Of St. Johnsbury, Vt.

Like a Waterfall Great Suffering After the Grip

Tremendous Roaring in the Head
— Pain in the Stomach.

"To C. I. Hood & Co., Lowell, Mass.:
"Two years ago I had a severe attack of the Grip, which left me in a terribly weak and debilitated condition. Last winter I had another attack and was again very badly off, my health nearly wrecked. My appetite was all gone, I had no strength, felt tired all the time, had disagreeable roaring noises in my head, like a waterfall. I also had severe headaches and

Severe Sinking Pains
In my stomach. I took medicines without benefit, until having heard so much about Hood's Sarsaparilla, I concluded to try it, and the result is very gratifying. All the disagreeable effects of the Grip are gone, I am free from pains and aches, and believe

Hood's Sarsaparilla
is surely curing my catarrh. I recommend it to all." GEO. W. COOK, St. Johnsbury, Vt.

HOOD'S PILLS cure Nausea, Sick Headache, Indigestion, Biliousness. Sold by all druggists.

"Be sure you get Ayer's" is an important caution to all in search of a thoroughly reliable blood-purifier, Ayer's Sarsaparilla being the one on which there can be no manner of doubt. It has stood the test of nearly half a century, and has long been considered the standard.

—Whether it is for the best or not, this is the age of differentiation in live stock, as in everything else. The breeder who would catch on to the times must rear animals for a special purpose in every line of his domestic stock, even down to hens. If he wants eggs, must get an egg breed.

SIR CHARLES TUPPER SPEAKS IN DEFENCE OF CANADIAN CATTLE.

No Facts to Prove that Pleuro-Pneumonia Exists.

London, July 11.—Sir Charles Tupper to-day received a deputation from Scotland and the north of England in reference to the Canadian cattle trade. Sir Charles declared that all the facts went to prove that Canada is still free from pleuro-pneumonia and that it was impossible to believe from the case upon which the Board of Agriculture decided that contagious disease existed.

The deputation strongly complained against the action of the board and hinted that unless the restrictions were modified they may have serious political consequences for the government of Scotland and the north of England. Hon. Herbert Gardner, president of the Board of Agriculture, says that the decision of the board by no means indicates that the schedule will be permanent.

30 FIREMEN LOSE THEIR LIVES.

An Appalling Occurrence at the World's Fair.

World's Fair Grounds, Chicago, July 10.—No less than thirty firemen lost their lives at the World's Fair this afternoon just before 2 o'clock. At that time the cold storage warehouse just south of the cupola, which rises fully two hundred feet from the ground. Through this cupola, the chimney passes. The cupola is built of wood, overlaid with staff and is highly ornamented with columns and pillars. Near the top is a landing. The fire broke out about thirty feet above this. As soon as the firemen arrived about thirty-five or forty of them climbed up the ladders to this landing and were preparing to throw streams of water to the burning portion when the fire, which had eaten its way inside the staff to a point below where 40 firemen stood, broke out with volcanic ferocity on all sides. At 2.15 the centre warehouse was in flames and it is reported that three women and several clerks employed in the office of the concern on the third floor were crushed by the falling cupola. An exclamation of horror went up from the lips of 20,000 people who had assembled about the building to see the fire. About five of the men saved themselves by sliding down the ropes. Before the others could follow the fire had burned away the ropes. The unfortunate fellows who remained huddled together on the north side of the cupola were doomed. It was beyond the reach of any of the ladders, and the crowd stood horror-stricken and powerless to rescue the helpless crew. The flames ran higher and higher until the men were almost concealed from view. At this moment one of the firemen sprang far out in the air, and was dashed to pieces on the roof fully 80 feet below. Another and another followed his example, crazed by the awful heat, and doubtless preferring to be killed by a fall than burned to death. When five had jumped the remaining firemen were swallowed up in the seething mass of burning timbers.

DRAWN OVER THE SLIDE.

Two young Ladies Meet a Watery Grave at Peterboro.

