"By Medicine Life May be Prolonged." So wrote Shakespeare nearly three hundred years ago. It is so to-day. Medicine will prolong life, but be sure of the qualities of the medicine. Life prolonged by keeping the body free from disease. Dr. Thomas' Electric Oil sed internally will cure coughs and ilds, eradicate asthma, overcome croup and give strength to the respiratory organs. Give it a trial.

A doctor took it into his head to go it shooting, and started out bright early on a beautiful morning, fully for game. About four in the sfhe returned, tired out and emptelling his wife he hadn't ning, whereupon she remarked, ally: "I told you so," adding, ext breath: "If you had stayed al home and attended to your legitimate business you might have been more successful."

THE WHITE.

The Natives of South Africa Are Coming to Realize Their Strength.

Most people in this country believe that the natives of South Africa have been subjugated once for all, and that Dealers are authorized henceforth we will peacefully colonize the country, until it becomes a great and prosperous white man's continent, like America, says London Answers. British blood has been freely shed and British money spent in hundreds of millions to accomplish this object, and the idea seems grotesque that the end of it all should be the subjugation of the whites by the blacks.

But there are many men, well qualified to judge, who prophesy that the He Laments the Decay of the Old Time time will surely come when the white man will have to quit-unless the black

man gives him leave to stay. "It rejoices me, mildly," said the The recent trouble in Natal showed that many of the natives believe they can already resist the rule of the whites. borhood where I dwell, the sound of a chopping knife in a bowl. In these days No one can say at the moment how far this feeling extends. If it were to spread so many things are done by machinery. Even in the household so many things throughout the land, and produce a genthat once we pored over with patient eral uprising of the native races, it is extremely doubtful whether the white and loving care we do now without a thought except of the work involved, by colonists could hold their own in the contest. Britain would have a war on her hands equal to, or greater than, the Boer War.

FIVE BLACKS TO ONE WHITE.

tonously, and there is the hash. What a descent is this from the old time Of course Britain would carry it to a successful issue. But the question is, if tion? There is no mistake about it. "The scrupulously clean chopping the rebellion is delayed for a generation For some years past a number of negro bowl and the equally trim knife. The or two, would even the power of Great missionaries from America have been materials, good materials, prepared with Britain be equal to the task? We can stumping the country, and telling the ticular sword—and perhaps one or two care, and placed with care in the bowl; not see so far into the future, since natives what they must fight for.
