# Who Spends?

WHEN new federal buildings, or new highways with elaborate cloverleaves, or new city halls are constructed, they must be built with the taxpayers' money.

Very often such expenditures are enthusiastically approved, because each of us seems to think it is some other person's tax money which is being spent so lavishly.

Canadians can help themselves, and the men and women they have elected to office, only if they remember that the governments have no funds except the taxes they take from each of us.
