Millbrook News.

Do things rather than people. Miss Blanch Adams, of Lindsay, spent Sunday with her brother, Mr. R. T. Adams. On Wednesday evening, Feb. 12th, the Francis Fifth Opera Company will appear at the Town Hall, under the auspices of the Public Library. This troupe delighted an audience here last spring when they played the Beggars' Feast. There are five in the troupe—all first class artists. The people of Millbrook and the surrounding country are assured that there is a rich treat in store for them, as there will be presented a bill of fare different from the ordinary one. For further particulars, see posters. Admission 25c; children 12c.

Bro. J. S. Evans, D.M., Charles Nixon, Treas. No. 44, H. Merrifield, Sec-Gen., and G. E. Mercer, sec. of 1906, of Port Hope, attended the County Orange Lodge Meeting in Millbrook on Tuesday. The Mirror had the pleasure of a call from Bro. Mercer.

Bro. T. B. Collins, Past Grand Master of Ontario East, attended a meeting of the Executive Committee of the Grand Lodge held at Belleville on Friday last. A grand banquet was also held that evening and many of the attendants including Mr. Collins, delivered stirring addresses. On account of the storm Mr. Collins did not arrive home until Sunday morning.

The funeral of the late David McLimoye, of South Monaghan, which took place on Monday afternoon to the Presbyterian Cemetery, Centreville, was largely attended, notwithstanding the very bad condition of the weather and roads, which was an evidence of the respect in which the deceased gentleman was held by his neighbors and friends.

The many friends of Mr. John Huffman will be pleased to learn that he is able to be out again after a few days' illness. Jack had been doing service with the snow plow, and probably caught cold thereby. Mr. L. S. Clary, Millbrook's artistic sign writer, has fitted up a very handsome sign for Mr. Charles Thordyke, Gentle's Furnish, and is making a similar one for Mr. R. T. Adams, Grocer. Mr. Clary, as a sign writer, has perhaps no superior and very few equals in the Province.

GOT STORM STAYED.

Mr. W. Walter Gillott, accompanied by Mr. Norman Lock started out on Saturday at 5 p.m. to deliver a casket in South Monaghan, but were storm-stayed on the way. When about half a mile the other side of Mr. Thomas Donaldson's they were compelled to turn around and seek shelter at Mr. Donaldson's for the night, which was willingly granted them. In the morning they started out again and had to do considerable shovelling, and reached their destination at 12 o'clock noon. Returning they got to within 3 miles East of Millbrook, and were compelled to put their horses in the stables of Messrs. Finmore who were also very hospitable. Messrs. Gillott and Lock then walked from there to Millbrook at the rate of about a mile an hour. Mr. Gillott on behalf of Mr. Lock and himself desires to thank Mr. Donaldson and family, Messrs. Finmore and Mr. Arthur Wood for their kind hospitality and assistance.

BLENDED FLOUR

Contains the Best Qualities of Both Kinds of Wheat.

Some of our farmers do not seem to realize the importance of the success of Ontario millers in blending Ontario and Manitoba wheat. In a word, it means a growing demand for these blended flours, a steady demand for Ontario wheat, better prices to the farmer for his wheat, and lower prices for bran and shorts.

All of these much-wished-for results are due solely to the efforts of our millers. They first proved to their own satisfaction that blended flours were better than flours made of a single variety of wheat. They proved by repeated tests that a blend of Ontario wheat and a little Western wheat made better bread than Manitoba "hard patent flour," and also made better pies, cake and pastry than Ontario "patry flour." This is true because blended flours contain the good qualities of both kinds of wheat.

One of the largest bakeries in Toronto tried a blend of flour for making "homemade bread," and in a short time they were working night and day in a vain endeavor to supply the demand. In the Maritime Province, blended flours have driven the Western flours out of the market in some instances.

The millers have done more than their part in proving to the people that blended flours are best. It is doubtful if our farmers realize how much they can help in restoring the price of Ontario wheat to its old figure. What our wheat should do is to stop buying Western wheat flours and use only Ontario blended flours. This would create such a demand for Ontario wheat that the price would soon go up, and our farmers of course would get all the benefit.

Then, too, this would help our dairy-men and stockmen. The prime cause of bran and shorts selling for such ridiculously high prices, has to be that our local mills were grinding little wheat and consequently there were none of the feeds for sale at the mill. They had to be brought from Manitoba and Alberta, and by the time the freight was added to the nice profit which the Western millers demanded the price was out of all proportion to what it should be. By buying blended flours and keeping our mills running to their full capacity, there will be a plenty of bran and shorts to sell at a very much less figure than they cost today.

THE AILMENTS OF WOMEN.

If the girls and women who suffer with what they think is "Female Trouble" would look to their kidneys, they'll soon find the source of their ill health. The kidneys are closely allied with the female organs, and if the vitality of the kidneys are interfered with, great suffering occurs. There is no better medicine than Dr. Hamilton's Pills, which stimulate and strengthen the kidneys, assist other organs to do Nature's work, cleanse the system and thereby maintain perfect health. Great benefit and certain cure is guaranteed for all women who use Dr. Hamilton's Pills.

The clerk was most obliging, but the young lady customer was hard to please. Roll after roll of blankets did he take from the shelves, none suited. For fifteen minutes the young woman said, "Condescendingly, well I don't intend to buy I was just looking for a friend. Wait a moment madam, said the clerk there is one more blanket on the shelf, perhaps you will find your friend in it.

Mr. W. S. Pickup started on Monday for Halbrite, Sask. If he reaches there without being storm stayed he will be fortunate. We join with his many friends in wishing him the best of luck.

Mr and Mrs John Ritt entertained a number of the young ladies and gentlemen of the village at their home on Monday evening. The program consisted of games, music, etc. Refreshments were served during the evening, and all present enjoyed themselves immensely. The general verdict was that Mr. and Mrs. Pitt are splendid entertainers.

ABOUT PAYING DEBTS.

Some people pay cash. Others contract debts. Business men do both, but if you must ask credit, pay as soon as you can. Before entering on the business of a new year, try to square up all accounts of 1907. You will feel so much better and so will those who gave you a credit. Try it and see the sunshine it produces.

EASY TO MIX THIS.

What will appear very interesting to many people here is the article taken from a New York daily, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Strip Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the furt acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

TO CURE TOOTHACHE

Search over the shelves of your drug store, you'll not find the equal of Nervilleine. An aching tooth, it relieves at once. Fill the cavity with batting dipped in Nervilleine and rub the gums with Nervilleine also. If the face is swollen and sore, rub with Nervilleine and you'll be cured on a hot flannel. This can't be overdone. Nervilleine kills the pain outright. Just as good for earache, neuralgia or stiff neck. A 25c. bottle of Nervilleine cures the aches of the whole family. Try it.
