ST. PETER'S MISSION.

The following letter from Miss Timms will be read with much interest by most of our subscribers. Miss Timms enclosed two photos with letter, O a group of ten Indian children, who received ten dollars each from the S. P. G. towards their support. The others a group containing Mr. and Mrs. Marsh, Mr. Johnson, Mr. Clark, Johnny and Miss Timms and a number of Indian Students.

HAY RIVER, May 6th, 1900. I think it is about time to begin my letter to you again. We have most of our garden seeds in. Some peas, oats a very little wheat and are getting the ground ready for the barley. Will very soon have Salads as the mustard is peeping up in the garden and it grows very quickly. We have rather a novel team this spring, two cows and an ox, but they pull the plow all right. The priest is still here and evidently means business; they have put up a house and are bottling in a garden. We heard from Mr. Scott one of the Hudson's Bay Company men that the Roman Catholic believe that the Government is going to treat with the Hay River Indians this summer, and so want to move part of their school up here to get some of the booty but they have not got our Indians so far and I do not think they will. "Soleh" and "Faulyah" the two whom we feared might go, attend our service regularly.

Mr. Marsh talked to the Indians of confirmation last Sunday, after telling them as well as he could, what it meant, he asked them to think and, pray over it for a week, then all who felt that they wanted to be God's children to come this afternoon and he would talk to them. The Indians are very deliberate in their movements they may take two or three weeks to think about about instead of one, so we are waiting hoping and praying, but even though none may come, many a missionary has labored longer and more faithfully and not seen as much fruit for their labor as we have.

LATER—Our confirmation class is over and there were fifteen, twelve from the village and three school girls. May 15th—Gur house-cleaning is progressing very slowly. Our garden seeds are all up except the parsnips and everything looks well. We hope to have plenty of green stuff when the new helpers arrive. Christy Jane and I went to visit the syrup camp last week, crossed the river and then had to walk half a mile inland; it was very wet, but we wore rubber boots, so the vines were very glad to see us. There is very little to tell now except that everyone is working hard—it is like the spring time at home when there is no time for anything until the crops in. One of our boys is very fond of perfume, for want of something better on Sunday last; he anointed himself with electric oil and thought it beautiful.

May 19th.—Have been making soap yesterday and to-day and have now come to the end of my grease, however I have a couple of kegs of very nice soap. June 4th.—We have had green onions, mustard and cross and expect to have rhubarb pie next Saturday. How is that for the far North! Our confirmation class is well attended. Almost all the Indians come although none of them have expressed a desire for confirmation except "Soleh." The men have been cutting sod to put on the roof you see we have no shingles so the sod is put on as a sort of thatch. I hope it will prove beneficial as rain just poured in.

June 21st.—There is quite a long jump between these entries but I have very little time to write and I think this will have to do for everybody as we expect the steamer to-morrow and there are no letters written. There is a grub or worm eating everything in our garden. Mr. Johnson spent this morning watering them with tobacco juice. If it fails to kill them we will have very few vegetables this year. We had our house beautifully decorated with roses and lilies last Sunday—there is a pond up here half way across the Island, just covered—it is a quarter of an acre in size and just one white mass of Calla—the flowers are about two and a half inches long by 1/2 wide—there is also another white flower like a hyacinth but the flowers are covered with a kind of fur which glitters in the sun like frost—the leaf of this plant is the shape of a clover leaf only much larger—the pond is indeed a beautiful sight.

Two children have left the day school since the priest came but three others have come to us so the attendance has not fallen off.

June 22nd.—It has been stormy all day and the steamer could not cross the lake; however as the wind is going down it may come in to-night. I am going to get my letters ready so I will close with love to all.
