#### ORGAN RECITAL.

The Organ Recital in the Methodist church here on Monday night of this week was largely attended, not only by the residents of the village and vicinity but also by several from a distance.

The entertainment which was largely of a clasical nature and rare treat, was a formal opening of the two thousand dollar pipe organ so generously donated to the Methodist church by Mrs. J. C Eaton.

During the program the Trustees of the church, represented by G. Balfour, presented Mrs. Eaton with an address thanking the donor for her grateful remembrance. Mrs. Eaton responded very nicely to the address read.

A magnificent bouquet was present by Miss Lulu Balfour. Full report next week.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most

efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener. The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains ro alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, riz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and

For years the farmers of Ontario have heard of the phenomenal production of the Western wheat fields, and have resignedly accepted the much advertised superiority of Western flour as a conclusive fact. All over Ontarie the demand for Ontario wheat has impossible. Friends and doctors gave fallen off, with a consequent lowering of the price paid to the farmer for his grain, In addition, bran and shorts have become so expensive as to seriously reduce the margin of profit for

Now, the most practical discovery of the last decade, the one most far reachmatism and sciatica, 50c. per box at all ing in its results to Ontario farmers, is that known as "flour-blending" Western flour has been popular in Ontario on account of its large percentage of gluten or "strength" which chemists call proteid, although the western product lacks both flavor and color Flour made from Ontario Winter wheat is not so "strong," but has a peculiarly attractive flavor. When a little Western wheat is a lded to the Ontario product, the percentage of gluten is in-

creased, and all the flavor retained. The practical results of the discovery are certainly noteworthy. Ontario millers who have made specialty of the new flour have driven out Western flour from the Maritime Provinces. Canada's have been compelled in some instances to double their already extensive plants, and have created such a demand in Toronto that the most popular oaf sold to-day in that city is made of Ontario blended flour.

What is true of Nova Scotia and New Brunswick, where an unprejudiced ment. public have decided in fayor of the blended flour of Old Ontario, ought to appeal to Ontario farmers generally. Buying Manitoba flour is financial folly when the purchase of the Ontarto product gives better bread, and helps to create a demand for Ontario wheat. When people all over Onta-lo realize this fact, the farmers of Ontario will not only be the gamers of several millions of dollars, but will find that the cost of bran and shorts will drop to the normal figures of ten to fifteen dollars a ton. And, surely, the Onturio farmers should be the first to set the good example, by buying only the flour made largely from Ontario wheat.
