TORTURING SKIN DISEASE Afflicted this bright little girl

Mrs. F. Miner, of 311 Suffoik Street, Guelph, Ont., says: "A year since, while while living in Oshawa, Ont., my little daughter Lorinda, six years of age contracted a skin disease on the upper part of her body. This first broke out like tiny water blisters, afterwards taking the form of dry scabs. These would disappear for a short time and then reappear worse than ever. The clothes coming in contact with the skin set up such a severe irritation that it was impossible to keep her from scratching. We tried various preparations yet obtained no good results until we began using Zam-Buk. With each application the irritation and soreness was greatly relieved, and the child rested easier. Thro' continued using, the eruptions and scabs fast disappeared and in a short space of time the skin was completely cleared from the disease. It is now some months since we used Zam-Buk, and as there are no signs of any more eruptions breaking out on her body,

we believe Zam-Buk has worked a complete cure." Zam-Buk Cures cuts, chapped hands, Send for a trial box. Send for a trial box. cases of the skin. Of all druggists and stores 50c. or stamp, address, Zam-Buk
