Constipation, biliousness,

more attention given to the inner man. Cafes and lunch-rooms are filled with men and women who seem to give all their time and attention to thoughts of properly or improperly feeding their stomachs. "It is of course best to eat slowly, but not too much," says Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. In this 20th century people devote so much time to head work that their brain is fagged and there isn't sufficient blood left to properly take care of the other organs of the body. The stomach must be assisted in its hard work-the liver started into action-by the use of a good stomach tonic, which should be entirely of vegetable ingredients and without alcohol. After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in blood-maker and tissue-builder. He called it Dr. Pierce's Golden Medical Discovery an alterative extract that assists in the digestion and assimilation of the food in the stomach—so that the blood gets what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine. FREE! Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of
