

Children of Mr. and Mrs. M. M. Soller, Altoona, Pa.

### Both Had Eczema In Its Worst Form

After Physicians Failed, Hood's Sarsaparilla Perfectly Cured.

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. Read the following from grateful parents:

"To E. I. Hood & Co., Lowell, Mass.:"

"We think Hood's Sarsaparilla is the most valuable medicine on the market for blood and skin diseases. Our two children suffered terribly with the

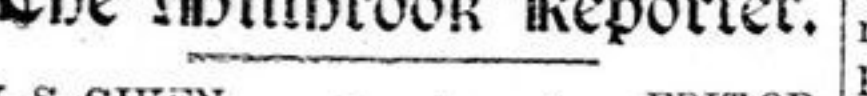

### Worst Form of Eczema

for two years. We had three physicians in that time, but neither of them succeeded in curing them or ever in giving them a little relief. At last we tried Hood's Sarsaparilla and in a month both children were perfectly cured. We recommend

### Hood's Sarsaparilla

as a standard family medicine, and would not be without it." Mr. and Mrs. M. M. Soller, 1412 2nd Avenue, Altoona, Pa.

HOOD'S PILLS cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

THURSDAY, MARCH 8, 1894.

### THE EAST DURHAM COUNTY SABBATH SCHOOL CONVENTION.

Held in the Methodist Church, Millbrook, on Monday, Feb. 26th and 27th.

The third annual convention of the East Durham County S. S. Association was opened on Monday, 26th Feb. 1894, in the Millbrook Methodist church. The President, Mr. E. Hawkins, Canton, took the chair at 2:30 p.m. and thus began the most successful S. S. Convention that we have ever attended. Every session grew more interesting while the attendance steadily increased. About 150 delegates were present. This is the first time that Port Hope has been represented, and their delegates were warmly welcomed. Among the visitors at the convention were Rev. Newton Hill, Lindsay, Mr. Wm. Johnston, Belleville, Mr. Geo. Wilson, editor of the Guide, etc. Our space will not permit of a list of delegates but every part of the riding was well represented with the exception, perhaps, of Manvers. The billeting committee are to be congratulated on the successful way in which the delegates were received, and the delegates were warm in the words of appreciation.

Devotional exercises were conducted by the Rev. D. N. McCamus. The Rev. W. G. Clarke was appointed sec. pro tem. On nomination of the President the following nominating committee was appointed: Revs. D. N. McCamus, convener; J. A. Bloodsworth, Messrs. A. Skitch, Jas Brock, H. Staples, R. W. Clarke, W. G. Coulter, Wm. Archer, Jas Smith, Jas. Dyer.

The township reports were then called for.

Cavan.—The retiring President, Mr. John Hicks, gave an encouraging report. He has visited every school but one and performed his task on foot. The increase over last year was gratifying. Mr. Wm. Archer, superintendent of the Presbyterian S. S., Millbrook gave a supplementary report on behalf of his school.

Manvers.—No report. Their township convention has not yet been held, we hope to hear from them soon.

Hope.—The energetic President of Hope, Mr. A. Bean has removed to Toronto. Mr. E. Hawkins gave a brief report and Hope township convention is to be held forthwith.

Port Hope.—At a later stage of the meeting Mr. W. G. Coulter Sec. of the Port Hope Methodist S. S. reported for that school.

The Rev. T. Brown ably presented his subject "The Supreme Need,—More Consecrated Workers." A lively and healthy discussion followed, emphasis was laid upon the great need of the power of the Holy Ghost and of more workers. A consecrated worker will be regular and punctual not "punctually late."

Normal work is engaging the attention of all progressive S. S. workers and was made the prominent feature of the convention. The Rev. S. McKewan Normal Secretary of the Provincial S. S. Association, presented the important subject of "Normal Work—Its relation to S. S. efficiency. We give a brief synopsis: 1st Normal work means work according to rule, or principle adapted to the end you have in view viz., efficiency in the instruction of the Word of God in the S. school. 2nd the first relation of Normal work to S. S. efficiency is simplicity in language, in thought, and in sympathy between the truth being taught and the pupil to be taught. Next Normal work establishes conviction of the truth taught. A "Why?" to which there is given an intelligent answer brings conviction. Method alone cannot convict but it helps the mind to grasp the truth and the Holy Spirit lays the burden upon the conscience and heart.

Power and Hopefulness.

