OPINIONS OF THE PRESS

SUN LIFE

Assurance ©. Of Canada. LACK OF CAPITAL IN THE UNITED STATES

From the CANADIAN TRADE REVIEW "There is no invidiousness involved in the assertion that no other Canadian company in existence can point to such a record of rapid, substantial and uninterrupted progress and prosperity as that exhit ited in the successful annual reports of the Sun Life.... Most assuredly are its directors, shareholders and policy holders to be congratulated upon the very flourishing condition of the Company, and especially upon the result of the business of a year which was marked by the prevalence of conditions-the influenza epidemic, for instance-which proved disastrous for so many life companies. And with no less certainty can it be said that the very great progress made by the institution has been mainly due to the able and energetic efforts, guided by the sagacity and prudence which practical experience alone can bring, of the President and Managing-Director, who has been efficiently assisted by the Secretary. From the contemplation of so successful a past the management may reasonably draw most sanguine anticipations, as to

the prosperity of the future. Income......\$1,240,483,12 Life Assurance Force......\$27,799,756,51

Week's Commercial Summary.

Uncertainty with regard to the finan-cial outlook in the States is causing some distrust here on the part of Canadian investors. Several of our banks are offering New York drafts at a discount of oneeighth, which will result in gold importations. Canadian banks have over \$25,-000,000 due them by agencies in the United States, and a portion of this will likely be withdrawn unless some action is taken immediately by Congress that will tend to restore confidence on the part of foreign lenders. Gilt-edged securities show a tendency to decline, the move-ment being accelerated by the rumor of proposed issue of new bonds by the United States. British Consols are off Chatham. fully 1 per cent. as compared with the price of a week ago.

In the Dominion last week there were 54 failures, as compared with 59 the week before, and 52 for the same week in 1894. Of the 13 failures in Ontario the total liabilities of five exceeded \$300,000, only one of which was rated as high as \$20,000, the other four had a blank rating. Of the remaining 28 one was rated up to \$5,000, two had a rating of \$2,000 and the balance had our lowest creditor blank rating.

One had a life illures. One was rated.

Canadian we Quebec had 11 failures. One was rated at \$2,000, two under \$1,000, and the others had our lowest credit or blank rating. In Nova Scotia there were 4, Manitoba 2, British Columbia 1, New Brunswick and Prince Edward Island returned none.

A PROMINENT FACTOR. The annual examination of the Bradstreet company's records of business failures is an interesting statement. As a

number of these reports have been made. the general public are now enabled to compare results over a series of years. In making reports of business failures, care has been taken to record causes of embarrassments, and as these data have been collected now for a series of years, they acquire added value. It should be borne in mind that causes of business failure assigned are those to which failures are primarily due.

AMERICAN LACK OF CAPITAL. As heretofore pointed out, failures in the United States due to lack of capital cont.nue prominent from the point of 4,385, against 5,194 in 1891, compared ing. with 3,343 in 1892 and with 4,869 in 1891. due to that cause. In years prior to 1893 London was destroyed by fire on Saturday | those who know something of his capathe year of panic, failures due to disaster night. Peterboro. or commercial crisis have not been as prominent as since 1892, ranging in 1891 and in 1892 about 17 per cent. of the to-tal number, from which they jumped to night. 22 per cent. in 1893 and to nearly 26 per A Warwick man sold a dressed turkey cent. in 1894, or from an average of about the other day weighing nearly thirty-one appointment. 2,000 each in the years 1891 and 1892 to pounds. 3,468 in 1893 and 8,295 last year.
