Ci Interest Te Weman, To such women as are not seriously out of health but who have exacting auties to perform, either in the way of houseodld cares or in social duties and functions which seriously tax their strength, as well as to bursing mothers, Dr. Pierce's Favorite Prescription has proved a most

ONTARIO. valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be en ployed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering child-

birth safe, easy, and almost painless. Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSI-TION, a full list of all its ingredients being printed, in plain English, on every bottlewrapper. An examination of this list of ngredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking he place of the commonly used alcohol. in its make-up. In this connection it may not be out of place to state that the avorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V.
