"You've made a great mistake, Mr. Boniface," said the summer girl, in your arrangements for dancing. You've put all your energies into a ball room, but the ball room, the ball room, the ball room, it is a fine ball room, but the stairs and piazzas are entirely too small. Don't you know that all the fun of a summer hotel lies in sitting on the stairs or piazzas. You don't need a ball room at all, really."—Harper's Bazar.

**Woman Suffrage.**

The exercise of suffrage by the women in Wyoming for the past 25 years seems to have borne good fruit, says the New York Independent, and an occasion of no little exultation is the adoption of woman's advancement is the adoption by the Wyoming Legislature of a resolution reciting that the extension of the franchise to women has done great good in divers directions. This unanimous adoption by a body of men of the unqualified success of woman suffrage for the past quarter of a century is the strongest endorsement possible. And coming at this time, when the enemies of the franchise have been demanding a retraction of the privilege, it is an event of more than ordinary significance. If, as contented, the enfranchisement of its women have depopulated the jails of Wyoming, rid the state of poor-houses and largely aided in banishing crime, pauperism and vice, the logical deduction follows that woman suffrage would be a good thing for every state in the Union to adopt. The resolution referred to is as follows: "Be it resolved by the Legislature of Wyoming, That the possession and exercise of suffrage by the women in Wyoming for the past quarter of a century has wrought no harm, and has done great good in many ways; that it has largely aided in banishing crime, pauperism and vice from this state, and that without any violent or oppressive legislation; that it has secured peaceful and orderly elections, good government and public order, and a degree of civilization and order, and we point with pride to the fact that after nearly 25 years of a woman suffrage not one county in Wyoming has a poor-house, that our jails are almost empty and crime, except that by strangers in the state, almost unknown, and as the result of experience we urge every civilized community on the earth to enfranchise its women without delay. Resolved, that an authenticated copy of these resolutions be forwarded by the governor of every state and territory in this country and to every legislative body in the world, and that we request the press throughout the civilized world to call the attention of their readers to these resolutions.

**Shedd's Patent Fence**

The new method of saving rails and labor and building a perfectly strong and durable fence, without the use of posts set in the ground. Stock cannot rub or throw it down. It stands well on side hill and on overflow land. Being a straight fence, it does not take up so much room as the worm fence. It stands against wind storms.

Any ordinary old rail fence will have sufficient material for a good fence by this method of building. One pound of No. 11 annealed wire (at a cost of 3 1/2 cents) builds a rod of fence. An average man alone can build 30 rods a day.

During the year 1887, a fence, known as the Russell Champion Patent Fence, was bought by a large number of influential farmers in Middlesex County, Ont., and used by them. Later in the same year the Shedd fence, patented in Canada in 1887 by W. F. Shedd, Grand Rapids, Michigan, was introduced and because of its economy of rails and greater strength when built, was rapidly taking the place of all other fences of its kind. The owners of rights in the Russell fence, according to the statement of Michael Blake, Englefield, then held a meeting and subscribed a large sum of money to prosecute those who were using the Shedd fence and appointed him to bring the action, which he did through Meredith and Cox, the well-known attorneys of London, by causing a writ to issue against those who were using the Shedd fence, in the County of Hastings, against George A. Gibson, postmaster, and Michael Ryan of Tyendinage, who had purchased the right to use the Shedd fence in Hastings County, and both sides prepared for trial at the April term, but at the last moment Messrs Meredith and Cox sent a telegram to J. P. Anderson, Belleville, who, with Blake, Lash & Cassels of Toronto, represented the Shedd fence, that they could not try the case at that term, so it went over until September. In the meantime the Russell people made an effort to compromise with the Shedd people, but their proposals were promptly rejected. The Russell people did not bring the case on for trial at the September term, nor at the Chancery sitting in October, but instead filed a "discontinuance," a copy of which is shown below, so the costs of the Shedd people's lawyers were taxed against the Russell people and paid by them, and this ended the celebrated suit.

The following is the notice of discontinuance filed by Meredith & Cox:—  
MICHAEL BLAKE, Plaintiff,  
AND  
IN THE HIGH COURT OF JUSTICE, } Between { MICHAEL RYAN and GEO. ANDERSON, Defendants,  
QUEEN'S BENCH DIVISION. }  
Take notice that the plaintiff hereto wholly discontinues this action.  
(Signed) MEREDITH and COX, Plaintiff's Solicitors  
To P. J. M. ANDERSON, Defendant's Solicitor.

The reason for the backing down of the Russell people is shown in the fact that the Shedd people own the Westcott patent (Canadian patent, 1879, for 15 years) which protects them and makes the users of other fences with suspended wire loops infringers, and all parties using such are notified that they will be called upon to pay.

It will be seen by the above that any person using a fence with the SUSPENDED LOOP, other than the Shedd patent, is infringing on the rights of this company and will be prosecuted. For further particulars address

**Be Wary**

is another way of saying "Beware"! Be wary and don't let anyone persuade you into buying any other semblance of an emulsion of cod liver oil. Scott's Emulsion of pure Norwegian cod liver oil and hypophosphites, is such a wonderful curative agent and flesh producer, that many worthless imitations are in the field. Scott's Emulsion is put up only by Scott & Bowne, chemists, Belleville. Scott's Emulsion cures Coughs, Colds, Consumption, Scrofula, General Debility, and all Anaemic Diseases. It prevents wasting in children. It is as palatable as milk.
