Would you like to have the Member for Durham our next Premier, then Vote for the Hon. A. B. Aylesworth K. C., the Liberal Candidate. A Great Honor for Durham. Now is your chance, Electors of Cavan, Manvers and Millbrook. Take advantage of it.

### ADDRESS

.....OF.....

# To the Electors of Durham :

GENTLEMEN :- The Liberal Association of the County of Durham | Unin dark and light patterns, 80 to 85 in, thas bonored me with the nomination to be the Reform candidate for the Riding in the coming election, and I have accepted the nomination with great pride In doing so I am acting with the entire approval and concurrence of Mr. Robert Beith, who has so worthily represented the West Riding | of the County for the last thirteen years, and to whom the nomination for the coming Parliament was offered in June last. Mr. Beith is unfortunately not as robust as he once was, and wishes to retire, or I should never have been willing to offer myself in his place as a candidate for your

In the very short time now remaining before election day, it is impossible for me to become acquainted with, or to meet more than a comparatively small number of electors of a great Riding, and I therefore take this means of stating briefly some of the considerations which I think should influence your choice of a representative.

I have no personal claims that can be urged. I have even the misfortune belted back styles in short and three- good to wear as the perfect blanket. that I do not live in the County, but when I remember how in the not distant | | quarter lengths. Materials are Beaver | There are grey and white in ten-quaras the Hon. Edward Blake and the Hon E. B Wood, though each was cat first a stranger to the County, I am made bold to hope that my resi--dence outside the Riding may not seem in your eyes an objection

The practical question for decision at the present time is simply whether or not the Government of Sir Wilfrid Laurier and his colleagues is worthy of your continued confidence.

Many reasons present themselves for answering that it is. It is led by a -distinguished statesman who has done more towards making Canada a nation | than any other man now living. No breath of slander or scandal has ever :assailed his name. He is a leader to be proud of and whom it is an honor to in follow.

His Government has deserved well of Canada. During the last eight years it has so administered the affairs of this country that each year has been :marked by increasing progress and prosperity.

The tariff has been revised and re-adjusted so that while it still affords adequate protection to our busy and industrious manufacturers, it materially reduces the burden of taxation upon the consumer and makes entirely free of duty many of the staple commodities which may be termed the necessaries of life.

A substantial preference has been given to Great Britain. We have by practical legislation shown ourselves to be an integral portion of the empire, free and independent, able to assume our full share in its responsibilities and at the same time properly preferring to make our purchases and to find our markets among people of our own nation and race. The result has demonstrated that while in the last few years our British imports have doubled, our exports have also largely increased.

In measures taken to promote the development of the country and especially the opening up and settlement of Northern Ontario and of the great North West, the Government has kept abreast with the requirements of the situation.

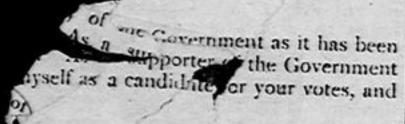

The Intercolonial Railway has been extended to Montreal, improve ments in the St Lawrence Canal system have been pressed to an earlier -completion. Substantial progress has been made in the construction of the Trent Valley Canal till now the question of what outlet that canal shall have, whether into Lake Ontario or into the Bay of Quinte, has come to be of special and immediate importance to the people of this County.

In the best interests not only of this County, but of this Province and of the country at large, this question of the outlet for the Trent Canal is one that deserves the most careful consideration. In my opinion it cannot be settled satisfactorily without a comparative survey to determine the relative expense A and advantages of the different routes, and such a comparative survey, I will, if elected, make every effort to ecure.

The construction of a new line of Railway across the continent and one wholly upon Canadian soil has been undertaken. The agreement under which this second great national highway is to be built secures to the country the advantages of the road without imposing on the people any financial burden or even the loss of a single acre of the public lands. The building of this railroad will open up for settlement and trade a van extent of territory con-Province of

Another malicious slander being circulated is that he has brought Mr. Frank Suliivan into the Riding to corrupt the Electors. # ADDRESS

# COUNTY OF DURHAM:

Having been honored with the unanimous nomination of the Liberal-Conservative party in the County to contest the Constituency in the election now pending, I beg respectfully to ask for your votes and influence on my

Having been born in the County, and having 25 doz Union Vests and Drawers in resided here all my life, I feel that I am not under the necessity of excusing my candidature, on the ground that I am a stranger amongst you, and I confidently assert, that there is no reason why your representative should not be taken from within the boundaries of our grand old County.

As a staunch supporter of a party and a policy which has in the past done and medium weight in wool, union and much to promote the interests of our Country, I beg to assure you, that if refleece lined, very special at 49c. a gar- turned, I shall continue to render an unwavering allegiance to the principles which have always prevailed in our councils, by our brilliant and gifted leader,

I am a firm believer in a fiscal policy, which shall give ample protection, Astrachan Jackets-Regular \$25 value | not only to the manufacturer, but to producers of all kinds, such pretection as for\$19.74; \$30 for \$25; \$32 for \$27; \$38 will keep Canadian markets for Canadian products, whether they be of the for \$29.75; \$39 for \$34.75; \$45 for \$39. | factory or the farm, the mine or the forest.

During the four Sessions of the Parhament now dissolved, I deemed it my duty, not only in the interests of the whole Country, but in your interests, to oppose the extraordinary railway policy of the present Government, which, for visionary conception and extravigant expenditure of public money, has never been equalled in any Country supposed to be under responsible government. In my judgement, the Grand Trunk Pacific Railway scheme is the most unfortunate measure ever propounded, and it will, if carried out, shut in any prospects of public ownership of a transcontinental railway, and reduce our magnificent northwest to a state of vassalage and subjection to a group Lof grasping capitalists who, supported by a Liberal Government have continnously exploited the public domain and the treasury of the country for their personal enrichment. All such exploitation, whether by individuals or government, I shall in the future, as in the past, most strenuously oppose, feeling as I do, that public ownership of a transcentmental railway, is the only policy that will satisfactorily promote the development of the country, and seeme to our brothers in the West, a cheap and satisfactory means of transporting their products to the senboard.

During the past four years. I have labored steadily to procure a comparative survey of the Port Hope and Trenton outlets, for the southern end of the Trent Valley Canal, feeling assured that such a survey would show Port Hope to be the cheapest and most feasible route.

This survey has been invariably avoided by the present Government, and it is only now, when defeat is staring them in the face, that a letter is produced from the Premier, which suggests that such a survey may be made, Fellow electors judge of this, from their broken premises of the past, and re ent as free men, any such attempt to secure your votes by so transparent a sul-

For nontulfilment of the most solemn ple lgre, for the wildest extravagances of adminstration, and for wholesale attempts to corrupt the electorate of the Country, the existing Government deserve the reprobation of every elector, and, in the hope that on the 3rd of November I shall be returned as your member to strenuously oppose such methods.
