—Next week will be our holiday season, and THE REPORTER will therefore not be issued next Thursday, but will appear full of news and crisp as ever on September 7th.

—On Tuesday, September 5, there will be offered for sale by public auction under the provisions of the last will and testament of the late Wm. Reynolds, at the Dominion hotel, Millbrook, the west half of lot number twenty-two, in the sixth concession of the township of Cavan, containing one hundred acres. The sale will take place at three o'clock, p.m. For further particulars see bills, or apply to R. Ruddy, vendor's solicitor, Millbrook.

—Mr. John Gillott is always up to the times, and invariably seasonable. Last Saturday when so large a quantity of hail was lying around from the previous night's storm he gathered up a pailful of the largest of the stones—none of them smaller than ordinary marbles—and made a can of delicious ice cream with their aid. Mr. Gillott favoured THE REPORTER with a bowl of the cold delicacy, for which he has the hearty thanks of our staff.

—On Friday afternoon last we were visited by a most terrific storm of rain and hail. For half an hour the sluice gates of random were left wide open and the water poured down upon the streets in a perfect sea. Then hail began to fall and shortly it, too, came down in sheets of hail stones, each of which were fully as large as marbles. In some places the stones piled to a height of fully a foot and so hard did they freeze together that they were not all thawed out till Sunday.

—The Manvers Central Fair will be held at Bethany on Tuesday and Wednesday, October 3rd and 4th. The directors and officers are putting forth every effort to make the exhibition of 1893 a grand success, and are offering one thousand dollars in premiums. Thorough and competent judges are being chosen for the various departments and they are determined that awards shall only be made on the merits of the articles exhibited. Entries are required to be made by the 25th of September, after which date extra charge will be made.

—A movement for the establishment of a canning factory has been fairly started, and we are pleased to know that it is meeting with the most gratifying success. Mr. Ruddy, we understand, has charge of the matter and is pushing it with such vigor, that already some \$2000 of the necessary capital has been subscribed. It is proposed to start with a capital of \$5,000, which is deemed quite sufficient for the purpose, and the operations of the concern will include the canning of fruits of all kinds indigenous to the soil of this vicinity as well as the various vegetables usually put up. We sincerely trust the promoters of the enterprise may be entirely successful in their project and that the next season they see the business in full blast. The advantage of such a factory in this town can hardly be fully estimated for every person would in some way or other derive benefit from it, inasmuch as it would bring many thousands of dollars annually into the place

for distribution among our residents and farmers in the immediate vicinity.

—On Saturday next the delegates to the High Court of the Independent Order of Foresters leave for the meeting of that body at Sarnia. The delegates from this district are as follows: Millbrook, R. R. Elliott; Peterboro, Dr. Bell; Norwood, Rev. Wm. Buchanan. Mr. G. W. Green will represent the Court at Drayton. There is likely to be in the neighborhood of 500 delegates in attendance at the High Court.

—Notice to farmers! Buy only the Wilkinson Plough. The registered trade mark, letter W is on the face of the mouldboards of all the plows they make. Do not be deceived as many other plough manufacturers are trying to imitate the Wilkinson. Mr. I. Needham has just received a large consignment of these celebrated ploughs, and is offering them this season at a small advance above cost. Sewing machines and organs at prices to suit the times. Do not place your order with any person else until you have consulted Mr. Needham, and you will profit thereby.

When certain individuals put on these new style white shoes they shed a kind of incandescent light upon the question of their having any visible means of support.

A Toronto poet-artist recently finished a charming little study in varnish and kerosene, founded upon the poem "Beautiful Snow," and it is said that on the hottest day in summer visitors are obliged to put on their heavy overcoats and ear-pads to avoid catching cold while looking at this rare work.

—Neuralgia must go! \$5.00 reward for a case that "Harper's Arabian Balm" will not relieve at once. Warranted by A. LEACH. 16-

The Brockville Times says: "A story is going the rounds at the expense of a Grand Trunk railway conductor. On the down trip the other morning he had a number of empty passenger coaches attached to his train and while passing through them discovered a tramp hiding under the seats. He asked the gentleman of leisure what he was doing there, and he replied that he was stealing a ride, and thinking that the conductor was one of his own class, judging from his seedy appearance, added that if he kept on talking so damned loud the conductor would hear him and put them both off."

—English Spavin Liniment removes all hard, soft or calloused Lumps and Blemishes from horses, Blood Spavin, Curbs, Splints, Ring Bone, Sweeney, Sprains, Sore and Swollen Throat, Coughs, etc. Save \$50 by the use of one bottle. Warranted by A. LEACH. 11-1

The warship Victoria, lying seventy fathoms deep under the blue Mediterranean, off the coast of Tripoli the hidden tomb of many gallant British sailors, may soon be brought back to the outer world with all its ghastly freight. An Indian inventor has taken it upon himself to return the bodies of the dead, and the carcass of their sepulchral home to the bereaved families and the Admiralty of England. Sig. Balmello has invented a new diving apparatus, known as the Bella Nautica, or deep-sea ball. It is an enormous metallic sphere, which by a complicated system of pumps, can be sunk to almost any depth. By an ingenious mechanism it can be raised to the surface in a short time. The chains and grapnels necessary to bring the Victoria to the surface could thus easily be put in place, and so the one difficulty attending the undertaking would be conquered. The King of Italy is said to have witnessed the workings of the model of the invention, and to have expressed a hope that the attempt would succeed.

—Rheumatism Cured in a Day. South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warranted by A. LEACH, Druggist

Malarial and other atmospheric influence are best counteracted by keeping the blood pure and vigorous with Ayer's Sarsaparilla. A little caution in this respect may prevent serious illness at this season. Ayer's Sarsaparilla is the best all-the-year-round medicine in existence.

An Estate Settled.

The Plainfield, N. J., Press says: The Job Male estate has been finally settled and the executors have apportioned the property among the heirs. The total value of the estate was fixed at \$467,400. Sarah Delaney of Cobourg, Ont., and John Delaney of Orillia, Ont., got \$77,900 each. Mrs. Gertrude Fenno, of Plainfield, who was housekeeper for the deceased ex-mayor, and Robert Male and Mrs. Strathdee, both of Albany, got \$51,933.33 each. Batty of Lakeport, and Annie Batty of Plainfield.

Among the rain in whom we meet, The vainest one of all, Is he who boasts of his little feet, When his head is just as small. —Puck.
