The Week's Commercial Summary. Canadian securities are fairly active | Howard Pitezel's Bones Found at Inand firm. Assurance stocks are the

strong features. The cheese markets are steady, sales at the factories at 7tc. to 7cc. per lb. for July and August makes. The offerings of cattle at the Toronto

Market are mostly of poor quality, and none but choice are wanted. Red wheat is selling in Ontario at 67c. to 69c. A few loads sell daily on the Toronto street market for 74c. The stocks of wheat at Port Arthur

and Fort William are only 147,539 bush-

The slight frost in Manitoba on Monday night is said to have done no injury to the crops. Harvesting will be pretty general throughout the province at the

end of this week. Although the Government figures for wheat were slightly lower than various trade estimates, the market seemed to be counting on a much less favorable report and a break resulted. The official statistics placed the acreage of winter wheat at 22,397,550, yielding 9.8 bushels per acre, or 219,496,000 bushels, while the spring wheat acreage is only 11,518,050, but the production is 15.5 per acre, making a total of 385,507,000 bushels for both spring and winter wheat. Few men in the trade, however, expect less than four hundred million bushels. The English visible supply is larger than a week ago, but the amount of wheat on passage is

smaller. The exports from Argentina heavy from India-1,336,000 bushels against 328,000 the previous week. The Manitoba official report predicts a crop of at least sixty million bushels against a yield last year of only 17.714,000 bushaboard and the market recovered partially, but it was impossible to resist the weak undertone which made itself felt

later. July exports were only 8,611,028 bushels, flour included, against 10,830,147 last year, but only 6,022,863 from Atlanaverage price having risen about 15c. According to our commercial reports | where Holmes had left it, saying a boy received from the United States this week the volume of business continues to shrink, as is usual during the midsummer season, but the shrinkage seems to be growing somewhat larger than is customary, owing, no doubt, to the fact | Toronto and other places. He came with that transactions during July were in- a boy, a big stove, washstand, and bed, flated for the month. The prospects for stayed two days, and then disappeared. the fall trade, however, seem to be good, | Several people have identified him, and all although much depends on the crops. Inhave not entirely ceased, but are much

less threatening. The settlement of wages in the window-glass works foreshadows higher prices. The export of breadstuffs has been light. In iron the outlook is improving, and prices in some lines have advanced. Cotton goods are in more active demand as the price of raw material advances. Print cloths are a shade lower. Petroleum has a downward tendency, as also have eight of the food products, flour, wheat, corn, oats, pork, lard, sugar, and coffee. Failures for the week have been 222 in the United States, as against 231 last year, and 43 in

Mysterious Story. A very mysterious story of Annie Zimmerman tells of the burial of a young Ger-

man girl out on the prairie yesterday by two elderly people. It seems the girl dropped dead, was carried into a farm house, and hurriedly buried on the prairie near by. Annie Zimmerman is eleven years old. She tells a straight story, but failed to locate the grave. It is thought she is Meanwhile you may consider yourself all stops and the transit through the Suez laboring under a hallucination.

THE HOLMES CASE.

dianapolis. Indianapolis, Aug. 27.-Indianapolis will claim the right to try H. H. Holmes for murder. This claim will be based upon the horrible developments of to-day, which include the finding of the charred remains of 9-year-old Howard Pitezel, and evidence which should convict Holmes of having murdered him, and then partially burned his bcdy in a stove. Detectives Gever, of Philadelphia, Richards, of Indianapolis, and Inspector Garey, of the Fidelity Insurance Company, have been at work for weeks hunting traces of the boy's els as compared with 9:3,620 bushels a body. He was traced here with Holmes,

> small vacant cottage situated in the woods at the edge of the town and far from any other dwelling. The party went to the house, and a few minutes later the officers found beneath the side porch the missing trunk which was taken from the door of the Circle house in this city Oct. 10 by H H. Holmes, and which was thought to contain the body of the boy. Great excitement followed, and hundreds flocked to the scene when the discovery leaked out, although the officers endeavoured to keep the matter secret. The house was guarded, and search began for additional evidence. In a barn connected with the house was a large stove of cylindric shape, of the same pattern as that Holmes bought in Cincinnati. Late All were charred, and to some of them pieces of flesh were clinging. The skull ones and pelvis added to the same convincing truth. The body had evidently would call for it. He never came. The from the pictures shown of him. All identified him as the man who last rented the house, with the same story he told in

WATER LEVEL IN THE LAKES.

