

ELICIOUS IN THE CUP

"SALADA"

CEYLON TEA is equalled by no other tea on sale for quality and flavor.

Lead packets only.

40c, 50c, and 60c per lb.

Black, Mixed or Green.

At all Grocers.

Highest award, St. Louis, 1904.

MOSQUITOES IN MINES.

There are many curiosities of the mines. It is reported from Colorado that mosquitoes are found in mines 1,200 and even 5,000 feet below the surface of the earth. "Experienced miners tell me," a correspondent writes, "that the mosquitoes sometimes become so bad that the men are unable to work. This phenomenon occurs only in shafts and tunnels, where there is stagnant water, but the surrounding country is entirely arid—as dry as a bone—with nothing but ponds or other places where mosquitoes might breed. Mosquitoes are found in high altitudes simply for that reason, and hence it is a mystery where those came from that are found in the mines."

BABY'S SLEEP.

One of the first signs that something is wrong with an infant is disturbed sleep. Usually the trouble is with the stomach or bowels. If your baby is cross and restless do not give it an opiate or "soothing" medicine of any kind. All these things are deadly poison, and the sleep they give is unhealthy, unnatural and injurious. Your baby will sleep and let you sleep if you treat it properly. In Baby's Own Tablets there is not an atom of poisonous "sleepy stuff," and yet by their beneficial, healthy action, they give refreshing sleep. They remove the cause, and the result is healthy, refreshing, life-giving sleep. For which the little one awakes bright and gay. Mrs. S. T. Douglas, Petticoat Co., N.B., says: "My baby was troubled with constipation, was restless and unquiet, and did not sleep well at nights. I gave him Baby's Own Tablets and the change they made was wonderful. They regulated the bowels and he now sleeps well at night." If your doctor does not keep the Tablets send 25 cents to the Dr. Williams' Medicine Co., Brockville, Ont., and a box will be sent you by mail postpaid.

UNAVOIDABLE.

"Tommy, why is it that you are always fighting with little Willie Burk?"

"'Cause he can't run as fast as me. I can't lick him."

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

Most of our time is spent in getting used to the things we didn't expect.

Parents buy Mother Graves' Worm Exterminator because they know it is a safe medicine for their children and an effectual expeller of worms.

SO IT IS.

It is the girl who marries a rough diamond who often gets the most real diamonds to wear.

SCALD HEAD is a disgusting and obstinate disease frequent in children. Treatment: Paree's Vegetable Salve and a generous application of Weaver's Cerate. Mothers will be glad to learn this.

To Starve is a Fallacy. —The diet to stop eating because you have indigestion has long since been abandoned.

Dr. Von Stan's Pineapple Tablets are great in the treatment of stomach trouble. It has proved that one may eat his fill, and one tablet taken after the meal will aid the stomach in doing its work. 60 in a box. 35 cents—24.

ON THE SAFE SIDE.

The hotel is so crowded, sir, that the best we can do is to put you in the same room with the proprietor."

"That will be all right; just put my valuables in the safe."

Something More Than a Purgative. To purge is the only effect of purgatives on the market. Paree's Vegetable Salve is more than a purgative. They strengthen the system, cure the blood, regenerate the liver and kidneys, and they stimulate other vital compounds depress the nervous system. No purgative of natural powers, eaters into their composition.

The reason folks can't take a love story for their guide is that it generally ends just before the trouble begins.

We CLAIM that "The D & L" Metal plaster will cure Lumbago, Backache, Sciatica or Neuralgia faster than any other plaster. Recommended by everybody.

A father going into his stable one day found his little son, with a slate and pencil in his hand, astride one of the horses. "Why, Harry," he exclaimed, "what are you doing?" "Writing a composition," was the reply. "Well, why don't you write it in the house?" asked the father. "Because," answered the little fellow, "the master told me to write a composition on a horse."

WONDERFUL RECOVERY.

Wels Physician Astounded at Recovery of His Patient.

A remarkable case of faith-healing has occurred at Penydarren, Merthyr, Wales. Miss Annie Griffiths, 24 years old, having made a wonderful recovery from an illness which threatened to make her permanent invalid.

