The Millbrook Reporter.

R. R. ELLIOT, EDITOR AND PROPRIETOR
THURSDAY, FEBRUARY 16, 1893.

The duty on binder twine was reduced on Tuesday from 25 per cent to 12½c. per cent and the duty on coal oil was reduced by two cents per gallon.

A SOCIETY is being formed in Cobourg for the prevention of cruelty to animals. The chief of police will be instructed the first thing to pull Coun. Hobart.

AN alleged conservative writes to the Peterboro Examiner, suggesting the formation of a McCarthy club in that town. The Examiner, would like no better fun. Anything to corral a few misguided Tories, you know.

SIR RICHARD CARTWRIGHT supported a government that placed a duty of twenty five cents on coal oil in 1868, and now he thinks a government that keeps on a duty of seven cents are robbers. It's a great head that Sir Richard has, sir.

We are in receipt of a communication in which the writer asks the two Millbrook gentlemen who claim to have broken the salt combine to tackle also the binder twine and coal oil combines; but as the Dominion parliament did this on Tuesday by reducing the duties on the latter two articles it will be unnecessary to appeal to the breakers at home.

THERE is a certain resemblance between Russia and the United States. Both are land-hungry and aggressive in foreign policy. Both are liable to outbreaks of internal savagery. Both have a people which in many respects appear to detest the restraints of law and order. In both are visible what Sir John Macdonald once called the "struggles of a fierce democracy."

WHAT a winter of disasters on the sea this has been. Vessels have been wrecked on every ocean and the strongest specimens of modern steamship construction have not been missing from the list of accidents. The British navy has suffered to some extent, but the great loss of life and property has been upon the passenger traffic of the Orient. Many minor accidents occasioning a great deal of anxiety however, occurred to the Atlantic steamers from time to time, happily up to the present unmarked by loss of life. The immunity, we deeply regret to record, has now been broken in the case of the Canadian steamer Pomeranian, from the Clyde to New York, the gallant captain of the steamer being among the victims. The first and second officers were likewise swept away, and the manner in which the third officer showed himself equal to the situation is certainly a most creditable testimonial to the efficient manner in which the command of ocean navigation continues to be appointed. This able seaman deserves well in the opinion of his employers and of his brother officers in every sea.

BETHANY.

Nominations for the Reeveship on Friday - Skating Carnival - Grand Dramatic Entertainment - Change of Business.

To-morrow, Friday, nominations will be received by the township clerk of the office of Reeve, and if there be more than one nomination, the election will take place on Friday of next week. It is expected that a contest will again take place between Messrs. Kennedy and Wilson, and if that should occur, it will be more than a warm fight.

A skating carnival will be held at the rink on Friday evening of this week, when a number of handsome prizes will be offered for competition.

On Tuesday next the Bethany amateur club will present the play "Under the Gas Light" in the town hall here. The play is an excellent one, and in the hands of our more than usually proficient amateurs a first-class entertainment is assured. There will no doubt be a crowded house.

We understand our popular young citizen Mr. Chas. McCarthy has disposed of his business to Mr. Dawkins of Port-Hope.
