EDITORIAL OF SORTS

The Reporter said that Millbrook Council meetings needed order and parliamentary procedure. We say so again, but we did not and do not say so with malice. We say so to help. For we feel sorry for the good men who are trying to conduct, under trying conditions, the important business of this village. We admire these men. We are grateful to them. Every villager should be. They receive peanuts for the many hours they spend on behalf of all of us. A councillor gets \$5 per meeting. The reeve gets \$6. For special meetings all get \$3 each. But the time they spend in meetings is but a small part of the time they must take from their own businesses, or from their leisure, in order to serve. And for these many hours that they give free they get nothing. We suggest that they do something about this condition. We suggest that they use parliamentary rules, for such rules save time. We suggest that they unanimously double their pay. We suggest that they encourage villagers to attend their meetings.

The Council chamber is one of the finest old-fashioned halls in Ontario, and it should be preserved that way, not modernized please. But it needs \$500 work: Spic and Span, Mr. Clean, Bon Ami, linseed oil, Hippo oil. It should not be painted. It should not be varnished. It should just be clean. Paint and varnish have already ruined the priceless beauty of too many halls and churches in this county. It is the children's playground that needs the paint.

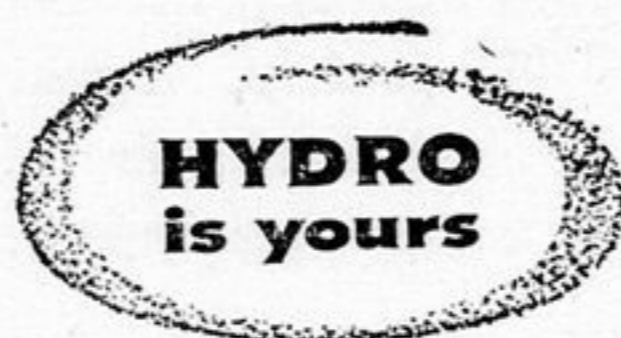

We are new here. Everyone is new in Millbrook for the first 10 years. We have received eversomany kindnesses. We have done a few.

SCRUB TEAM!