By Rev. W. J.

did good service while Misses Nugent and Clarry ably presided at the organ. Singing has become an important factor in all S. school work. The arrangements for this as well as every other part of the convention were complete.

After the minutes were read the Secretary of the Nominating Committee, Mr. R. W. Clarke, presented the following report of officers elect: Pres. W. Archer, Millbrook; 1st Vice-Pres. J. C. Martin, Hope; 2nd Vice-Pres. Henry Staples, Cavan; 3rd Vice-Pres. T. Stanton, Pontypool; 4th Vice-Pres. A. Skitch, Port Hope; Secretaries J. R. Smith, Elizabethville; Rev. W. G. Clarke, Millbrook. Treas. Dr. McKimmon, Millbrook; Business Committee Rev. J. A. Bloodsworth, J. H. Dyer, R. W. Clarke.

The President made a neat retiring speech and then introduced Mr. Wm. Archer, President-elect of the Convention. In accepting the honor conferred upon him, Mr. Archer acknowledged his great indebtedness to the teachings of the S. school in early and also in mature life.

The Rev. J. A. Bloodsworth warmly welcomed the delegates to Millbrook and to the homes of the people. The character of our work in convention and our welcome is un-denominational as it will be when

"The angels will stand On that heavenly strand And bid us, 'Welcome Home.'"

"The Dangers to which our Young People are Exposed," was the subject of a most excellent and timely address by the Rev. W. J. Crothers, M. A., Port Hope. In a straightforward and convincing manner the speaker exposed the dangers arising: (1) from our social customs, the treating system, tobacco, bad literature, bad company, (2) from irrational amusements,—card playing, dancing, theater going, (3) from indifference to God's cause.

The closing address was made by the Rev. J. McKewan on "Some of the Necessary Qualifications for a Successful S. S. Teacher." 1st Spirituality of life, affection and thought. 2nd large knowledge of the saving and spiritual elements of the Word of God. 3rd understand your scholars and adapt your language to suit their position in life.

After singing a hymn the benediction was pronounced by Rev. Newton Hill, Lindsay.

### TUESDAY—MORNING SESSION.

9.45—Rev. J. McKewan, "Normal Work, Illustrated by the Book of Genesis." 1st let us lay down three laws for normal work,—the laws of approach, process and result or product. 2nd How shall we approach the book Genesis? (a) In approaching a house we do not first notice the porch but the house as a whole. So we will view the Bible as a whole. (1) Great divisions—two—old and new testaments. Books in old testament—number of letters in each of these words set down as one number, thus: o-l-d=3, t-e-s-t-a-m-e-n-t=9, number of books in the old testament=39, books in the new testament=27. Total number of books in the bible=66. (2) Who wrote the bible? 35 writers. (3) Time covered by these writers 1600 years. Moses to John the Revelator. (4) In what lands written? Six. Persia, Arabia, Sinaiaipenin, Palestine, Asia Minor, Europe. Covering a region of 3900 miles in extreme length and 2000 miles in extreme width. (5) One grand central thought finds its embodiment in a person, the Lord Jesus Christ. In one book it is centralized in a person,—in another in an institution &c. In Genesis it is embodied in the person of Abraham. Lack of time here brought the lecture to a close.

10.45.—Rev. T. S. McKee, Pontypool. "How to select a S. S. Teacher." The superintendent must do the selecting. Choose a converted person if possible, otherwise the next best, select one well-versed in scripture with natural qualifications for teaching, select from Bible class. This comprehensive paper brought a lively discussion, during which special attention was directed to the question of the effect of a teacher's previous life upon and in relation to his influence over his class.

11.15.—W. T. Harrison, M. D., Keene, "Sunday School vs Congregational Singing." This paper was carefully prepared, original and presented in an interesting manner. Use hymns that are appropriate, use well-known hymns to open with, select the day before at least, before session have 15 minutes sing, always have one adapted to primary classes, have a hymn board and chalk, use supplicatory and petitionary hymns often, praise is apt to be used only on special occasions but we should use the garments every day.

