**JOHN MILNE, Managing Director, London, Ont.**

**THE GRAND TRUNK RAILWAY SYSTEM.**

This pioneer and popular railway of Canada can now boast of the longest double track railway in the world under one management, its main line being double tracked from St. Johns, Que., to Niagara Falls and Chicago. It has the finest road bed in Canada over which some of the fastest long-distance trains in the world are operated. The "International Limited," running between Montreal and Chicago, has become known as the "Railway Gateway of Canada" and the finest and fastest train in the Dominion. Four express trains each way daily except Sunday and two fast limited trains each way daily are operated between Montreal and Toronto. Modern and luxurious trains with Cafe cars and library cars on day trains and Pullman sleeping cars on night trains.

A slip of the tongue is often more disastrous than a slip of the foot.

Ill fitting boots and shoes cause corns. Holloway's Corn Cure is the article to use. Get a bottle at once and cure your corns.

It is perfectly proper to carve out your own fortune, but you should not chisel other people in doing it.

It Lays a Stilling Hand on Pain.—For pains in the joints and limbs and rheumatic pains, neuralgia and lumbago, Dr. Thomas' Electric Oil is without a peer. Well rubbed in, the skin absorbs it and it quickly and permanently relieves the affected part. Its value lies in its magnetic property of removing pain from the body, and for that good quality it is prized.

Between an ordinary cold and the grip the difference is the size of the doctor's bill.

**NO DIFFERENCE**  
No distinction is made as to the kind of Piles that Dr. Leonard's Hem-Roid cure. The names Internal, External, Bleeding, Blind, Itching, Suppuring, etc., are simply names of the different stages through which every case will pass if it continues long enough.  
Piles are caused by congestion or stagnation of blood in the lower bowel, and it takes an internal remedy to remove the cause.  
Dr. Leonard's Hem-Roid is a tablet taken internally.  
It is a permanent cure and no case of Piles has ever been found it failed to cure. Money back if it does.

A guarantee with every package. Price \$1.00 at any drug store or the Wilson-Price Co., Limited, Niagara Falls, Ont.

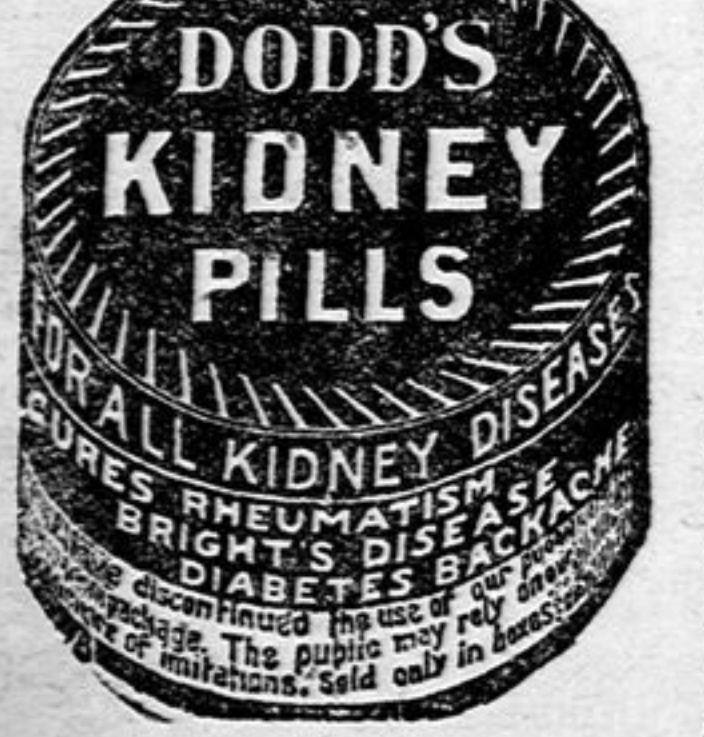

Two thousand uninhabited islands lie between Madagascar and the Indian coast.

"Love Laughs at Locksmiths" as South American Kidney Cure laughs at disease. It's the seemingly impossible doors to disease that it unlocks that makes its cures almost incredible. But for every cure there is a proof if you care to investigate. It is a liquid kidney specific and it never fails. Makes and keeps men "fit" and well.—122

Statistics show that the sooner a man allows his wife to have the last word the sooner the controversy will end.

**SCALD HEAD** is a disgusting and obstinate disease, frequent in children. Treatment: Perfect cleanliness and a generous application of Water-Cerise. Mothers will be glad to learn this.

A **COVSLIP**.  
"Oh," cried the sweet young thing from the city, as they passed a herd of young heifers. "Look at the cute little cow-kids."  
"Don't be silly," said the man. "Those are cute little bull-kids."

