—The Kingston News says:—The eloquent entertainment given by Sara Lord Bailey to a crowded house last evening was an intellectual treat the like of which Kingstonians have rarely the opportunity of hearing. By her easy grace and clear full accentuation, she won the sympathy of her appreciative audience at the beginning and held it right through to the end. She was able to adapt herself either to tragedy or comedy.

—An exchange very truthfully remarks:—"As a general thing a cold steady winter, such as we have had so far, is an advantage to the general business of the country. Cattle come in a better condition in the spring after a cold winter than they do after open ones, such as we have had in Ontario for the past five years. There is nothing which insures with more certainty a good crop of winter wheat than to have it lie for weeks under a heavy coating of snow as it protects the roots of the plants, keeps the ground warm, and renders it less subject to heavals from the frost in the spring. And it is claimed by many that a heavy fall of snow is the "poor man's manure," as it contains within itself a fertilizing agent (ammonia) of considerable value."

—The new postal cards, letter cards and stamps have been issued by the government. The letter cards are a novelty. They are in form similar to the return postal cards and are gummed on the edge and perforated. When the letter is written the card is sealed up, and to open it the perforated portion is torn off. These are sold at three cents, and for the price of a stamp, paper envelope and stamp are obtained. The new postal card is much larger than the ones that have been in use and will be more useful. The new stamps are of 20 cents and 50 cents value, and will be useful for parcel post. The 20 cents are a deep orange and the 50 cents an indigo blue. They are similar in design and resemble very much the bill stamps.

—The Ven. Archdeacon Allen has been appointed a member of the Advisory Council on Religious Congresses of the World's Congress Auxiliary, in connection with the World's Columbian Exposition of 1893. To the letter from the Rev. Dr. Burrows, acquainting him of his appointment, the Archdeacon made the following reply:—

REV. AND DEAR SIR,—I accept the appointment and will be glad in any small way in my power to forward the accomplishment of the great task undertaken by the committee having the proposed parliament of religions in charge. I sympathize in their desire to deepen the spirit of human brotherhood among religious men of diverse faiths, to set forth what are deemed the important distinctive truths taught by each religion; to indicate the impregnable foundations of truth and the reasons for man's faith in immortality; to strengthen the forces adverse to materialism; to enquire what light each religion may afford to the others; to furnish an accurate account of the present outlook of religion; to throw all possible light on the solemn problems of the present age, and to bring the nations of the earth into more friendly fellowship. If the Parliament of Religions should succeed in bringing into close unity the various sections of Christendom it will do a great work. May we not hope that it may aid in determining what are matters essential in which all should be agreed, and what are matters of indifference, on which differing opinions may be held without breach of unity, or invasion of the sanctity of individual conviction. To make all believers one, and to do this without injury to conscience is the great problem. May you and those working with you help to solve it. Yours, very sincerely,

THOS. W. ALLEN, M. A.,
Rec. of Cavan and Archdeacon of Peterboro.

—A meeting of the council was held on Monday evening last. There were present Reeve Ferguson and Councillors Clark, Campbell, Bateson and Elliot. A communication was received from the Dominion Alliance asking the council to petition the Ontario legislature to order a plebiscite to be taken in this province on the question of prohibition. It was laid on the table for consideration. The Reeve reported that he and Coun. Clarke had waited upon Mr. Medd and offered him the sum specified by the council for the land required for Cavan-st. Mr. Medd had refused the offer. The report was adopted. Mr. Vance's application for a rebate of taxes on his vacant dwelling was considered but no action was taken, as the law did not seem to authorize the council to deal with such cases. Mr. John Allan's application for a reduction, was granted on motion of Coun. Campbell seconded by Coun. Clarke. Capt. Clarke of No. 1 fire company sent in a list of articles required for the fire department and on motion of Coun. Clarke, seconded by Coun. Campbell, they were ordered to be purchased. On motion of Coun. Bateson, seconded by Coun. Elliot, Messrs. John Armstrong and George Fowler were relieved of their dog taxes, having been erroneously assessed. Coun. Campbell moved, seconded by Coun. Clarke, that a fire bell be purchased, but after some discussion the matter was laid on the table for the present. On motion of Coun. Bateson, seconded by Coun. Clarke, the collector's time was extended one month with instructions to that officer that all taxes must be collected at the expiration of that time. On motion Mr. J. C. Kells was paid \$20, that being the town's share of the street watering for the past three years.

—On Sunday evening about 7.45 an attempt was made to complete the destruction of the Queen's hotel by fire. The alarm was sounded just when the ministers in the different churches were warming up to their subjects, but it did not take long for all of these edifices to become emptied. The fire companies turned out with alacrity, and also with their engines, and were soon at work drenching out the flames. The fire was found to be in the cellar, having been started by some person in such position as to completely gut the remaining part of the building if it should remain undiscovered a sufficient length of time. A tour of the upper rooms showed that there was no fire there at that time, but when the flames in the cellar had become subdued it was found that some one had been upstairs and started a fire in a box among some old clothes, in a dark room on the second storey, a place where fire could not have been communicated from the cellar. When the door of this room was opened it was found to be intensely hot, but the application of a stream of water from the steamer quenched it very quickly. The damage that was done was on, the whole not very great, but it had the effect of rendering the place unfit for occupation. Mr. Thorne had intended to begin the restoration of the building on Tuesday, but this work has been delayed by the second fire.

—The Canadian Order of Foresters is a fraternal benevolent society, incorporated in 1879 and registered under the insurance corporations act, 1892, of Ontario. The objects of the society are to furnish its members with sick and funeral benefits and an insurance of one or two thousand dollars. The payments for these benefits range from about one dollar to one dollar and fifty cents per month, according to the age of the member, and the amount of insurance carried. The membership is composed of men only, and when admitted they must be between the ages of eighteen and forty-five. The present number of members is over 16,000, and the society has a cash surplus on hand for the payment of the insurance of over \$215,000, \$50,000 of which is in the Dominion of Canada bonds, and the balance is invested in the best monetary institution of the Dominion. In addition to this, courts have about half a million dollars in their treasuries for the payments of the sick and funeral benefits. The high secretary of the Order is Mr. Thos. White of Brantford, and it is expected that a court of this popular and purely Canadian society will shortly be organized here. 50-4m

At 2 a. m. his red-haired wife Paced up and down the hall, As he was climbing up the stairs— Returning from a "call." The indications all bespoke A storm's approaching din, Yet he did not appear to note The danger he was in. He simply smiled at her, did he— Alas! the guile of men— And calmed her with these soothing words: "I won't to-night—here's ten."