Dr. Morrison of Merthyr, said that he diagnosed the case as one of tubercular hip joint disease. His diagnosis was confirmed by his chief, Dr. Creswell, and his last visit to Miss Griffiths was on Wednesday last.

Next day he was astonished to see her walk into his surgery without the trace of a limp.

"I am cured now," said Miss Griffiths, in reply to the doctor's question. "You have been very kind to me, and did all you could for me, but, of course, you are only an earthly physician. I took my case before the Heavenly Physician, and here I am well."

"There is no humbug about it," Dr. Morrison declared. "She walked into the surgery apparently well."

It was possible, he said, for persons laboring under strong emotions to appear to overcome bodily illness temporarily.

On Thursday two clergymen, Mr. Owen of Merthyr, and Mr. Francis, of Cardigan, visited Miss Griffiths and prayed for her recovery. Shortly afterwards, to the astonishment of everyone, she dressed without assistance and went downstairs.

SUFFERING WOMEN.

Find Health and Strength in Dr. Williams Pink Pills.

I consider Dr. Williams' Pink Pills the most marvelous medicine," says Mrs. Louis Turcott, 665 Paper street, Montreal. "They restored me to health and strength, when I was in a most hopeless condition, and almost despaired of recovery. My trouble began a few years ago, when I passed through a severe illness, from which I did not regain my accustomed health and strength, though I had the very best of care and treatment. I seemed to grow weaker every day. I was pale and wan, had no appetite, could hardly eat, and found my life almost a burden. I seemed as though my blood had turned to water, and my nerves seemed completely shattered. All the time I was under medical treatment, but with no apparent benefit. One day a friend who called to see me, brought me some Dr. Williams' Pink Pills, and asked me to take them. I did so, and after a couple of weeks I found my appetite improving, and took this as a sign that the pills were helping me, and I got another supply. In a few weeks there was the change in my appearance and condition which was marvellous, and friends who stopped to see me, hardly thought I was the same person. It was not much longer until I was completely cured, in fact felt better than I have done for years before. I am, therefore, very happy to make known to all kinds of women the fact that they can find new health through the use of Dr. Williams' Pink Pills."

Mrs. Turcott's experience with this medicine is the same as thousands of others. Dr. Williams' Pink Pills, the greatest cure for the ailments due to poor blood. All the weakness of anaemia; all the distress of indigestion; all the pains and aches of neuralgia, sciatica and rheumatism; all the misery and ill-health that women suffer from time to time, come from bad blood. And Dr. Williams' Pink Pills cure these troubles, because they actually make rich, rich, health-giving blood. They don't act upon the bones, they don't bother with more symptoms; they go right to the root of the trouble and cure it through the blood. But you must get the genuine—substitutes and imitations never cured anyone. See that the full name "Dr. Williams' Pink Pills for Pale People" is printed on the wrapper around the box. Sold in druggists dealers everywhere, or sent by mail at 50 cents a box or six boxes for \$2.50, by writing Dr. Williams' Medicine Co., Brockville, Ont.

HORSES OF SABLE ISLAND.

A recent visitor to Sable Island, a storm-swept bit of land lying about 100 miles eastward of Nova Scotia, describes the present condition of its celebrated droves of wild horses, the ancestors of which are supposed to have come from a wrecked Spanish ship, perhaps as early as the 16th century. Some 200 of these ponies are now living, although 25 years ago they were estimated to number 500 or 600. To the regret of naturalists, some of them have been crossed with modern horses. About two-thirds of the entire number are pure bred. They bear a striking likeness to the horses represented on the Parthenon frieze, and to the now exterminated tarpan horses of Tartary. All colors, except gray, are found among them, but chestnut is the most common, with a dark streak on the back.

LONDON.

London is a shop and a bank, a gaming hell and a cathedral. Its streets are paved with gold and set with stones. It is the place for a rich man and the place for a poor man. It is all wealth and happiness, it is all poverty and distress. It is a huge paradox. Many things are possible in London that are also impossible. If it so pleases you, and you possess the ability to do so, you may live not merely a double life, but half a dozen different lives, which will never clash with one another. You may be in London at the same time a priest and a pirate.

OLD WORK HORSE.

Teacher (to smallest boy in class) "What well-known animal supplies you with food and clothing?"

