—McKinnon has removed his office to Leach's drug store, where nice apartments have been fitted up for his especial convenience.

—Keep in mind the Foresters' excursion to Bobcaygeon and Sturgeon Point, on Thursday the 21st. This will be a very enjoyable trip and nothing can be more desirable for these hot days. See large bills.

—Anniversary services in the Methodist church, Cavanville, on Sunday, June 24th, when the Rev. McCann will preach and on Monday evening the 25th an excellent tea and garden party will be held. Come one and all. See large posters.

—Messrs Geo. Duncan, Jas. Lowry and Fred Pendry, ran into Peterboro on Sunday morning, the two former returning in the evening. Fred stayed over for the morning train, but it must not be supposed he was tucked ed out by any means.

—Conference closed at Peterboro at 2 a.m. on Wednesday morning. The Rev. D. N. McCann and S. W. Clarke returned home on the morning train. Much as we would like to make some report of the meeting, it is impossible to do so, the Peterboro Toronto papers however have reported them quite fully.

—We notice that our worthy town man, Mr. R. W. Clarke has been elected lay delegate to the General Conference in London. This is all the more satisfactory on account of the exceedingly strong men who were in the field for this honorable office and we congratulate Richard on his high vote and may add no better representative and few equal could have been chosen.

—There are about as many Life Insurance agents around town as there are desirable subjects and to make life worth living there is talk of organizing a white cap band to run them to the woods. But then their object is to make life so insatiable that insurance is the only panacea. There's no use to try standing them off boys, just put on a good big policy and that will end matters.

—The Reporter begs to join the sorrowing throng in a last tribute of respect to the memory of the late W. R. Clime, editor of the Bowmanville Sun, who last week laid aside his pen for his eternal reward. Bro. Clime was a progressive journalist and while we key up the forms for his last earthly bed, we do so with regret that life's work is ended. To the bereaved friends and the "Sun" the Reporter extends sincerest sympathy.

—The Millbrook brass band played in tasteful manner, a very nice programme, at the corner of George and Simcoe streets Monday night. They were on their way home from Chemong where they had spent the day with a Millbrook excursion party. The boys played nicely and Millbrook citizens should feel proud of their band.—Peterboro Times. Thanks very much. Mr. Times, the boys will ground arms at the Times office next trip, sure.

—God spring has passed and gone, but summer is upon us, and to signalize this, Clark's new hat, the first of the season and the latest block from New York, has been remodeled to suit the weather, by three inch aperture looking towards the clouds. We should have recommended a banana handkerchief or a burlap bell wet well to cool the fevered crown, but Jockey Gordon's severer remedy, the knife, was no doubt considered the more modern, so it was administered without narcotic aid. Fred can surely now be said, to be talking through his hat.

—Dr. Turner took possession of Elliott's drug store yesterday and now in place of A. T.'s, beaming countenance and Wesley's bland contour, the new staff will take up their abode in the cellar of the Reporter. If Dr. Dine will allow us to give a friendly word of greeting before making our formal call, we would suggest the ad visibility of his keeping a well replenished wood shed with the door unlocked for general convenience and if we are not assuming over much, a common cigar box and paste pot for both flats. Welcome new neighbors. God-speed you A. T.

—Our worthy postmaster of Edward III propotions, took a ride on Patten Bros. Blaney Maid, last week from Nattrass & Dunton's butcher shop up the Cavan road, but when Mr. P. M. wanted to return Blaney Maid had no such intention and refused to respond to the pull of the reins. Consternation is said to have rested upon his brow, when he thought he would have to go over to "Castle Blaney," but by making a circuit around the Octagon Mills and after an attempt or two of Blaney to do considerable steeple chase work, they landed up again at the place of starting. Mr. V. makes a very imposing horseback rider however.

—Anent the cricket match at Port Hope a somewhat sarcastic slur comes from a visitor at the lake town overheard at the St. Lawrence Hall by one of our young men who never forgets to uphold the good name of his adopted home. We'll see he would have resented it with sufficient earnestness were it not that he was looking forward to to-day (the 14th) for an event which only comes to ordinary men once in a lifetime. "Where is that visiting team?" asked the stranger, and on being informed that it came from the picturesquely neighboring village he vented the remark, that he even
