BLOOD MAKING TONIC TREATMENT

A Cure for Anemia That is Showing Remarkable Proofs of Cures in Stubborn Cases.

When the body becomes weak and run down, either from overwork, worry and the hereditary transmission of the blood-would show it to be weak and watery. This condition is called anemia, which is the medical term for "bloodlessness." The common symptoms are paleness of the lips, gums and cheeks, shortness of breath and palpitation of the heart after the slightest exertion, dull eyes and loss of appetite. Anemia itself is a dangerous disease and may gradually pass into consumption. It can only be cured by treating its cause—which is the poor condition of the blood. The blood must be made rich and thereby enabling it to carry the necessary nourishment to every part of the body.

Dr. Williams' Pink Pills are the greatest medicine in the world for making new, rich blood and they have been curing anemia and other blood diseases nearly a generation, and are now recognized the world over as an invaluable household remedy.

Mrs. D. Eslabrook, Brooklyn Road, N. B., says—"My daughter Gertrude, who is now in her sixteenth year, was sickly from early childhood, we were constantly doctoring for her, but it did little good, and she was continually growing weaker. She was always pale and listless, suffered from headaches, dizziness and palpitation of the heart. She did not rest at night, and would often lose and moan the whole night. Finally she was brought to the hospital, and she was continually taking doctors' medicine without benefit. I grew discouraged, and feared we would lose her. Friends urged us to give her Dr. Williams' Pink Pills, and I finally decided to do so. By the time she had finished a bottle she was able to return to school. From that on she grew stronger, had an excellent appetite, slept well at night, and is now as healthy a girl as you will see. I believe that Dr. Williams' Pink Pills saved her life, and as a mother I would recommend them to every family in which there are young girls."

All medicine dealers sell these pills, or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CHILDREN WHO RULE EMPIRES.

The New King of Portugal is Just Over Eighteen.

Manuel II, the new King of Portugal, is a young monarch as monarchs go. Indeed, had the murder of his father and his elder brother occurred only a few days before it did, he would have been at one and the same time a king and an infant in the eyes of the law. But by Portuguese custom the Crown Prince attains his majority at eighteen, and "Master Manuel," as he was until quite recently, is just over that age.

Even so, however, he is the youngest of living European rulers; although, of course, not the youngest to be proclaimed king. That record, as all the world knows, belongs to King Alfonso of Spain, who was born a king.

Wilhelmina of Holland, too, was a queen de jure when a little girl in short frocks, although she was not formally crowned until her eighth birthday.

Kwang Su, the present Emperor of China, was only a few months past three years old when he was proclaimed ruler over more than four million square miles of territory and four hundred millions of human beings. King Chulalongkorn of Siam ascended the throne at eight years of age.

His powerful neighbor, Mutsu Hito, was proclaimed Emperor of Japan soon after his fourteenth birthday. King Alexander of Serbia, whose recent terrible death is still fresh in public memory, was only thirteen, at his accession, and barely seventeen when he brought off his own initiative, the coup d'etat that made him absolute monarch in everything but name.

It's easy for the defeated candidate who was promoted to the support of his friends to believe King David was right when he said "All men are liars."

SCALD HEAD is a disgusting and obstinate disease, frequent in children. Treatment: Parrot's Cleanse and generous application of Weaver's Cream. Mothers will be glad to learn this.

"Why do so many of you go round playing together?" the school-boy asked the leader of the German band. "It was safer," was the thoughtful reply of the music-loving foreigner.

Why not keep your home with a bright cheery appearance. It makes everybody happy. It makes you happy. Runny's paint is the thing good going on there? Jimmy—"Well, ma's going to spank me." Tommy (in surprise)—"But why are you in such a hurry? Jimmy—"Because if I don't get home at once pa will be in, and hell do it."

BIG CRIMINAL ROUND-UPS.

The Largest, 6,500 Persons, Was Made by Peter the Great.

The arrest the other day in St. Petersburg of thirty-five male and female Terrorists is a big enough coup in its way, but it is by no means the biggest on record.

Indeed, no longer ago than March 20th, 1883, no fewer than two hundred nihilists—as the Terrorists were then called—were seized by the Tsar's secret police in this selfsame city, and the majority of them were deported forthwith to Siberia, never to be heard of again.

In Dublin, on January 28th, 1882, forty suspects were arrested all together under the Crimes Act. And this was followed, a year later, by the simultaneous seizure of twenty-one "invincibles," who were accused of complicity in the murders of Lord Frederick Cavendish and Mr. Burke.

When St. Regent tried unsuccessfully to assassinate Napoleon the latter turned the affair to account by promptly making out a list of persons who were known to have been in the actual conspiracy, the necessary nourishment to every part of the body.
