In order to extend our business and keep pace with the times we have under contem plation extensive alterations and enlargement of our premises, which will make it necessary to clear our stock to save it from being damaged by lime and dust or the trouble of moving to another store. This season of the year is an unfortunate time for us to have alterations made as the spring trade is just commencing, and our present premises are full of new goods in every department, the choicest stock we have ever had, but it is most fortunate for the public, as it means the sacrificing of \$35,000 worth of perishable goods. We will not attempt to quote prices, as they are often misleading, but will trust to the first purchasers to tell their friends of the bargains we are giving. For the benefit of those who may not be familiar with the stock we keep we mention below the different departments :-