### ANTERNOON SESSION.

The morning attendance was very large but the afternoon was phenomenal. A profitable season of devotion ushered in a most interesting session. "Libraries and Literature" was the subject of the first paper. When the Rev. J. Kilgour was done, nothing could be said but words of praise and endorsement. We will glean a few thoughts. No matter what the strength, length or subject of a book the aim should be one with that of the S. S. to lead the mind out after God and the formation of character. The world itself is a picture of divine wisdom and power given in matter, and books are thought pictures painted in words instead of colors, and like painter's productions will appeal to something in us. The enquiry should be what does the book effect in us. Does it appeal to the aesthetic? good,—to the moral? better,—to the spiritual? best! "Does it point to brighter worlds and lead the way?" All parts of the scholar do not develop alike, long before the judgement chastened by experience has cast anchor the whole world has been scanned by those restless birds of passage, a sleepless fancy and a tireless curiosity. The bible stands first, itself a library, the mountain from which the gold of the truth is to be mined, the air from which the oxygen of life must come, the only centre and sun of all true being.

At this point Mr. Wm. Johnston, Belleville was introduced and briefly addressed the convention. The Rev. J. McKewan told us all about "Home Classes and How to Work them." These classes are organized in the homes of those who are not able to attend the school. A register is kept and to aid the study of scripture the publications of the International Bible Reading Association are put into the hands of the students.

Dr. Harrison answered the "Question Drawer" after which the Nominating Committee reported. 1 Executive Committee 2 Normal Secretaries, R. W. Clarke, County, W. G. Coulter, Port Hope, J. H. Dyer, Hope, G. K. Mark, M. D., Cavan, 3 Members Provincial Executive, R. W. Clarke.

On motion it was agreed to contribute to the Provincial Association.

### KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adopting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

### EVENING SESSION.

After devotional exercises the programme began with a very interesting report of "The International and World's S. S. Convention at St. Louis, Mo. by R. W. Clarke, Esq. With gorgeous decorations, civic luminations and true southern hospitality were the delegates received and entertained. The report bristled with facts and figures interspersed with incident and pleasant reminiscence. The International Convention was composed of 1500 delegates from every part of the United States and our Dominion. These represented 130,197 schools and an army of 10,890,104 scholars, with 1,372,558 officers and teachers at their head. The President of the Convention is Hon. Lewis Miller, Akron, O., and the Field Secretary is Wm. Reynolds, Peoria, Ill. Reports were brought in from all the various fields and departments of work. Of special importance was the report of International Lesson Committee, which is composed of a limited number of men from the States and Canada, our representatives being the Rev. Dr. Potts and Hon. S. H. Blake, Q. C. The committee selects our lessons to alternate every 3 or 6 months between Old and New Testaments, the whole course to cover a period of 6 years so as to end with 1900. The World's Convention was composed of the delegates of the International, along with many more from every corner of the globe. Statistics: Schools 224,562, officers and teachers 2,230,738, scholars 20,268,923, total 22,508,661. President is B. F. Jacobs, Chicago, Dr. J. L. Phillips is the agent of the World's Convention in the great land of Continental India. He showed that the only way to convert India is through the children.

Mr. Alfred Day, Gen-Sec., arrived in time to deliver an earnest, practical and inspiring address on "Better Christian Work." His visits are always welcome.

The Rev. W. R. Young, B. A., Peterboro, followed with a brief but well-delivered address which was well received.

Let the parting hymn be our inspiration and motto until we meet again: To the work, to the work, we are servants of God. Let us follow the path that our Master has trod With the balm of His counsel our strength to renew.

Let us do with our might what our hands find to do.

Itch on human and horses and all animals cured in 30 minutes by Woodford's Sanitary Lotion. This never fails. Sold by A. LEACH, Druggist.

Having established a reputation for this line of Goods, we have carefully selected from the best markets a choice line of Prints which are to hand this week.

Good Cloth, Good Widths, Good Designs, Newest Colorings. Come and see them before you buy elsewhere. It is a pleasure to show them.

Walsh & Clarke

# For This Week!

Encouraged by the Response to our Special Offering last Week, we Present a still more Attractive List as our Second.

### SPECIAL OFFERING.

We guarantee that we can show every line advertised, and at the special prices quoted, but we can give no guarantee as to how long these lines will stay with us. "First Come, First Served."

Why pay 8c. a yard for Cotton, even on 6 months' credit, when we can supply you with the same goods at 5c. cash. This principle applies to all our offerings this spring. Read our list carefully and be on hand.

### STAPLE DEPARTMENT.

- 1,500 yards of our 10c. Grey Cotton - - - - - Sale price 7c.
- 10 Pieces dark Flannelettes, worth 10c. - - - - - do 7c.