**VALUABLE DESOLATE ISLANDS.**  
The most valuable desolate islands in the world are the Liakova, in the Arctic Ocean, off the mouth of the Lena, in Siberia. They are frost-bound and utterly barren, save for Arctic moss, but they contain such enormous quantities of fossil ivory that they are exceedingly valuable—in fact, although unmined, save for the ivory-diggers, and of themselves incapable of supporting life, they produce a revenue of \$5,000,000 a year.

A **SPRING DANGER.**  
Many People Weaken Their Systems by Dosing with Purgative Medicines.

A spring medicine seems to be a necessity. Nature demands it as an aid to enriching the blood and carrying off the impurities that have accumulated during the indoor life of the winter. The need of people, however, recognizing the necessity for a spring medicine, dose themselves with harsh, griping purgatives. This is a mistake. Ask any doctor and he will tell you that the most of purgative medicines weaken the system and cannot possibly cure disease. In the spring the system needs building up—purgatives weaken. The blood should be made rich, red and pure—purgatives cannot do this. What is needed is a tonic, and the best tonic medical science has yet devised is Dr. Williams' Pink Pills. Every dose of this medicine actually makes new, rich blood, and this new blood strengthens every organ and every part of the body. That is why these pills banish pimples and unsightly skin eruptions. That is why they cure headaches and backaches, rheumatism and neuralgia, and other troubles that come from poor, watery blood. That is why the men and women who use Dr. Williams' Pink Pills eat well and sleep well and feel active and strong. Mrs. Albert E. Sampson, of Ardmore, N. S., writes: "I used Dr. Williams' Pink Pills with the greatest benefit. I know of no medicine that can equal them in building up people who are weak or run down."

Those bringing these pills see that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around the box. You can get the pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

**NEW YORK'S WASTE.**

The gross indebtedness of New York is greater than that of the Chinese Empire. The cost of operating the city's government for one year almost equals the annual expenditures of both London and Paris combined. New York pays out in salaries alone the vast sum of \$85,000,000 yearly, or as much as London spends for its entire administration. At the present time there are 43,000 men and women on this city's payroll. Of every \$100 that New Yorkers pay in rent, it is estimated that \$12.25 goes into the pockets of municipal "servants."

**SAFEGUARD THE CHILDREN.**

There is no telling when a medicine may be needed in homes where there are little ones. Therefore, the prudent mother will always keep a box of Baby's Own Tablets on hand. These Tablets promptly cure indigestion, colic, sour stomach, constipation, diarrhoea and teething troubles. They break up colds, prevent cough, expel worms, and give the child sound natural sleep. Mothers have the guarantee of a government analyst that these Tablets contain no opiate or poisonous soothing stuff. Mrs. J. C. Gildart, of Prosser Brook, N. B., says: "Baby's Own Tablets act like magic when a little one is ill, and I would not feel safe without a box in the house." You can get Baby's Own Tablets from your medicine dealer or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

**WELL TRAINED.**

"Do you think my dress is long enough behind, Jack?"  
"Oh, plenty, dear. Any microbe that can escape that isn't worth catching."

Bickle's Anti-Consumptive Syrup is agreeable to the taste, and is a certain relief for irritation of the throat that causes hacking coughs. If used according to directions it will break the most persistent cold, and restore the passages to their normal healthy condition. There is no need to comment upon its value as a cough remedy, as it is in a remote, has had to use, the advice is—try Bickle's Syrup.

**MIGHT IMPROVE IF BOTTLED.**

"My daughter is just full of music," said the fond parent.  
"What a pity she lets it escape," said the neighbor.

South American Nerve makes the whole system radiant in perfect health, it accelerates circulation, enriches the blood, penetrates to the very centres of nerve force, builds tissue, makes and keeps people well. This wonderful remedy has had a charmed experience and has done its greatest work in cases that the medical fraternity had pronounced hopeless.—140

**ENGLISH LADY NURSED JAPS.**

The only English lady privileged to act as a nurse in the Russo-Japanese war, and the first to enter Port Arthur after the historic siege, has recently returned to London after fifteen months' experience of the horrors of warfare. This lady is Mrs. Teresa Richardson of Glenbrydan Park, Carmarthenshire, who was specially selected by Viscount Hayashi, the Japanese ambassador at London, to assist in nursing his wounded countrymen. Tall and of commanding appearance, with a kindly, sympathetic face and eyes from which pity shines, Mrs. Richardson was known by the Japanese heroes she nursed as "Our English Mother."

**THE AWFUL SLAVE TRADE**

THOUSANDS OF VICTIMS FROM PORTUGUESE AFRICA.

Held on Alleged Five-Year Contracts in San Thome and Principe Islands.

