After referring to the historical set ting of the text, the preacher proceeded to show that the words were true of his congregations in four particulars. FIRST-They had not passed this

way heretofore as men and women. They were going through life for the first time, and they knew not the way. Therefore they needed a guide. They need that guide all the more because they would never pass this way again. He had heard men speak lightly of "making crooked paths." Each step made is made forever; we cannot go back and correct it. SECOND-As citizens they had not

way before, in the relationship of Pasfor and People They had each come by his own way. Their roads had converged until now they lie together, They could not expect to see eye to eye in all things, but when they did not they must be charitable.

He then exhorted them to make the Word of God the Man of their Counsel, and the Holy Spirit the Guide of

The text for the evening sermon was Job. XI.II. 5 and 6. Roofing Right.

Any "Oshawa"-shingled root is good for 100 years-at least. Roof economy is a plain, easy problem of weighing years against dollars,-of dividing the price of the roof by the length

How long will it stay a good roof? That is the question want a plain answer to when you consider roof economy. Not how long it will be a good enough roof if you patch it and paint it and tinker with every year or two. Not how long it will be a pretty good root if you take good care of it-How long it will be a GOOD roof if you DON'T take core of it? How long it will stay good if you don't do a thing to it?

The real test of roof cost, the test of root economy, is the length of time the roof will stay-Wind proof,-without repairs-100 years, if 'Oshawa' shingled' Damp proof-without repairs-100 years, if 'Oshawa' shingled, Rust and mildew proof-without repairs-100 years, if 'Oshawa'

Fire proof-without repairs-100 years, if 'Oshawa' shingled, Water proof-without repairs-100 yrs, if 'Oshawa' shingled. Proof against ALL the elements-how long will it stay so, that Tha't the test, and the only test worth your while, when you

spend good maney to cover any building worth roofing right. That's the yardstick that measures real roof economy.
