VITE ORE, Nature's Blood Puris

discovered by a rolessor Noel. Geologist, of Chr-cago, 18 a Magnetic Mineral Reck, hard as sea mant, mined by blasting from the bowels of the earth, when becoming oxydized, and after many tests, geological and chemical, the Professor, anding out its great cafative properties, and combining science with experience, prepared it in the several forms known as V. O. Elixir V. O. Pills, V. O. Suppositories, V. O. O. Elixir V. O. heat. Any farmer who will try the experiment will be astonished at the short space of time required to boil such a furnace. It can be heated with old rails, or scrap wood, such as accountable around every farm yard.

A silo 10 feet square, 20 feet high, will hold 40 tons of ensilage. Three acres will fill it at 15 tons per acre. One 2) feet square and 20 feet high will hold 160 tons of ensilage, or 10 acres. There are 40 pounds of ensilage to the cubic foot. Some animals will eat 60 pounds, and do well on the ensilage alone. It is better to add bran or cottonseed meal. One hundred and sixty tons of ensilage will furnish the forage food for a single ani-
