Some people have a flair for giving. They have a talent and taste for choosing the most exciting Christmas presents. They give the good things that make living more pleasurable. Many of these people will give modern electric appliances this Christmas—and they'll insist on having them ready for use on Christmas day, because they know these appliances will make Christmas (and every day for that matter) a new and exciting experience.

So, this year, do a little hinting. Just say you'd like something wonderful for the household—something the whole family can enjoy. And don't be surprised if you get a superb, modern automatic electric appliance to help you "live better electrically"—the safe, clean, modern way.

ELECTRICITY DOES SO MUCH... COSTS SO LITTLE
