## ANNUAL MEMORIAL SERVICE AT ST. PAUL'S CEMETERY

The Annual Cemetery Memorial Service is to be held at St. Paul's Cemetery on Sunday afternoon, June 28th, at 3:00 o'clock. The service will be conducted by the Rector of the parish the Rev. Edgar Palfrey and the special guest preacher will be the Rev. Walter Dyer, the Rector of St. George's Church, Allandale. Mr. Dyer needs no introduction as he and Mrs. Dyer and family were residents of this parish and he received his call to vocation and entered the Sacred Ministry while a member of St. John's Church, Ida.

It is indeed with the utmost pleasure that we welcome back the Rev. Walter Dyer to preach this Memorial in his home parish.

## Water Situation Explained By Reeve

January 1958 your Council saw danger of a possible outbreak of typhoid or possibly something more serious, due to fact that your water supply ran through a deteriorated pipe line for a length of five hundred feet covered completely over the full length with weeping beds, fed by Cess Pools, and Septic Tanks turning this section into a contaminated area, instructions were given to the Millbrook Public Utilities Commission to take steps to correct this condition, this was put into operation, a sanitary engineer was engaged to make a report, prepare drawings and other documents required by all government authorities, including Health

PREMIER LESLIE FROST, of Lindsay

—whose government is on trial at the polls today. From the quietness of the election it's a safe bet no one will be shot or slugged to prevent them from voting; more likely this procedure will have to be reversed to get some voters to use their franchise.

Unit Water Resources Commission and Municipal Board, our engineer made application to Municipal Board during 1958 for permission to replace this section of pipe line, and service connections approved was received by your Council December 1958 following receipt of this authority your Council authorized the expenditure and your Public Utilities Commission chairman and secretary were given authority to sign the necessary contracts covering the work, this has been done as of June 2nd, 1959.

For twenty-one days during the early part of 1958 it was your privilege to lodge with the municipal clerk your protest, only one was received, and during the month of August Municipal Board met in Millbrook, and ruled our project was a worthy one and gave full authority to proceed, with construction, consequently, the period for treating this question lightly is over, the work will be under way very shortly, you will be given notice concerning the project by the Millbrook P.U.C., they will explain how it must be paid for and when the changing from the present system to the new service pipes will be made, also watch your Mirror-Reporter, P.U.C. will make use of this paper to inform you fully as to progress.

We thank you for full cooperation.

Sincerely,  
Geo. F. Harrington, Reeve.

## THE WEATHER

"Ain't it warm" Tuesday and Wednesday were extra hot days for this time of year, the mercury rising to the 90 or over mark, which makes a new record for these dates.

## Seen On King St. During Week

A number of those big brown June bugs, the kind that gives most everyone goose pimples when they get on them, notwithstanding the present heat.

Three men at 7 a.m. having a wash and shave at the water trough at the school bridge. These fellows, whoever they are believe in the old saying "there is no excuse for being dirty no matter how poor you are, as there is lots of water," and these men appear to take advantage of it, and yet they might not be poor either but rich, just lacking the knowledge of where the Millbrook Mineral Baths are locate. Had they asked us we couldn't have told them for we don't know either.
