A young woman, apparently friendless, came in on a train reaching Fort William, and immediately procured work as a domestic. A doctor was called in to examine her case, as she appeared to be a consumptive, and she was at once pronounced a bad case of tuberculosis.

hospital of the town, and everything possible for the moment is being done to help the patient.

But writing to the Secretary of the National Sanitarium Association, the Secretary of the Board of Health asks: "Is it possible to make room for this patient in the Muskoka Free Hospital for Consumptives. The local hospital is crowded for room, and there is really no place for this poor girl."

adds "I may say that as far as being able to pay is concerned, she, as far as we can learn, has no friends who can afford to pay for her in an institution.' It is to meet just such cases as these that the Muskoka Free Hospital for Consumptives has been opened.
