—We are glad to learn that there is a strong probability of the organization of a lodge of True Blues here very shortly, there is plenty of good material for such a lodge and we shall be pleased to learn of its institution and subsequent prosperity.

—Each year every local paper gives from \$500 to \$5,000 in free lines for the benefit of the community. No other agency can or will do this. The editor, in proportion to his means, does more for his town than any other ten men, and in all fairness, man for man, he ought to be supported, because a local paper is the best investment a community can make. It may not be crowded with great facts, but financially it is more of a benefit than both a preacher and a teacher. Editors do more work for less pay than any other man on earth.—Hon. David Mills.

—Miss Ettie Trew, of Elizabethville, is visiting her sister, Mrs. Jonathan Smith.

—Mr. Ferguson received a number of elegant buggies yesterday, and they are now on exhibition in his warerooms, where he will be glad to show them.

—Division court was held here on Thursday last by Judge Ketchum. The most interesting case was that of Elson vs. Scott, in which Mr. Harry Elson of Cavan sued Mr. R. K. Scott of Port Hope for payment in full for apples that were frozen after being purchased, but before being removed. Mr. Elson won his case.

—Wednesday of last week was a great day for the Millbrook curlers. Four rinks from Port Hope encountered the same number of rinks from here, and the result was disaster and defeat for Port Hope. Two rinks, skipped by Mr. W. T. Wood and Mr. A. Vance left here at noon and found pitted against them at Port Hope the veteran skips, Ned Burton and Tom Ward. The games were intensely interesting and exciting throughout, and the result was in doubt until the last stone was delivered. Vance and Ward at the conclusion of the 22nd end were a tie, but Wood managed to get four stones nearer the "tee" than did Burton. Mr. Hampton and Mr. Steelat home were opposed to Capt. Henning and Capt. Colwell and at the conclusion, strange to say Hampton and Colwell had the same number of points, but Colwell was three ahead of Steel. The result was therefore a victory by one shot for Millbrook. The new curlers showed up in good form, and special mention should be made of Skip Wood and his boys, to whom is due the credit of adding one more to the long list of victories of the Millbrook curling club. The score was as follows:—

—The Canadian Order of Foresters is a fraternal benevolent society, incorporated in 1879 and registered under the insurance corporations act, 1892, of Ontario. The objects of the society are to furnish its members with sick and funeral benefits and an insurance of one or two thousand dollars. The payments for these benefits range from about one dollar to one dollar and fifty cents per month, according to the age of the member, and the amount of insurance carried. The membership is composed of men only, and when admitted they must be between the ages of eighteen and forty-five. The present number of members is over 16,000, and the society has a cash surplus on hand for the payment of the insurance of over \$215,000, \$50,000 of which is in the Dominion of Canada bonds, and the balance is invested in the best monetary institution of the Dominion. In addition to this, courts have about half a million dollars in their treasuries for the payments of the sick and funeral benefits. The high secretary of the Order is Mr. Thos. White of Brantford, and it is expected that a court of this popular and purely Canadian society will shortly be organized here. 50-4m

Be Wary

Be wary and don't let anyone persuade you into buying any other semblance of an emulsion of cod liver oil. Scott's Emulsion of pure Norwegian cod liver oil and hypophosphites, is such a wonderful curative agent and flesh producer, that many worthless imitations are in the field. Scott's Emulsion is put up only by Scott & Bowne, chemists, Belleville. *Scott's Emulsion cures Coughs, Colds, Consumption, Scrofula, General Debility, and all Anaemic Diseases.*

It prevents wasting in children. It is at most as palatable as milk.
