Her Mother Was a Careful Manager, and Adhered Unfailingly to Her Motto, "Never Waste."

Aunt Lucinda, happy with a lot of around her fingers and tie it in a trim little bunch, which she laid down | Madrid, Spain, correspondent. eff at one corner of the table.

"Are you going to save the string?"

asked one of the girls. "I always do that," said Aunt Lucinda. "That is something that I learnhabit has always clung to me." And then she sat back and talked a little. taking this opportunity to give her young nieces a little lesson in economy.

"Why," she said, "I don't believe any of you girls could comprehend the understood it in our family when I was young, though it would be a good thing for you all if you could.

"Thanks to economy we were enabled to live comfortably in a pleasant and very comfortable home on very small pay, all this being due to the unfailing watchful care of our mother, whose motto was 'Never waste.' It seems to me that everybody is wasteful in the present day.

"I can remember when my father earned \$50 a month, and when he came to earn \$100

WE THOUGHT WE WERE RICH, and we certainly were better off than some of our neighbors, nice people as they were, but still what we had and by the practice of the most rigid economy, in which my mother never all Mexican toreadors.

"She was a proud woman, who wantled to have her children look well and who wanted her house to be at least as well furnished and well looking as when you couldn't go through it from furniture and everything in order. Yes, rigid adherence to her motto of 'Never could apply to just as great advant- their spurs.

but all our other dresses and everysemething for them, and

THAT WAS SO MUCH GAIN.

And if we had any old iron, old hoops of tubs or pails or broken flat-irons or anything like that we saved them all till we had enough and then sold them: and, of course, we saved and sold old newspapers in just the same way, and beifles, everything; we wasted nothing, roles, the dangerous posts. The public and these things all brought in some-

"I never knew my mother to cut and slash the string on bundles and then throw the string away. When a bundle came in she would untie the cord carefully and wind it up around her Mingers in a little bunch and save it, as you saw me do with this string just told for the first time that he was superstition and scientific observation. mow. So we always had plenty of twine and cord for whatever use we greight need them; we never had to buy any. And of course she saved all wrapping paper, so that we always had wrapping paper in the house.

"So in these little simple things of paper and twine alone we saved cents and five cents and dimes-probably a gollar or two in the course of a year. Not much? No, but enough to buy a pair of shoes that we might not otherwise have had.

"We economized in eating, of course, We always had enough to eat, but usually simple food, and never any waste. Our mother knew just what we had to do if we were going to get along as we wanted to, and she had the courage to do it,

AND SHE NEVER WASTED.

"With that not close but still strict and wakeful economy everywhere we plways had money enough for everything we needed and our house was like gate opened and Vincente Segura arways furnished and in order, and we had one of the best pews in church, and really we were somebody in our circle, as good as the best, and we all earrings. felt that way; and all this was made to of never waste.

"As the saying is, we had things, and we always had a little reserve. We frills and stood alone in the centre of were not pinched in case of emergency; the ring. Fuentes slowly advanced and w didn't have to borrow-debt is a areadful thing-we were really indepen-

ried well. Our family's thrift didn't also advanced and followed suit. Next out turning a hair, "was that they have been satisfactorily solved, the wireus. And I tell you, my dears, that many a young man of limited income is kept from proposing by fear of extravagance and wastefulness on the part of the girl he would like to marry I tell you, girls, that no man ever thought less of a girl because she was careful and economical, but you may be sure that for these qualities he would love her all the more."

And then Aunt Lucinda proceeded to finish unwrapping the parcels. There was candy in the box, but still

On his native heath in Mexico, Segura, as a boy, equipped himself with meaning of the word economy as we the bull-fighter's regalia, and his father having constructed a ring for him, fought calves. He soon graduated to cows and then to young bulls.

At last, on his eighteenth birthday, his father allowed the young Vincente to fight his first full-grown and savage bull. It was a fete day on the state. Amid loud aclaim from the tenants and villagers, Segura skillfully despatched his animal. Shortly after this Antonio Montes, the famous prima espada of Spain, journeyed to Mexico and South America there to give exhibitions of his skill. He was invited to pay a visit to the Pachucha ranch and young Segura received many valuable lessons at his hands. The master also allowed the young man to join his troupe at some enjoyed we were enabled to have only of the nearby fights, and in a few months Segura was the most skilled of
