LIKES WITH MILLBROOK AND ITS PEOPLE

 April 24, 1959

Dear Mr. Barringer:

Sometime when you have a little space to spare in your paper perhaps you would be kind enough to print this little note. Plowing across the grey north Atlantic my thoughts turn back to Millbrook and its people—the first place I have found that was so hard to leave. To be accepted and made so welcome by such a great little community, where everybody knows everyone else and faults are known and accepted, is something I shall never forget. Through the medium of your paper I would say "Thank you very much," and look forward to the future date when I hope (at least) to revisit. In the meantime I am afraid that anyone asking for my opinion of Canada will find it, "willy-milly" highly coloured by my Millbrook experience.

"Thank you everybody—and my very best wishes".

Yours Sincerely,
 Richard Worthington.

Mr. Worthington spent the winter here, being employed at Crowley's Red & White Store.

HOW EASY IT CAN HAPPEN

While burning some brush at the side of the road a small twister came along and lifted some of the fire over into the bush at Mr. Milton W. Cornish's place, R.R. 2, Millbrook, on Saturday with the result a fire started that soon got beyond their control. Help had to be summoned from the Port Hope Fire Department and local neighbours. Fortunately the outbreak was extinguished.

Seen On King St. During Week

What looked like a sit-down strike among the lady members of the Toronto-Dominion Bank staff last Wednesday was noted when Miss Gail Gibbs, Mrs. H. Gillis were seen sitting on the window sill of D. R. Fowler's store with Miss Angela Huyton standing on the sidewalk taking part in the discussion. It certainly wasn't unanimous as only two sat while the third stood. It was concluded the extra fine day was the reason for the outside meeting and not a sit-down strike as at first thought.

From the look of J. T. Crowley at a distance, it looked as though he was punching the punching bag getting in trim for a bout with someone, but as distance closed it revealed he was only winding up the awning in front of his store, an optical illusion, the rods not being noticeable from a few hundred yards away.

"Johnny" Elgar running down the street at 7.30 a.m. with a lunch pail in his hand and a coat thrown over his arm. Nothing like being prepared to put on the weight you lose in these Maraton jaunts, and a coat to put on to keep yourself from cooling off too soon at the end of the run. This preparedness puts us in mind of the man who years ago walked from Schuffville to Uxbridge carrying a chair so that when he got tired he could sit down and rest.

Two Jackasses riding back and forth on Sunday afternoon having the time of their life throwing powerful fire crackers at persons on the sidewalk. Had their number been taken the joke would have back-fired, but they did have enough horse-sense to scoot around the Tupper street corner when they seemingly saw one of their victims go to the edge of the causeway (how's that word, and I'm not English either) to do that very thing.

SOCIAL - PERSONAL

Congratulations to Miss Wilma Harker who graduated with honours in faculty of arts and science bachelor of arts, at Queen's University, Kingston. Miss Harker, we are pleased to say, won a Fellowship award.

Mr. and Mrs. Charlie Crowe and Robert attended the open house of the General Motors at Oshawa on Monday evening and report a record crowd of about 10,000.

Mrs. Gertrude C. Dawe has assumed her new duties as Clerk of the Village of Millbrook, replacing Mr. T. W. Belch, who resigned.

Mrs. E. Loudon, Miss E. Gibson of Toronto, Mrs. J. Darling and Miss I. Gibson of Oakville, were Sunday visitors with Mr. and Mrs. W. F. Challice.

CARD OF THANKS

A sincere thanks to our neighbours and the Port Hope Fire Department for responding so quickly to our call for help on Saturday last when the bush fire got beyond our control. Words cannot express our gratitude to you all.

How To Live Well

CANADA'S manufacturing industry began to grow significantly about 80 years ago when the people decided that more of their needs should be provided from Canadian factories.

Today manufacturing is the most important element in the Canadian economy. It provides nearly half of all employment; it pays high taxes; and it is the greatest contributor to our national production.

Manufacturing will continue to provide Canadians with the world's second highest standard of living if the people of Canada will Buy Canadian.
