A union meeting of the Epworth League of Cavan South and Millbrook took place in the Methodist church on Tuesday night. The chair was occupied by Rev. Mr. Brown of Cavan South. The first annual meeting of the Millbrook Mechanics' Institute, as provided by statute, will be held in the town hall on Monday evening next, at 8 o'clock for the purpose of electing new directors and placing a statement of the affairs of the Institute before the subscribers. Cap. Winslow, Millbrook, came to town about a week ago and has been confined to his room at his sister's, Mrs. Chas. Gilchrist, John street, ever since with congestion of the lungs, but we are pleased to learn that he is recovering nicely. It is with pleasure we note the improved condition of the Captain and we trust he may soon be able to return to his home. It was unfortunate that Mrs. Winslow happened to be away from home visiting with her brother at the Soo, but we as she became aware of the illness of the Capt.

The friendly suggestion in our last issue to the Peterboro Times to discard its "pea in the bottle" scheme of Wild West journalism seems to have irritated his nobs beyond our most imaginative conception and he strikes back with aspic vengeance. There are two classes of creatures whom it is useless to advise, the one whose forehead wags rapidly and the other whose wanting where brains ought to be is lost from the effects of bacchanal indulgence, and the only way to treat such specimens is to admonish them once and if it is not well received, just leave them to their wallow. We don't have a bundle after bundle of our papers returned to us from the post office by parties upon whom it has been urged at half price. O. no, Mr. Times, and we generally manage to navigate home without being carried even it be a milk and water business we are in; but say, we have heard it whispered that it was much water and little milk that the boys have to live on who depend upon the Times for their maws being filled. We don't go out of our way to "jump on you" Mr. Times, we never thought of such a thing, in fact we were in the jumping business we would prefer something that has not been squeezed so often that the jumping process has become monotonous. There are plenty anxious to jump unto you without us, only the fun isn't worth more than the exertion.