Speculation as to the Result of Opening the Chicago Drainage Canal. The probable effect of the opening of the Chicago drainage canal upon the water level of the great lakes has been the subject of discussion ever since that tremendous project took shape, says the Cleveland Leader. A cry of alarm was raised several years ago when it was announced that the diversion of water from Lake Michigan in anything like the quantity required to fill the canal then being constructed across Illinois to the Mississippi valley would seriously interfere with the navigation of the St. Clair and Detroit rivers and render it impossible for heavy draught and disappeared. To-day detectives went vessels to enter most of the harbors on to Covington, a suburb of the city, and the the lower lakes. The Chicago engineers eat of Butler College, and before they had have done their best ever since to dispel been at work an hour their attention was that belief. They have maintained that called by a local real estate dealer to a the taking from the lakes of all the water that will ever be required for the canal will not lower the lake level more than

three inches, and the Chicago newspapers

have all indorsed the opinions expressed

by the Chicago engineers, as a matter of

Prof. G. Frederick Wright, of Oberlin college, who has perhaps made a more careful study of the geology and geography of the lake region than any other SPROULE'S man in the United States, does not agree Prof. Wright shows that the quantity of water required to be turned into the drainage canal when it is first opened will be equal to about five percent. of the quantity that now flows over Niagara. this evening Dr. J. F. Barnhill's attention | When the population of Chicago reaches was called by a small boy named Walter two millions, the law under which the for the week are insignificant, but very | Jenny to the stove hole where the stove | canal was constructed provides that the had been. This was pulled out, and the quantity of water passing through it shall remains of the boy were found Physi- be doubled. That means that at least cians and dentist were there, and in this pit | ten per cent. as much water as now passes of refuse hundreds of pieces of bones were over Niagara will be diverted from the found. The teeth showed the body was lakes to the Mississippi. Maj. Ruffner, of the Learnington is daily shipping large els. The low prices started buying that of a boy between eight and ten years corps of engineers of the United States of age, and other bones confirmed this. army, estimates that when the drainage canal is first opened the result will be to lower the level of Lakes Michigan, Huron and Erie and the connecting rivers at least nine inches, and that when the canal been burned in a cob fire, and in the huge | is operated to its full capacity the fall in stove found in the barn. Howard's over- the water level will be eighteen inches. coat was found at a grocery store near by, This, Prof. Wright says, may have but ons, have no superior on this Continent little effect in the rainy season, but during the late summer and autumn he is owners of the house recognized Holmes | certain that it will seriously interfere with navigation. He declares that the vessel owners and all who are interested in the commerce of the lakes should real- Ground floor Studio. No Stairs to climb ize the danger and do all they can to avert it. As a preventive measure he suggests that a dam be constructed across the lower end of Lake Superior at the "Soo," which will raise the level of that lake two feet and store enough water during the early season to supply the lower lakes during the late summer and fall. Prof. Wright says that the level of the

lakes is such that if the continent were to dip fifty feet to the west all the water which now goes over Niagara would flow over Illinois and into the Mississippi, and if the dip were one hundred feet to the north the water of the lakes would go through Lake Nipissing into the Ottawa Certainly his suggestions are worthy the attention of lake men and vessel owners, and an investigation should be started to determine what the actual effect of the opening of the Chicago canal will be.

Chicago ought not to be deprived of this means of disposing of its sewage, but if there is any way of preventing such a serious interference with the navigation of the lower lakes, as is threatened, action should be taken at once to avert it.

THAT DREAD DEMON-Heart Disease Again Vanquished - Testimony from a Most Reliable Source-- Re-

SUFFERED INCESSANTLY OF RHEU-MATISM.

South Amerian Rheumatic Cure will Effect a Radical Cure in One to Three Days. That is surely good news to the number groaning under the pains that come from rheumatism and sciatica. All over the Dominion are to be found men and women who are light of step to-day, and light of heart, because the terrible suffering from rheumatism has been removed by the use of South American Rheumatic Cure. The remedy contains no anodynes whatever, but gives relief, and cures by removing the cause of the pain. It is perfectly simple and harmless in all its effects, and it cures so quickly, and after the use often of only a little of the medicine.

cine for all Stomach and Liver troubles for making new blooks At all Druggists. Price 50c.
