GOLDEN WEDDING.

On Monday evening about one hunalted and fifty persons gathered at the home of two of the most highly resperted residents of the village to celebrate the 50th anniversary of their wedding. The persons who were so signally honored were Mr. and Mrs. John McCrea, and the event was one which created widespread interest in the village, and even outside places contributed to the gathering, a special train from Toronto bearing the John C. Eaton party of about seventy five persons. Mrs. Eaton is a daughter of Mr. and Mrs McCrea, and she brought a number of her friends to the village to participate in the celebration The family home was prettily decorated for the golden wedding, and with bright, vari colored costumes of period mentioned, at regular rates the lady guests the grounds presented | would cost \$1.15. By accepting this a very pretty appearance.

Webb, of Toronto, and during the the Summer months will unquestionawedding dinner congratulatory speech- | bly be the greatest weekly publication es were given and acknowledged by which enters Canadian homes. It at Mr. McCrea in a speech in which he present contains a greater number of gave some interesting reminiscenses columns of reading matter than any of his early residence in Omenice, other Canadian weekly. All the The bride and groom of fifty years, news published in it is carefully sewho are still hale and hearty, were lected to meet the varied tastes of the made the recipients of a large number readers, of handsome and valuable presents as . The General News Section will conevidences of the universal esteem in tain the fullest and most complete inwhich they are held.

The seven children of Mr. and Mrs. McCrea were all present at the celebration. They are, Captain John McCrea, of Omemee; Arthur, of To sonto; William, of Toronto; Mrs. R. Mulligan, Omemee; Mrs. John (Eaton, of Toronto; Miss Annie, of To ronto, and Miss Ella, at home.

Each of the 150 guests was presented with a pretty souvenir of the event. In the evening a concert was held in the Methodist church, in which Mrs. Eaton is installing a fine new pipe organ, and during the progress of the evening in the addresses reference was made to the celebration which

had been held earlier in the day. The Mirror extends hearty congratulations to Mr. and Mrs. McCrea.

Bad Symptoms. The woman who has periodical headsches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragpelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from
weaknesses and derangements that should
have early attention. Not all of above
symptoms are likely to be present in any
case at one time. Neglected or badly treated and such cases often run into maladies which de-

THE DEAF MADE TO HEAR.

Deafness because usually due to Catarrh, is quite cureable. In a thouscases this is proved absornely true Success invariably attends the use of Catarrhozone which has cared catarrhal deafness of twenty-five years standing. Penetrating through the passages of the ear, the soothing vapor of Catarrhozone relieves the inflammation, destroys the seeds of Catarrh and thereby allows nature to re assist herself. Try Catarrhozone yourself, 25c. and \$1 00 sizes sold by all dealers.

NEVER SLIT YOUR BOOTS.

That does'nt cure the corn. Just apply the old standby, Putnam's Corn Extractor. It acts like magic Kills the pain, cures the corn, does it without burn or scar, Get the best-it's Putnam's

Ontario has for years been losing many enterprising agriculturists to the free land and fertile acres of the North-West. Hand in hand with the expliitation of Western wheat fields and the exedus of farm laborers, has an area of high prices for labor, and a decrease in the market for Ontario wheat which has seriously raised the price of bran and shorts. Not only has the loss of the profitable home market been a financial calamity to the Ontario miller and farmer, but the stockman and dairyman have felt the drain crused by the increased cost of an essential portion of their feed if

they are to get the best results. While some Ontario farmers have he jed to build up the West by buybe the strong Western flour, some farsighted millers have succeeded in care turing the market of the Martine Propincer by a carefully blended flour made from the best Ontario winter wheat The flavor of the bread is much improved and the percentage of giuten is sufficient for all requirements

What has been adopted eagerly by unprejudiced consumers in Nova Sco tis may well deserve the atte tion of the Onta- io public. In Toronto and other centres there is already a keen demand for the new product which is by several of the larger firms of wholesale bakers. A fair trial of the new bended Ontario flours will convince the nost sceptic I that this flour is surpassed by none, and its it creased consumption will be to the great advant ge of the public generally throughout the

FOR THOSE WHO CANNOT SEE.

