ASSESSMENT OF THE PARTY OF THE

ISSUE NO 12-08.

WOUNDED HEART SEWN UP. Remarkable Operation Performed by a

German Surgeon. An astounding surgical operation is reported to Prof. Sultan in The German Medical Weekly. The heart of a person who attempted suicide and fired a bullet into it was taken out and sewn up and the patient discharged from hospital six weeks later absolutely

Professor Sultan gives the following account of the operation, which is believed to be without parallel:-

"On June 24 last the patient, a cab melmaker, 38 years old, fired at his heart with a small-calibre revolver. Examination showed a small powder-1 blackened hole in the heart through which hardly any blood issued. Late in the evening of the second day, thirty hours after the shooting, we decided to operate, and made an incision in the

"As soon as the cardial sac was opened a great quantity of dark blood oozed forth. The heart, lying quite free for its entire length, was carefully lifted up. Upon the frontal appeared only a small extravasation the size of a lentil, but as soon as the heart was turned towards the right there appeared a small wound with ragged edges about half a centimetre in diameter. With three stitches of fine silk thread the edges of the wound were neatly joined, while for safety's sake another seam was made at the extravasation.

"To hold the strongly-beating heart while sewing was in progress required considerable force. Every time the heart was turned to the right in order to make a stitch the pulse was dimin-Women are especially liable to colds. it goes at once to the very seat of the the blood had been drained from the ished until it was scarcely audible, but ing the wet, sloppy weather of winter lit searches out every crevice, every came visible, and it was immediately and spring than any other time of the duct of the body. It quickens and equalcision had been repaired breathing and pulse became entirely normal."

"Now, Polly," she said. "In the morning take a jug of hot water up to Mr Chumleigh's room. Be sure not to for-

sneeze. What would you do in a case according to direction will restore "Well," replied Dr. Sharpe. "I guess

d sneeze, too."

PIN-POINTS.

We ought to pity the young man who thinks he knows everything. Where ignorance is bi'ss folly is usually much more common than wisdom. The man who is to be trusted is usually in debt to a good many other men. We should never guess how clever some people are unless they told us themselves.

Those people who never forget an unkind word don't need such a marvelleus memory, after all. A girl seldom takes life seriously until she has met with at least one case

of unrequitled love. When a woman wants to overlook her husband's faults she tells her friends he is broad-minded.

So many people seem to think they have done their duty by a friend in trouble when they have told him not to worry.

Genuine Oriental Rug for \$2.00

Every home in Canada should have one or more genuine Oriental Rugs. They are beautiful in the softness and harmony of their fadeless colors, and in point of economy are cheaper than any of the low-priced domestic products. These Oriental Rugs are imported by us direct from the great rug-producing centres of Turkey, Asia Minor and Persia. The idea used to prevail that Oriental Rugs were costly, and that ordinary people could not afford them. That is only true of the large sized rugs. While we are the largest importers of large rugs and oriental goods in this country, we do an enormous business in the small sized rugs, which we can sell at heretofore unheard of prices. Especially in the Anatolians many rare bits of antique coloring are found, though on account of their size we can sell them for as little as \$2 each.

HERE IS OUR SPECIAL CASH OFFER

We make a special bargain of two of our popular small-sized rugs. They are suitable for door mats, bath rooms, to lay in front of fireplaces, or pianos, they are nice in bedrooms or for foot rugs. One kind is 2 to 3 feet long and 1 to 11/2 feet wide, called Anatolian rugs, made by the natives of Anatolia, in Asia Minor; very pretty on account of the soft tones and harmony of the colors; many of them are antiques. We will send them, charges prepaid, on receipt of the special \$2 price, each

Another kind, the Hamadan rug, is 3 to 4 feet long and 2% to 3 feet wide made in Persia, while larger than the Anatolians, they are useful in the same way and for the same purposes. They are in attractive patterns and colors; heavily tufted. Sent on receipt of price, \$5 each

We have the largest stock of Genuine Oriental Rugs, Art Goods and Brassware in Canada. Whenever you want quotations on anything in our line we will be glad to answer your inquiry. We send rugs of any size and value on approval to responsible parties ordering from a distance.
