#### Mr. Hale's Letter.

Editor Mirro One would imagine to read over Mr. Hale's letter in your last issue that only those who are in favor of the Liquor Act of 1902 are the true friends of Tem perance while many, who are not, are only "professed" friends. It would be well for Mr. Hale and others like him to remember that it is quite possible to be conscientions and yet to entertain ciews differing from his own, not only on the Temperance, but on any other

One would imagine too that many of us needed instruction concerning the evils of intemperance and that Mr Hale was just the man to impart that Instruction. It is sad, indeed, that Mr. Hale should exhibit such lamentable ignorance of the attitude of the Church expressing the fear that "she should Mr. Hale ought to know, if he does not the body is to be kept in "soberness, temperance and chastity," but also that speaking, lying and slandering "

The question to be decided on 4th next, is not that narrow which Mr. Hale would limit it. "Shal the bar room be continued," but "Ar you in favor of the Liquor Act of 1902. If Mr. Hale is 1 a favor of that Act then Mr. Hale has a perfect right to his opinion. But Mr. Editor many good cannot vote for that measure. And believe me it is no little hardship to have to endure for the sake of conscience, such a taunt as that contained in Mr Hale's letter, that all who "refrain from . partners in the liquor traffic " It is indeed Mr. Editor a source of grief to me, that a man of professed christian prin

Rev. C L Ingles, I desire to assur full responsibility. This is an age in which honest men desire all the light they can get. Those who understand the Gothenburg System are in a better position to decide upon the merits of other proposed legislation.

And in conclusion permit me to say that from the beginning to the end 50 pair wool blankets, fine, soft, lofty finish, colored borders, six challenging the motives of those who that lecture the speaker refrained from would vote for "Prohibition" on Dec. 4: h. No curse was pronounced, not one word was said branding those not in favor of the Gothenburg System with the stigma of infamy. Mr. Ingles is a gentleman and a christian, who recognizes the value and sacredness of honest convictions by fearlessly expressing

And Mr. Editor, many of us who are not in favor of the Liquor Act of 1902, not only on account of the principle involved, but also because we fear the introduction of evils worse than recognize to-day, we are quite willing to await future developments for our yindication. Sincerely Yours, J. H. TENEY.

## Rev. Irl R. Hicks 1903 Almanac.

To say that this splendid work of science and art is finer and better than ever, is stating it mildly. The demand for it is far beyond all previous years To say that such results, reaching through thirty years, are not based upon sound sense and usefulness, is an Insult to the intelligence of the millions. Prof Hicks, through this great Almanac, and his famous family and scientific journal, Word and Works, is doing a work for the whole people not appreached by any other man or publication A fair test will prove this to any reasonable person. Added to the most luminous course in astronomy for 19t3, forecasts of storms and weather are given, as never before, for every day in the year, all charmingly illustrated with nearly two hundred engravings. \$1 00 a year.