Henry W. Nevins writes as follows concerning the slave trade in Portuguese Africa:

Just a year ago I was starting for my walk of 200 miles across the Caenza river and through the Hungry Country of Angola, the Portuguese territory in Central Africa, south of the Congo State. I had already come up from the West Coast by a roundabout route to the district of Bibe, and there I joined the path which has for centuries been one of the chief trade routes into the interior. It is merely a track, in most places so narrow that you have to walk like a native, putting one foot exactly in front of the other, but it leads in almost a direct line from the sea to Benguela across the Tsimba valley of Bailundu, over the west plateau of Boura-Ioura across the Caenza, through the Hungry Country, and the high watershed that the tributaries of the Congo and the Zambezi flow down the east side, across the so-called Luvai Fats, past Livingston's Lake Diolo, through Namakandunda, the home of the great Quico, into Congo territory. I had a copy of the map, and I set to the lakes and away you the sea-land. And this little track, which turns and twists to avoid every tree stump and tuft of grass, has from time immemorial been one of the great slave routes of the world.

**NO MISTAKE ABOUT THIS CASE**

**DODD'S KIDNEY PILLS CURE A YOUNG MAN WHO HAD REACHED A VERY CRITICAL STAGE OF KIDNEY DISEASE.**

His Case Was More Serious Than He Thought, But Thanks to Dodd's Kidney Pills He is Well and Strong Now.

St. Louis, Mo., N. B., April 16.—(Special)—Mr. Patrick Downing, of this place, is a young man only twenty years of age, who some time ago kidney disease had him firmly in its grip and had it not been for Dodd's Kidney Pills he would probably not have been alive to-day.

HOW SLAVES ARE OBTAINED.

In most cases the slaves are originally obtained by natives, who buy them on some charge of witchcraft, or for debt, or for ransom, or for other reasons. Sometimes they are mere plunder of Portuguese traders. They are brought to the so-called "emigration agents," who are established at various points on the coast, and are forwarded by them to the coast, where they are received by other agents, chiefly at Benguela, but also at Novo Dodo and Louanda. The prices naturally vary according to the quality of the slaves, and capacity. I have known a woman who was taken from her husband and three children far in the interior, brought for twenty cartridges, and sold in Benguela for about \$18. The slaves in the district of Bibe, which is some 300 miles from the coast, an ox, a load of rubber (say 50 pounds) and a young slave are regarded as about equal value—say \$7. But in Benguela, as near as I can estimate, the average price given for emigration slaves is \$16, though I have known a man give as much as \$25 there for a really nice-looking girl.

**HERDED ON STEAMERS.**

They are next taken on board in lighters and herded forward. There were 272 on board the steamer "Congo" last June, not counting babies, which, perhaps, numbered fifty. The average during the last few years has been a little under 4,000 a year, but it is now rising, owing to the perpetual demand of the planters for more and more slaves. After about a week's journey the slaves are landed on San Thome—Okaloua, or the island of Hell, as they call it—and they are distributed among the planters as they have been in the "emigration committee" for them. The planters pay from \$25 to \$30 for a grown slave delivered in good condition.

It is almost entirely for the cultivation of cocoa that the slaves are required; for the two islands, being close under the equator and nearly always veiled in mist and dripping with moisture, are as good for cocoa as they are for human life, and the cocoa trade is now of great increasing value. I believe it amounts to about \$1,000,000 a year. And the value of the slaves is consequently so great that I think their masters try in most cases to keep them alive. Yet, as our Consul, Mr. Nightingale, said in his published report, the death rate, where we can check it, is enormous. Among the slaves of Principe one in five dies every year, and where I have been able to test the rate on San Thome, it is almost equally high.

At the end of the five years the survivors are called up in batches of about fifty before the curator and are informed that their contract has been renewed for another term of five years. They never go back. I have sought in vain for a single case in which a slave from Angola has been returned to his home. A very few escape over sea in canoes. A few hundreds, especially on Principe, have escaped to the forests, where they are living there like wild beasts. From time to time the planters institute drives or battues and shoot them off. It was described to me as fine sport.

**SCOTT'S EMULSION**

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.

Journal in Harper's Magazine one of the great American cocoa manufacturers has written to me to say that in consequence of my articles he has stopped the importation of San Thome cocoa. I think it likely that other great manufacturers will follow this example and if they act together and give their reasons this may have some effect upon the Portuguese coast.

But as a nation we have the right to interfere. In 1830 we put Portuguese £200,000 to stop her slave trade. By the Berlin and Brussels Acts of only 21 and 16 years ago, Portugal bound herself, in common with us, to put down the slave trade from the Congo Basin and Central Africa generally. We have also the right of common humanity, which we have always claimed. I go about the world a good deal, and I know only too well how much of her reputation for humanity and justice England has lost in the last ten years. Last year I despaired of any appeal to such qualities among us. But it does seem now as though we were going to wash our own hands and make a fresh start. When our own hands are clean again at last, we can enforce such respectability upon Portugal as she does not resist. Or if she resists, I suppose we are still strong enough at sea to send a cruiser to arrest one of these legalized slave ships on its course and bring the abomination to an end.