In making the annual appeal to the readers of Ontario newspapers for information that will enable him to locate the children and youths of both sexes who are eligible for admission as pupils of the School for the Blind at gular dress article is devoted to a d s-Brantford, Principal Gardiner asks the A Janetville lady who was out pick- Mirror to call public attention to the need for some institution where the aduit blind may be instructed and em ployed. General experience has de monstrated the inadvisability of com bining a workshop for adults with school for children under one manage. ment, yet the blind adults, who far outnumber the children of school age should be no longer neglected. In New York State it has been ascertained by careful enquiry that out of 6,008 blind persons only 584, or 9.72 per cent. of the total number, are under 21 years of age: 3,193, or 53.14 per cent., are over 60 years of age; while 1,375, or 22.88 per cent., are between the ages of twenty-one and fifty-in the prime of life and capable of being rendered in whole or in part self-supporting. It is probable that the percentages in Ontaris are similar to those in New York. Many iose their sight by accident after passing school age, and many who have been blind from birth or order to work profitably. In Califorbia, Illinois, Indiana, Massachusetts.

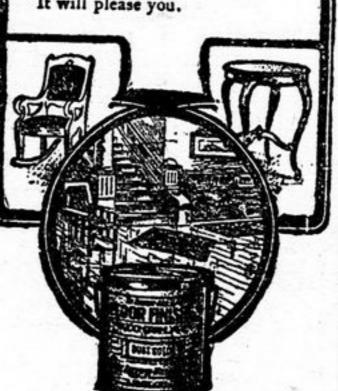

Michigan, New Jersey, New York, Ohio, Pennsylvania and Wisconsin workshops or homes have been pro vided, and in Washington, Co'orado and other States the matter has been taken up by Women's Clabs and other associations of philanthropic ladies whose influence upon public opinion and the Legislatures will certainly effect the desired result.

The first necessity is to get an accurate knowledge of the facts, and to this end Mr. Gardiner will gladly receive information relating to blind residents of Ontario of all ages (names and postoffice addresses.) Those under 21 years of age, not deficient in intelect, and tree from disease and physical infirmity, who are blind, or whose sight is so defective that they are unable to read ordinary type and attend a school for the seeing without serious mjury to the sight, should attend the school at Brantford, which is maintained by the Provincial government for their benefit. A letter or post card, addressed to the Principal, will receive immediate

FOR THE SCHOOL CHILDREN. The September number of the New IDEA Woman Magazine contain articles which will be of great practical help to those who have to provide and care for the needs of school children. Our re-

cussion of the necessities which the wardrobe of a girl going away to school or college should contain Read "College Girl's Outfit" before sending a young member of your family away for a year's absence. Those to whom the packing of the school lurcheon basket is a daily bugbear will find much yaluable information in an article on this subject by Elizabeth W. Morrison. "The Children's Study Room at Home" contains directions to provide a suitable place for the growing child to study. The carelessness prevailent in American homes in this respect shows that it is not realized sufficiently that, if children have only a corner which they can call their own their pri e m it often becomes an it . centive to good work. Many suggestions for school clothes for both boys and girls are found among the September patterns.

ANOTHER GREAT DISCOVERY.

A well known gentleman in Black Bay, Ont .. Mr. John Cowan, has discovered an absolute specific for Rheumatism, and writes: "I was affected with sciattica and chronic Rhenmatism which I contracted years ago. The disease had a great hold in my blood, and it was hard to make any impression on it. Reading of Ferrozone I was convinced of its merit and It's certainly the best I have ever tried. Why it just drove away the Rheums tism Even stiffened old sufferers will experience quick results. The reason is that Ferrezone acts through the blood and thereby destroys the cause of the disease. Price 50c. per box at all dealers.

The Milligan Pat.

This is a well thought out device for raising or lowering side curtains without getting out of the seat. A child can manipulate it with perfect case. You can put the top in any position desired, ie standing, half down or crushed, so you can use the hood on when closed down; the curtains are al ways in the top ever ready for use Can be attached to any Buggy top, Surrey or Automobile, etc., in fact on any top made; also an improvement for tightening up tollers, so easily adjusted you can regulate the springs in an instant.
