A Square Deal

Is assured you when you buy Dr. Pierce's family medicines-for all the ingredients entering into them are printed on the bottle-wrappers and their formula: are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple refined giveering. This agent possesses refined giveerine. This agent possesses intrinsic medicinal properties of its own being a most valuable antiseptic and antiferment, nutritive and soothing demul-

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stom ach, biliousness and kindred derangements of the stomach, liver and bowels, Besides curing all the above distressing silments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as eatarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course

In coughs and hoarseness caused by bronsumption in its advanced stages, the "Golden edical Discovery" is a most efficient remedy, especially in those obstinate, hang-on courns caused by irritation and congestion of the bronchial mucous membranes. The "Dis" covery " is not so good for acute coughs aris ing from sudden colds, nor must it be expected to cure consumption in its advanced s.a. s-no medicine will do that-but for all the obstinate, chronic coughs, which, if neglec. ed, or badly treated, lead up to consur o' tion, it is the best medicine that can be taken
