

A Car Fit For A Queen

Ottawa— An air-conditioned Cadillac limousine with a detachable plexiglass "bubble" over the rear seats for use by Queen Elizabeth and The Prince Philip during their Canadian tour was placed at the disposal of the Royal Tour Committee by General Motors of Canada.

The car features a maximum of comfort, convenience and luxury for the passengers with the greatest possible outside-inside visibility for the millions who will line the coast to coast parade routes.

The upper portion of the rear quarter panel has been removed, from the rear door post on back. It has been replaced with a removable plexiglass canopy that will permit onlookers the opportunity to view the Royal procession even if the weather fails to cooperate. It is anticipated that in most parade points the car will operate with the canopy removed in the true landau concept.

The roof is still further modified with the addition of a 24-inch by 43-inch sliding panel. Electrically operated, the roof panel can be opened or closed from both the rear and front compartments.

The Royal Shield is mounted on the leading edge of the roof, centred above the windshield. A special mast will fly the Royal standard.

Individually powered rear seats are installed with controls for the horizontal and vertical movement located on the individual arm rests. (This marks the first time that an automobile has been built with four-way power rear seat.) The seats are tailored in McLaughlin Carriage cloth in a distinctive square biscuit and button design. The floor is carpeted with luxurious mouton which extends up the doors.

To provide an even greater measure of air conditioned comfort, two additional outlets are installed in the rear compartment. The two new air conditioned outlets are on the back of the front seat.

Other special appointments include mouton covered hassocks, a lap robe carrying a hand embroidered crest of the Royal household and special lights to illuminate the Royal Couple during after-dark processions.

The dimensional specifications of the Queen's landau limousine remain the same as on other Cadillac series Seventy Five Limousines. It has an over-all length of 244.8 inches and the width is 60.2 inches.

In order to keep up with the Royal Couple, who will fly between many points in the tour, the car will be loaded into an RCAF C-119 Flying Boxcar and transported to the next stopping point at which it is needed.

ORANGE ORDER ATTEND CHURCH SERVICE LARGE TURNOUT

Sunday evening, June 28th, the Orange Lodges of this area, headed by the Fallis Line Band attended service of worship in St. Andrew's and in spite of the extreme heat of the day, the church was kept fairly cool, thanks to the advantage of air-conditioning equipment.

Rev. Dr. Neal was in charge and in his sermon carried us through the various stages of history of the Roman Catholic Church, and the division of that church into Papal Rome, with St. Peter's in the City of Rome as its great church, and much power in the Pope and the Vatican, and the Eastern group of churches, now known as the Greek Orthodox Church with headquarters in the city of Constantinople. The question of confession,

A CAR FOR A QUEEN

Little Ann Turnes admires the rear compartment of the Cadillac Fleetwood Sedan which has been adapted and specially fitted for the Royal Tour of Queen Elizabeth and Prince Philip. Two individually powered rear seats, upholstered in silver grey McLaughlin Carriage cloth, are features of the rear compartment of the car. Matching cushions and a lap rug of the same material — the latter carrying the Royal Crest embroidered in red gold — as well as grey mouton floor covering and individual hassocks, complete the decor of the rear

compartment. The car is also specially equipped with twin air conditioning units, powered sliding sunshine roof panel and a remote control radio knob at the Queen's right hand. Shown top, left, is a rear view of the exterior of the Royal Cadillac, which illustrates the detachable bubble of optically perfect plexiglass. It can be removed or installed in minutes. Lower left shows the car emerging from one of the RCAF's C-119 "Flying Boxcars" which will transport it to many Canadian points and to Chicago during the Royal Tour.

and absolution of sin by the Pope, and later the sale of indulgences, for the absolution of sin, even to deliverance from torment of departed loved-ones

in purgatory, brought about the decision of many pastors throughout Europe, headed by Martin Luther, that resulted in the Protestant Reformation,

with Faith centred on the Truth, Ephesians 2:8 "For by Grace are ye saved through Faith; and that not of yourselves; it is the Gift of God"

Mrs. Stanley Northrop was soloist. The lodges, seniors and juniors, were well represented, and the Fallis line band added

Says:

Rumours have been going the rounds that The Mirror-Reporter HAS BEEN SOLD.

We are afraid we have to admit this is one rumour that is true. But you will hear more about that in a few weeks time. In the meantime—

We would be pleased if All our subscribers would look at the label on their paper and if in arrears, kindly bring it up to date. It is easy to understand this label, for instance if your label reads "July 1, 1958" it means you owe one year's subscription, which would make it read "July 1, 1959" if paid. There are also a number of small accounts outstanding which we would like settled.

Note: We ask all our subscribers to do us this favour in order to save us time, work and postage involved in sending out accounts of this nature. Thank you sincerely,

Sincerely yours, J. H. BARRINGER.

much to the happiness of the occasion.

This Faith handed down to us through the centuries, is a very precious inheritance, which it is the duty of every Christian to preserve for coming generations. This was expressed in hymn 399, "Faith of our Fathers, Holy Faith, we will be true to thee till death".
