HARD DRIVEN.

The mother slowly times her footsteps to those of her baby driver. Yet she is hard driven because not alone in the brief moments of play, but all day long must she keep pace with baby's wants and needs. Generally the mother who experiences a larger demand on her energies has less and less strength to respond. Sometimes she suffers from diseases peculiar to her sex, and often has never thoroughly recovered her strength after baby's coming.

For all women who are weakened by womanly diseases or who are run-down by maternal and household cares Dr. Pierce's Favorite Prescription is commended as a medicine which promptly cures disease and restores the strength. It establishes regularity, dries watery discharges, cures nervousness, restores the strength, and cures female weakness. It is unexcelled as a tonic and nerve for weak, run-down women.

For mothers who dread the baby's coming would take Dr. Pierce's Favorite Prescription they would find it a great help and benefit. writes Mrs. L. E. Henderson (President Milwaukee Woman's Literary Club), of 603 Grand Ave., Milwaukee, Wis. "After the birth of my first child I did not seem to regain my health, so began to take your medicine, and in two weeks I felt stronger and able to do about my usual work. I kept taking it for two months and found at the end of that time I was in better health than I have been for years. I also found that it was of benefit to take a few months prior to baby's coming, as it is of great benefit in all forms of female weakness."

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

Horse Sense.

IF THE HORSE COULD SPEAK THIS IS WHAT HE WOULD SAY.

Don't hitch me to an iron post or railing when the mercury is below freezing. I need the skin on my tongue.

Don't leave me hitched in my stall at night with a big cob right where I must lie down.

Don't compel me to eat more salt than I want by mixing it with my oats.

Don't think because I go free under the whip I don't get tired.

Don't whip me if I get frightened on the road, or I will expect it next time, and, may be, make trouble.

Don't trot me up hill, for I have to carry you, the buggy, and myself, too. Try it yourself sometime.

Don't say "whoa" unless you mean it.

Don't make me drink ice cold water nor put a frosty bit in my mouth.

Don't run me now a steep hill.

Don't lend me to a blockhead.

ANOTHER FAKE.

This is a time when, if appears, people should be particularly on guard against fakes. A dispatch from Brookville states:—"A watch swindler going under the name of Cunningham, who tried to do up business men, was nabbed here to day. He said he wanted money to make a short trip into the country to see relatives, and succeeded in getting a five dollar loan from a druggist on a lady's gold watch, which he valued at \$20. The watch turned out to be practically worthless, and the police placed him under arrest. He had on him a marked cheque for \$1,504, besides \$100 in cash, a bank book showing over \$300 to his credit, and three other watches. The cheque was pronounced good by a local banker. Cunningham settled the case by returning the \$5 bill and taking back his watch. He had a letter showing he had purchased six watches in Toronto from a wholesale dealer for \$150.

Coal Oil. The quantity sold is a positive guarantee of quality. The people who only use the best, buy their oil from us. W. D. Stinson.

A Modern Miracle.—"I had been miserable all winter," wrote the woman to the patent medicine company, "until I secured a bottle of your famous Neruo Tonic. Its effect was immediate. After taking one dose, I was able to lick the druggist who recommended it to me."—The Moon.

THE HAIR: ITS DRESSING AND CARE

A beautiful head of hair is so important an element of woman's beauty that suggestions as to its arrangement and care interest most women. In The Delineator, for January there is an excellent article on this subject. The woman with thin hair is often at a loss to know how to arrange it becomingly, and how many women with abundant, beautiful hair fail to achieve the best effects from a lack of knowledge or training. Both cases are treated extensively in this paper, with numerous illustrations, and explicit directions are given as to the proper care of the hair.