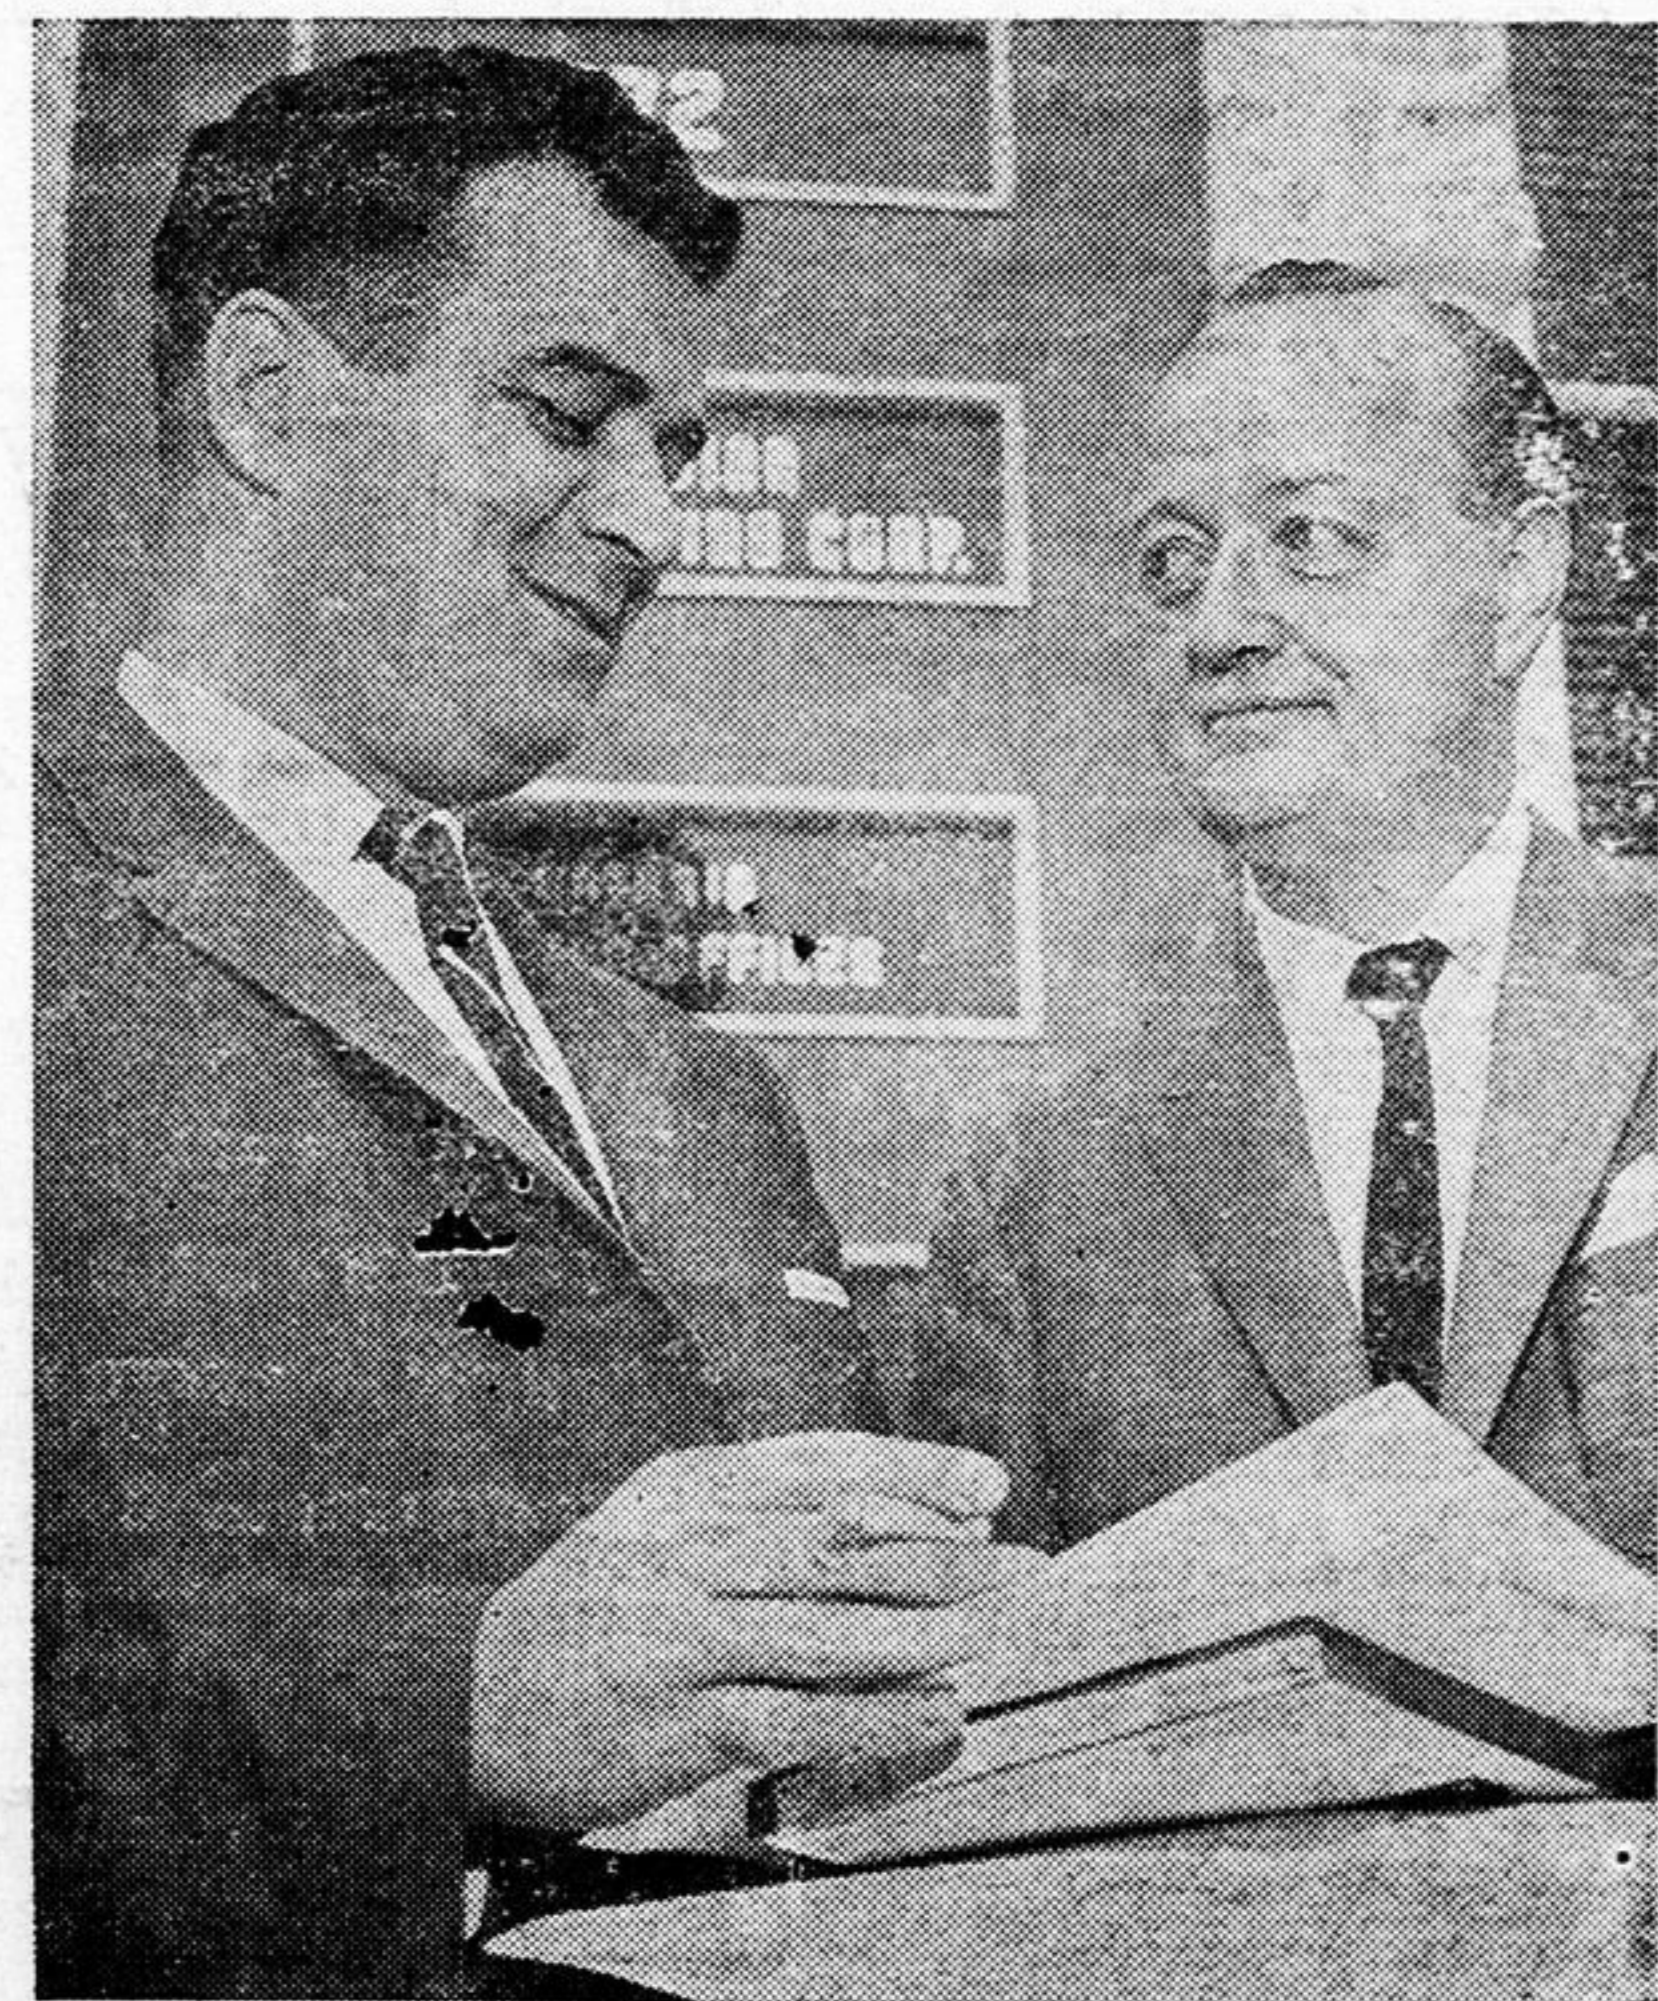

Win or lose . . . there's going to be a "home run" tonight on the family's hot water supply. Active youngsters use a lot of hot water at bath-and-bed time, but with electricity on your side you'll be ahead of the game.

Install a modern, two-element electric water heater of the right size and capacity for your family's needs. Then, when you scrub, tub or do the family washing, you'll always have an ample supply of hot water waiting for you. You won't have to wait for it. And, thanks to electricity, you have the extra reassurance of safety and absolute cleanliness in operation. To get more out of life, get the most out of electricity.

PLANNING ANOTHER VENTURE

Andrew Allan (right) and Gordon Jones discuss a forthcoming program in their new radio series, eVnture. Allan is supervising producer of this CBC summer series and Jones is heard on the programs as commentator. Venture is a series which seeks new approaches and new techniques in the presentation of material with the widest possible scope. It is heard Sundays on the Trans-Canada network.
