say as to the machine, it is just what we represent it to be, and will positively do overything we claim for it, or return the money. Each machine, securely packed with an outsi, is set up for work, theroughly tested, and a sock or stocking partially knitted before boxing and shipping. Should you decide to engage with us, it will be necessary to send us Cash Contract Greder Form, properly signed by you, and at least one good reference, together with the remittance, accordingly, upon receipt of which we will forward machine and entail ready to commence.

We are so frequently and unnecessarily asked if one can learn to knit without a teacher. We say, Yes; it requires no teacher; any person of ordinary intelligence who can read the Instruction Guide can learn to knit at once.

If at any time a worker becomes disastisfied and wishes to discontinue in our employ we will take back the machine and return the money, provided the machine is in as good condition as when received and provided an amount of work equal to the amount paid for the machine has been done.
