Week's Commercial Summary. The new United States 4 per cent. loan is now offered to the public at 1121. The Belmont-Rothschild syndicate made a contract with the Government at 1041 for ahis issue.

The receipts of grain are small and in consequence prices are firmer. Oats are selling at 80c to 81c on the Northern and, are quoted in Toronto at 33tc to 34c. White wheat is quoted at 58c west, and at 59c on the Northern. Dressed hogs firm at \$5.20 and \$5.25 at Toronto. The gross receipts of the Grand Trunk Railway for six months ended December

31, are £1,945,082, and the total expenditure £1,399,101. The balance carried forward was £554,981 as compared with £600,237 for the corresponding period of 1893. Operating expenses were greatly reduced, and prospects, according to the general manager, are on the mend. An official announcement has been

made that owing to long-continued ease mills. in the money market of London, and the low return on the funds kept by them there, the Scottish banks have, after several meetings, concluded to reduce their deposit rate to 1 per cent. as from 1st February. On the other hand, they have lowered their rates of discount on ordinary mercantile bills by 1 per cent., the rate now ranging from 2 to 31 according rebuilt. to the currency of the bills.

Some interesting facts relating to the Quebec. cheapening of the prices of the necessities | Last ; of life were lately given in the Boston Herald. The exports and imports of Great Britain are taken, as the calculations there are not disturbed by tariff in Cardwell. changes or experiments in currency. In 1874 England paid \$155,000,000 for 47,- ber in its yards. 000,000 hundredweights of foreign wheat and flour; last year 89,000,000 hundredweights cost her only \$133,000,000. The sum of \$50,000,000 buys 25,000,000 pounds or tea more than it would have done in 1884, and 14,000,000 hundredweights of refined sugar can be imported for the price paid in 1884, for little more than ten. In ten years the quantity of dead villages of Ontario. meat imported into the United Kingdom has nearly doubled, while its declared value has increased barely 50 per cent. In 1874 14,000,000 hundredweights of raw cotton are valued among British imports at \$255,000,000, while last year 16,000,000 000. The imports of wool were 180,000,000

pounds more last year than they were in on the amount invested. 1884, but they cost \$6,600,000 less. Great Britain received \$25,000,000 less for the cotton fabrics she shipped last year than she did for those exported in 1874, but she nevertheless sent out 1,700,000,000 yards more. For less than 2,500,000 tons of iron and steel manufactures exported in 1874 the price was \$155,000; for consider- A North Hastings Farmers' Institute established by the late Sir John Thompably more than 2,500,000 tons exported has been organized at Madoc. last year the pric, was about \$93,000,000.