Peterboro Review.
One of the saddest drowning accidents that has occurred here in years shocked the community on Saturday afternoon, an accident that has ended two young lives and has brought sorrow and mourning into several homes. The victims that were swallowed up by the river were Miss Sadie Hutchinson, niece of Mr. Jas. Morrison, with whom she resides, Ashburnham, and Miss Lizzie Morrison, daughter of Mr. John Morrison, of Smith. Miss Hutchinson was about sixteen years of age and was employed at the Auburn Woollen Mills. Miss Morrison was several months younger and was going to school in Smith. She came to town a few days ago and she was persuaded to remain for a short visit with her brother, Mr. James Morrison.

THE FATAL CANOE RIDE.

On Saturday afternoon Willie McCarthy, son of Mr. Allan McCarthy, Ashburnham, and Sam Taylor, son of Mr. John Taylor, also of the village, two young men about 17 years of age, invited the girls for a canoe sail down the river. The young men hired a canoe at a boat house and the four entered the one craft, McCarthy manipulating the stern paddle. All went nicely until the lock was reached, and here the awful ending of the sail was enacted almost in less time than it takes to pen the word. Those familiar with the river know that in order to portage to the stream below the dam you must paddle into the angle between the dam and the lock wall. Just as a canoe passes in this angle it crosses above a slide, which at the present time has a great amount of water flowing over it, making a strong suction in the waters above. As the canoe with the ill-fated quartette came to this slide the boys probably did not realize the hidden danger in the smooth waters, but allowed their canoe to approach close to the rushing slide. As they did so their bow struck the pier and in a twinkling of an eye when the stern paddle was out of water the canoe swung around and dashed over the slide stern foremost. As

IT SHOT DOWNWARDS.

it turned a little sideways and as it was whirled into the current below it overturned. Miss Hutchinson jumped and was seen no more the current whirled her away probably into one of the many eddies beneath the dam. Miss Morrison came up and was seen for some distance going with the current, but no assistance could be offered. Although both the boys could swim they were powerless to aid the weaker companions. McCarthy was below Miss Morrison when he saw her in the water and the current, which is a foaming whirlpool at this point, preventing him from reaching her. Neither of the girls screamed or spoke. McCarthy clung to the canoe and floated down stream calling loudly for help, until he was picked up by Mr. Chas. Huffman, Taylor swam to the Otombee side of the river and was helped out by some men who had been eyewitnesses of part of the accident. The two boys in the canoe, once it had started over the slide, were powerless.

This world-renowned Soap stands at the head of all Laundry and Household Soap, both for quality and extent of sales.

Used according to directions, it does away with all the old-fashioned drudgery of wash day. Try it; you won't be disappointed.

A CRIME DISCOVERED.

After the Lapse of Two Years—Hinges taken from Railway Gates.

Peterboro Review
A case with an interesting history, showing how a railroad company follows offenders who endanger life and property on their road, came before County Magistrate Edmison on Friday last.

About two years ago some person then unknown removed the hinges from a gate leading onto the track of the C. P. R. in Monaghan. The gate, of course, fell before the first strong wind and a colt owned by Mr. H. C. Winch, of town, strayed onto the track, was struck by a train and killed. About a year later the hinges were removed in a similar manner from another gate in the same neighborhood. Fortunately this time there were no serious results before the act was discovered. The railway company, however, decided to ferret out if possible the person who would so recklessly and deliberately endanger the lives of travellers and the cattle of residents in the neighborhood and Detective Ross was sent here to enquire into the case. Although it was an offence that had been committed a long time ago the officer went to work and was assisted in his investigations by County Magistrate Edmison. So successful did they prosecute their inquiries that they located the missing hinges swinging gates in a farm yard in Monaghan. Unknown to the farmer the detective examined the hinges of his gates and found the C. P. R. marks on them. He returned and warrant was issued for the arrest of Jonathan Solomon, of Monaghan, upon whose gates the hinges were. When arrested the farmer, who is well-to-do and a man of respectable standing, acknowledged his guilt. He was arraigned before Magistrate Edmison, elected to be tried summarily and pleaded guilty. The charge was dealt with under the larceny Act and the accused was fined \$20 and costs, which he paid. The man was very penitent and could assign no reason for meddling with the railway gate.

—Rheumatism Cured in a Day. South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warranted by A. LEACH, Druggist