Smallest Boy (after some thought)

"My father."

FROM ERIN'S GREEN ISLE

NEWS BY MAIL FROM
IRELAND'S SHORES.

Happenings in the Emerald Isle
of Interest to Irish-
Canadians.

The Irish language is now being taught in 3,500 schools in Ireland. A new cable is about to be laid from Canso, Nova Scotia, to Waterford, Ireland.

A double tragedy is reported from Ballinlough, County Down, where a farmer stabbed his wife to death with a bayonet and then took his own life.

During the hearing of a case at the Belfast Police Court in which a man was charged with having threatened his wife, it was stated that there were ten people in one house, and two beds for them all.

The man, a lieutenant of Ireland has been rescued from the clutches of the much dreaded Bright's Disease by Dodd's Kidney Pills.

"For two years," says Mr. Young, in relating his experience, "I was afflicted with Bright's Disease. The doctor told me I could get no relief. My vision was very dark and I lost considerable blood, making me so weak I could scarcely stand. I also used many medicines without getting relief."

"Hearing of wonderful cures by Dodd's Kidney Pills led me to try them, and after using the first box I found great relief. After using four boxes I was able to go to work, which had been unable to do for some time. I recommend Dodd's Kidney Pills to all who are afflicted as I was."

Dodd's Kidney Pills always cure Bright's Disease, the most advanced stage of Kidney Disease. How much more easily will they cure the earlier stages of Kidney Disease.

A farmer named Thomas Bryson, living near Llanwad, who for some time past has suspected the presence of rich minerals on part of his land, has discontinued work on being examined by experts, was found to be rich in gold. The discovery was made in a rocky waterway.

The death occurred at his residence, Youghal, of Mr. Standish O'Grady, Clerk of the Crown and Peace for the City and East Riding of Cork. Mr. O'Grady was one of the best known and most highly esteemed Crown officials in Ireland, and was a native of Rathkeale, County Limerick.

The death is announced of Mr. H. A. Willis, head master of the Metropolitan School of Arts, Dublin.

Mr. Willis, who succeeded Mr. Beaman, on the retirement of the latter something over a year ago, died suddenly at Ballinlough, County Kerry where he was spending his annual holiday. His remains were interred at Ballinlough, County Cork.

The Municipality of Sligo intimated to the Westport Sports Committee that their sports were to be held under the rules of the Gaelic Association, which exclude the Constabulary and Army and Navy from its competitions.

Whilst working were engaged in making a search through a large number of human bones, amongst which were a few skulls. Along the sides of the trench can also be seen bones of horses of a similar kind. The place was once the burying ground of the Cistercians 400 years ago. The bones have been re-interred.

A report has been received by the Constabulary that three "winds" of horses were buried on the night of the 10th inst. On the following night one "wind" of horses belonging to Maurice Jones, was buried, also at Tullerboy, and on the night of the 13th inst. at Tullerboy likewise sixteen tons of hay were buried on the farm of Mr. Daniel Russell. The police station at Bohernagh, two miles from Bohernagh, was discontinued some time since.

KAFFIR CHIEF'S WEDDING.

Interesting Ceremony Viewed by British Savants.

A correspondent telegraphing from Pietermaritzburg, gives an interesting account of a native wedding which was witnessed by members of the British Association recently. The delegates were conveyed to Holloway in special trains, and on their arrival a Kaffir dance was performed by 1,000 natives, in presence of Sir Henry McCallum, the Governor, as special guest.

The plow is restricted to the Hindus, but custom is universal. There is the Indian peasant's plow.

The overwhelming majority of the inhabitants of India are dependent on the land, and their crops would be much increased by better methods of cultivation.

The plow is an implement which merely scratches the surface of the earth—an implement from remotest antiquity. A new plow was introduced by an enterprising firm of manufacturers, and it freed the soil from weeds over a province. It did not succeed in a competition, and was offered at a price within the peasants' means. But it did not "catch on," simply because the plowman could not get at his bullock's tail to twist them. The superior tillage is still to be had.

Caste will admit no intrusion of new blood, when the same exclusive spirit is imported into the ordinary dealings of life, you arrive at that stagnant conservatism which is called "custom" in the East.
