WAITING FOR DEATH, BUT NOT WITHOUT HOPE

"There is a poor woman in this purish apparently just waiting for death to come through consumption. She has not the means to go to a Sanatorium, or she would probably be at one before this. She is still comparatively strong, walks about quito a lot-drives sometimes, toobut every day, of course, is growing worse. Would there be any possibility of her being taken into your Home for Consumptives? It would be a mercy if she could be permitted to enter it. I would much appreciate

I have ost two daughters, and my wife con tracted the disease from our eldest one, who died ten months ago. am a working man and not able to jay a high rate, but still anxious to do what I can."-A. The above are typical of scores, indeed hundreds, of appeals constantly coming before the trustees of the

No effort is being spared to meet every call. . . . Not a single applicant has ever been refused admission to the Free Hospital because of his or her poverty.

and the anxiety of the trustees to keep none waiting is shown in the decision reached a few weeks ago to increase the accommodation by twenty-five beds.

-This increase in patients will add heavily to the burden of maintenance and can only be covered by increased generosity on the part of friends in all parts of Canada. Patients have been admitted from every Province in the Dominion, and it is with confidence in the response to our appeals, that the trustees believe will come from Canadians everywhere, that these additional burdens have been assumed.