FORE AND AFT.  
"It was twice to," explained a German who had twice come to grief in a sleep-chase. "When he comes to the first fence I did zink my horse vud jump, but he did not jump, so I went over his head. Ven ve kom to ze second fence I did zink he vud not jump, and he did jump, so I went over his tail."

WRAK WATERY BLOOD causes much trouble. That tired feeling and many more symptoms follow in the wake. Try "Scoville." It is the best tonic to make you strong and well. All druggists sell it.

Beauty is said to be only skin deep, but many a woman's beauty depends upon the size of her bank balance.

If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure and effective. Try it and mark the improvement in your child.

"George, did you know that I was going to marry your sister?" "Well, I heard her say so, but she's had that idea about so many other fellows, that I didn't feel sure about it till you told me."

Piles—Itching, Blind and Bleeding.—Cured in three to six nights. Dr. Agnew's Ointment is peerless in curing. One application gives instant relief. It does not alter any irritating skin diseases, Chaffing, Eczema, etc. 55 cents.—143.

Edgar: "Well, Ethel, what did you find out that wonderful fire sale?" Ethel: "Oh! Edging. I did some lovely silk stockings at ten cents a pair! There is not a thing the matter with them except the feet are burnt off!"

It Retains Old and Makes New Friends.—Time was when Dr. Thomas' Electric Oil had but a small field of distribution, but now its territory is widespread. Those who first recognized its curative qualities still value it as a specific, and while it retains its old friends it is ever making new. It is certain that whoever once uses it will not be without it.

Mamma: "What would my little girl do if mamma should go away?" Little Flora: "I don't know. I suppose I'd have to try to lock my own ears myself when I was naughty!"

"How did that lawsuit of yours re-sult?" "I won it." "Got damages?" "Yes, I got almost enough to pay my lawyer!"

Discouraged Stomachs.—Could you wonder at the delicate organs of digestion refusing to be helped and comforted when they are day after day being "drowned out" by strong coffee, bittern and hurtful nostrums. Common sense came into Medical Science when it evolved the tasty tablet dose and discovered a God-send to humanity in Dr. Von Stan's piperate tablets formula. 35 cents.—144.

**JAPS AT NELSON'S TOMB.**

Visiting Sailors Honor the Greatest of Sea-Fighters.

The London papers to hand give stories of the visit to London of the Japanese sailors sent over to man the great new warships recently built and being put into commission. The Express this week describes the visit of the crew of the Kashima to St. Paul's Cathedral. At a little before 8.30 in the morning the cry of "Here they come!" was raised among the mass of spectators who had gathered outside Liverpool street Station. The Japs in their blue jackets emerged into the street a hearty cheer swept through the watching ranks, followed by a confused chorus of "Banzais." The sailors broke into a confused roar of "Jellico!" With that promptitude which is bred of a naval training, they climbed into the string of primrose-colored brakes awaiting them. When they arrived at St. Paul's Cathedral the visitors showed the utmost solicitude to be conducted forthwith to Nelson's tomb, which had already been described to them by their comrades of the Kalor's crew. Their main as they stood around the tomb was a most impressive study. The sentiment of veneration, almost of awe, was plainly expressed in every countenance. The tradition of ancestor-worship is still strong in the Japanese nature.

A most pleasing, half pathetic incident of this visit was the coming of Dean Gregory to welcome the band of silent, blue-headed guests. Venerable under the burden of his 87 years, he stood before these heroes of a mighty strife, and addressed them in silvery, though slightly quavering tones.

"We in England," said he, pausing that the interpreter might translate his speech, "look on the Japanese as our friends. I am sure the Japanese feel this same sentiment towards us. The Japanese are a brave race, and it is the duty of the Englishmen that their destiny among the nations of the earth may prove as great as their valor, their chivalry and their humanity merit."

Archdeacon Sinclair followed with a few kindly words. Captain Riecht returned the thanks of his men for the warmth of their reception.

**If a Cow gave Butter**

mankind would have to invent milk. Milk is Nature's emulsion—butter put in shape for digestion. Cod liver oil is extremely nourishing, but it has to be emulsified before we can digest it.

**Scott's Emulsion**

combines the best oil with the valuable hypophosphites so that it is easy to digest and does far more good than the oil alone could. That makes Scott's Emulsion the most strengthening, nourishing food—medicine in the world.

Send for free sample. SCOTT & BOWNE, Chemists Toronto, Ont. 50c. and \$1.00. All druggists
